

Procedure, part 201, subparts A and B (19 CFR part 201), and part 207, subparts A, D, E, and F (19 CFR part 207).

Staff report.—A staff report containing information concerning the subject matter of the review has been placed in the nonpublic record, and will be made available to persons on the Administrative Protective Order service list for this review on January 13, 2023. A public version will be issued thereafter, pursuant to § 207.62(d)(4) of the Commission's rules.

Written submissions.—As provided in § 207.62(d) of the Commission's rules, interested parties that are parties to the review and that have provided individually adequate responses to the notice of institution,² and any party other than an interested party to the review may file written comments with the Secretary on what determination the Commission should reach in the review. Comments are due on or before January 23, 2023 and may not contain new factual information. Any person that is neither a party to the five-year review nor an interested party may submit a brief written statement (which shall not contain any new factual information) pertinent to the review by January 23, 2023. However, should the Department of Commerce ("Commerce") extend the time limit for its completion of the final results of its review, the deadline for comments (which may not contain new factual information) on Commerce's final results is three business days after the issuance of Commerce's results. If comments contain business proprietary information (BPI), they must conform with the requirements of §§ 201.6, 207.3, and 207.7 of the Commission's rules. The Commission's *Handbook on Filing Procedures*, available on the Commission's website at https://www.usitc.gov/documents/handbook_on_filing_procedures.pdf, elaborates upon the Commission's procedures with respect to filings.

In accordance with §§ 201.16(c) and 207.3 of the rules, each document filed by a party to the review must be served on all other parties to the review (as identified by either the public or BPI service list), and a certificate of service must be timely filed. The Secretary will not accept a document for filing without a certificate of service.

Determination.—The Commission has determined this review is extraordinarily complicated and

therefore has determined to exercise its authority to extend the review period by up to 90 days pursuant to 19 U.S.C. 1675(c)(5)(B).

Authority: This review is being conducted under authority of title VII of the Tariff Act of 1930; this notice is published pursuant to § 207.62 of the Commission's rules.

By order of the Commission.

Issued: January 9, 2023.

Katherine Hiner,

Acting Secretary to the Commission.

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Comprehensive Environmental Response, Compensation, and Liability Act

On December 16, 2022, the Department of Justice lodged a proposed Consent Decree with the United States District Court for the District of New Jersey in *United States v. Alden Leeds, Inc., et al.*, Civil Action No. 2:22-cv-07326. The proposed Consent Decree resolves the United States' claim against 85 defendants under section 107(a) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 ("CERCLA"), 42 U.S.C. 9607(a), relating to Operable Unit 2 and Operable Unit 4 of the Diamond Alkali Superfund Site ("Site") in New Jersey.

In the proposed Consent Decree, the 85 Settling Defendants agree to pay \$150 million in cleanup costs. EPA Region 2's estimated future cleanup costs for Operable Unit 2 and Operable Unit 4 of the Site are \$1.82 billion. EPA sponsored an allocation process, which involved hiring a third party neutral to perform an allocation. The process concluded in December 2020 with a Final Allocation Recommendation Report that recommends relative shares of responsibility for each allocation party's facility or facilities evaluated in the allocation. After review of the Final Allocation Recommendation Report, EPA identified the parties who were eligible to participate in the proposed Consent Decree. Based on the results of the allocation, the United States concluded that the Settling Defendants, individually and collectively, are responsible for a minor share of the response costs incurred and to be incurred at or in connection with the cleanup of Operable Unit 2 and Operable Unit 4, for releases from the facilities identified in the proposed

Consent Decree. Certain Settling Defendants had previously resolved their liability for Operable Unit 2, and so were not evaluated in the allocation, but are participating in the proposed Consent Decree in order to resolve their liability for Operable Unit 4. The Consent Decree includes covenants not to sue related to Operable Unit 2 and Operable Unit 4 under sections 106 and 107(a) of CERCLA, as well as contribution protection under section 113 of CERCLA. The consent decree does not include reopeners for previously unknown conditions or information, or for cost overruns, but the settlement amount collectively paid by the Settling Defendants protects against the risk that future costs will exceed EPA's estimate of the future cleanup costs for Operable Unit 2 and Operable Unit 4.

