

assessment rates by dividing the amount of dumping for reviewed sales to the importer by the total quantity of those sales. Commerce will calculate an estimated *ad valorem* importer-specific assessment rate to determine whether the per-unit assessment rate is *de minimis*; however, Commerce will use the per-unit assessment rate where entered values were not reported.¹⁴

Where an importer-specific *ad valorem* assessment rate is not zero or *de minimis*, Commerce will instruct CBP to collect the appropriate duties at the time of liquidation. Where either the respondent's weighted average dumping margin is zero or *de minimis*, or an importer-specific *ad valorem* assessment rate is zero or *de minimis*, Commerce will instruct CBP to liquidate appropriate entries without regard to antidumping duties.

For Jingli, we will direct CBP to assess antidumping duties at a rate equal to the weighted-average dumping margin determined in these final results.

Commerce determined that C&U Group, C&U Automotive, C&U Metallurgy, Hebei Xintai, Huangshi C&U, Sichuan C&U, and XTL did not qualify for a separate rate. Therefore, we will instruct CBP to assess antidumping duties on these entities' entries of subject merchandise at 92.84 percent, the established weighted-average dumping margin for the China-wide entity.

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this administrative review for shipments of the subject merchandise from China entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided by section 751(a)(2)(C) of the Act: (1) for the exporters listed above, the cash deposit rate will be equal to the weighted-average dumping margin established in the final results of this review; (2) for previously investigated or reviewed Chinese and non-Chinese exporters not listed above that currently have a separate rate, the cash deposit rate will continue to be the exporter-specific rate published for the most recently completed segment of this proceeding where the exporter received that separate rate; (3) for all Chinese exporters of subject merchandise that have not been found to be entitled to a separate rate, the cash deposit rate will be the rate for the China-wide entity, 92.84 percent; and (4) for all non-Chinese exporters of subject

merchandise that have not received their own separate rate, the cash deposit rate will be the rate applicable to the Chinese exporter that supplied that non-Chinese exporter.

These deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties has occurred and the subsequent assessment of double antidumping duties.

Administrative Protective Order

This notice also serves as a final reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

Notification to Interested Parties

We are issuing and publishing these final results of administrative review in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.221(b)(5) and 19 CFR 351.213(h)(2).

Dated: January 4, 2023.

Lisa W. Wang,

Assistant Secretary for Enforcement and Compliance.

SUPPLEMENTARY INFORMATION:

Agenda

Tuesday, January 24, 2023

The Council will begin this meeting in Closed Session to discuss appointments to its Scientific and Statistical Committee. At 9:30 a.m., the open session will begin with brief announcements, followed by reports on recent activities from the Council's Chair and Executive Director, the Greater Atlantic Regional Fisheries Office (GARFO) Regional Administrator, the Northeast Fisheries Science Center (NEFSC) Director, the NOAA Office of General Counsel, the Mid-Atlantic Fishery Management Council liaison, staff from the Atlantic States Marine Fisheries Commission (ASMFC), and representatives from the U.S. Coast Guard, NOAA's Office of Law Enforcement, and the Northeast Trawl Advisory Panel. Next, the Council will receive an update from GARFO on: (1) the development of measures under Phase 2 of the Atlantic Large Whale Take Reduction Plan, which are intended to reduce entanglements of large whales in gillnet fisheries; and (2) an overview of the Atlantic Large Whale Take Reduction Team's recommendations on potential measures. The Council will have an opportunity to provide input on the recommendations. Members of the Northeast Fisheries Science Center's Gear Research Team will then give a presentation on engaging the mobile gear fleet to visualize ropeless gear and prevent gear conflicts. This will be followed by a short update on the Council's discussions with the Mid-Atlantic Fishery Management Council to develop sink gillnet measures to protect large whales and Atlantic sturgeon.

After the lunch break, the Council will receive a presentation from the

Northeast Fisheries Science Center's Social Sciences Branch on its Greater Atlantic Region Commercial Fishing Business Cost Survey for 2022. The presentation will include information on: (1) survey background and the importance of collecting cost data; (2) improvements and changes from previous surveys; and (3) the upcoming survey implementation schedule and related details. Then, the Habitat Committee will provide its report, which will cover: (1) an update on draft management alternatives for a framework adjustment to the Atlantic Salmon Fishery Management Plan (FMP) to facilitate offshore Atlantic salmon aquaculture; and (2) an update on offshore energy issues and other habitat-related work, including a progress report on the Bureau of Ocean Energy Management's (BOEM) Gulf of Maine offshore wind development activities. As the last item of business for the day, the Council will have a discussion on and decide whether to recommend a control date to potentially limit the movement of limited access general category (LAGC) permits in the Northern Gulf of Maine (NGOM) Atlantic sea scallop fishery.

Wednesday, January 25, 2023

The Council will begin the second day of its meeting with a presentation on and discussion about quantifying, interpreting, and communicating sources of uncertainty in the Council decision-making process. The Monkfish Committee report will follow. The Council will take final action on Framework Adjustment 13 to the Monkfish FMP, which includes specifications for the 2023-2025 fishing years and other measures. The Council will consider additional Scientific and Statistical Committee (SSC) input on acceptable biological catches (ABCs) for all three monkfish fishing years before taking final action. The Council also will revisit its 2023-24 priorities for the Monkfish Research Set-Aside Program. Next, members of the public will have the opportunity to speak during an open comment period on issues that relate to Council business but are not included on the published agenda for this meeting. The Council asks the public to limit remarks to 3-5 minutes. These comments will be received both in person and through the webinar. A guide for how to publicly comment through the webinar is available on the Council website at https://s3.amazonaws.com/nefmc.org/NEFMC-meeting-remote-participation_generic.pdf.

After the lunch break, the Council will take up the Groundfish Committee
