SUMMARY: The U.S. Department of Commerce (Commerce) is amending its final results in the administrative review of the antidumping duty order on circular welded carbon steel standard pipe and tube products (pipe and tube products) from Turkey for the period May 1, 2020, through April 30, 2021, to correct a ministerial error.

DATES: Applicable January 17, 2023.

FOR FURTHER INFORMATION CONTACT: Magd Zalok, AD/CVD Operations, Office IV, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–4162.

SUPPLEMENTARY INFORMATION:

Background

On December 9, 2022, Commerce published the final results of the 2020–2021 administrative review of pipe and tube products from Turkey.¹ On December 7, 2022, Commerce granted interested parties in this administrative review the opportunity to provide comments on any ministerial errors found in the margin calculation for the final results, in accordance with 19 CFR 351.224(c)(2).² On December 12, 2022, Commerce received a timely filed allegation from Borusan Mannesmann Boru Sanayi ve Ticaret A.S. (Borusan Mannesmann) and Borusan Istikbal Ticaret T.A.S. (Istikbal) (collectively, Borusan), the respondent in this administrative review, alleging that Commerce made a ministerial error in the *Final Results* regarding its calculation of the final dumping margin.³ We received ministerial error

rebuttal comments from Wheatland Tube (Wheatland), a petitioner in this administrative review.⁴ Based on our analysis of the allegation, we determine that we made a ministerial error and have made changes to the calculation of the weighted-average dumping margin for Borusan and for the non-individually examined respondents.⁵

Scope of the Order

The products covered by this order are welded carbon steel standard pipe and tube products with an outside diameter of 0.375 inches or more but not over 16 inches of any wall thickness, and are currently classified under the following Harmonized Tariff Schedule of the United States (HTSUS) subheadings: 7306.30.10.00, 7306.30.50.25, 7306.30.50.32, 7306.30.50.40, 7306.30.50.55, 7306.30.50.85, and 7306.30.50.90. Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the order is dispositive. These products, commonly referred to in the industry as standard pipe or tube, are produced to various ASTM specifications, most notably A–120, A–53, or A–135.

Ministerial Error

Section 751(h) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.224(f) define a “ministerial error” as an error “in addition, subtraction, or other arithmetic function, clerical error resulting from inaccurate copying, duplication, or the like, and any other similar type of unintentional error which the Secretary considers ministerial.”

Borusan argues that Commerce incorrectly set the beginning date for the margin and home market calculation programs to the months of the period of review (POR), thereby, omitting certain reported U.S. sales that Borusan sold prior to the POR but entered the United States during the POR.⁶ We agree with Borusan that Commerce made an unintentional error within the meaning of section 751(h) of the Act and 19 CFR 351.224(f) and, therefore, we have corrected the error by amending the