On December 22, 2022, the Department of Justice published a notice in the **Federal Register** opening a public comment period on the consent decree for a period of forty-five (45) days. 87 FR 78711. By this notice, the Department of Justice is extending the public comment by an additional forty-five (45) days, through March 22, 2023. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States v. Alden Leeds, Inc., et al.*, Civil Action No. 2:22-cv-07326, D.J. Ref. No. 90-11-3-07683/1. All comments must be submitted no later than March 22, 2023. DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Modification to Consent Decree Under the Clean Air Act and Other Statutes

On January 6, 2023, the Department of Justice lodged a proposed Agreement and Order Regarding Modification of Consent Decree (“Agreement and Order”) with the United States District Court for the Eastern District of Texas in the lawsuit entitled *United States and State of Texas v. E.I. du Pont de Nemours and Company and Performance Materials NA, Inc.*, Case No. 1:21-cv-00516-MJT. The original Consent Decree was entered by the Court on January 28, 2022, and it requires the settling defendants to implement injunctive relief at an ethylene production facility located in Orange, Texas.

The proposed Agreement and Order modifies one injunctive relief requirement of the original Consent Decree to provide for use of an alternative control technology to reduce benzene emissions to air at certain locations within the facility. Specifically, the proposed modification would change the control requirement for benzene waste emissions at two locations to the use of a thermal oxidizer as the primary control technology. Carbon canisters operated in series would not be used at these locations. There are no other changes to the original Consent Decree.

The publication of this notice opens a period for public comment on the proposed Agreement and Order. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to entitled *United States and State of Texas v. E.I. du Pont de Nemours and Company and Performance Materials NA, Inc.*, Case No. 1:21-cv-00516-MJT, D.J. Ref. No. 90-7-1-10173. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:

DEPARTMENT OF LABOR

Mine Safety and Health Administration

[OMB Control No. 1219-0144]

Proposed Extension of Information Collection; Mine Rescue Teams; Arrangements for Emergency Medical Assistance and Transportation for Injured Persons; Agreements; Reporting Requirements; Posting Requirements

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Request for public comments.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed collections of information in accordance with the Paperwork Reduction Act of 1995. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Mine

Safety and Health Administration (MSHA) is soliciting comments on the information collection for Mine Rescue Teams; Arrangements for Emergency Medical Assistance and Transportation for Injured Persons; Agreements; Reporting Requirements; Posting Requirements.

DATES: All comments must be received on or before March 13, 2023.

ADDRESSES: Comments concerning the information collection requirements of this notice may be sent by any of the methods listed below.

- *Federal E-Rulemaking Portal:* <http://www.regulations.gov>. Follow the on-line instructions for submitting comments for docket number MSHA-2022-0064.

- *Mail/Hand Delivery:* Mail or visit DOL-MSHA, Office of Standards, Regulations, and Variances, 201 12th Street South, Suite 4E401, Arlington, VA 22202-5452. Before visiting MSHA in person, call 202-693-9455 to make an appointment, in keeping with the Department of Labor’s COVID-19 policy. Special health precautions may be required.

- MSHA will post your comment as well as any attachments, except for information submitted and marked as confidential, in the docket at <https://www.regulations.gov>.

SUPPLEMENTARY INFORMATION:

I. Background

Section 103(h) of the Federal Mine Safety and Health Act of 1977 (Mine Act), 30 U.S.C. 813(h), authorizes MSHA to collect information necessary to carry out its duty in protecting the safety and health of miners. Further, section 101(a) of the Mine Act, 30 U.S.C. 811, authorizes the Secretary of Labor to develop, promulgate, and revise as may be appropriate, improved mandatory health or safety standards for the protection of life and prevention of injuries in coal and metal and nonmetal mines.

30 CFR part 49 subpart A, Mine Rescue Teams for Underground Metal and Nonmetal (MNM) Mines, requires every operator of an underground mine to assure the availability of mine rescue capability for purposes of emergency rescue and recovery. This collection of information relates to the availability of mine rescue teams; alternate mine rescue capability for small and remote
