

Center, currently under construction; and as proposed, would transport up to 210 million standard cubic feet per day of natural gas to this facility. According to Alliance, the Project is necessary to provide Competitive Power Venture's Three Rivers Energy Center with access to an additional natural gas supply source.

The final EIS assesses the potential environmental effects of the construction and operation of the Project in accordance with the requirements of the National Environmental Policy Act (NEPA). The FERC staff concludes that approval of the proposed Project, with the mitigation measures recommended in the EIS, would result in some adverse environmental impacts, but none that are considered significant. Regarding climate change impacts, this EIS is not characterizing the Project's greenhouse gas emissions as significant or insignificant because the Commission is conducting a generic proceeding to determine whether and how the Commission will conduct significance determinations going forward.¹ The EIS also concludes that no system, route, or other alternative would meet the Project objective while providing a significant environmental advantage over the Project as proposed.

The U.S. Environmental Protection Agency (EPA) and the U.S. Nuclear Regulatory Commission (NRC) participated as cooperating agencies in the preparation of the EIS. Specifically, the EPA provided FERC environmental staff with recommendations to inform the EIS and the NRC advised FERC environmental staff concerning nuclear safety reviews and the associated regulatory process with respect to Alliance's proposal and the nearby Dresden Nuclear Generating Station and General Electric Hitachi Nuclear Energy Morris Independent Spent Fuel Storage Installation. Cooperating agencies have jurisdiction by law or special expertise with respect to resources potentially affected by the proposal and participate in the NEPA analysis.

The Commission mailed a copy of the *Notice of Availability of the Final Environmental Impact Statement for the Proposed Three Rivers Interconnection Project* to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Indian tribes; potentially affected landowners and other interested individuals and groups; and

newspapers and libraries in the Project area. The final EIS is only available in electronic format. It may be viewed and downloaded from the FERC's website (www.ferc.gov), on the natural gas environmental documents page (<https://www.ferc.gov/industries-data/natural-gas/environment/environmental-documents>). In addition, the final EIS may be accessed by using the eLibrary link on the FERC's website. Click on the eLibrary link (<https://elibrary.ferc.gov/eLibrary/search>) select "General Search" and enter the docket number in the "Docket Number" field (*i.e.*, CP21-113-000). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

Additional information about the Project is available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC website (www.ferc.gov) using the eLibrary link. The eLibrary link also provides access to the texts of all formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription that allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to <https://www.ferc.gov/ferc-online/overview> to register for eSubscription.

Dated: January 13, 2023.

Kimberly D. Bose,
Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP95-35-000]

EcoEléctrica, L.P.; Supplemental Notice of Technical Conference

As announced in the Notice of Technical Conference issued in this proceeding on December 14, 2022, the Federal Energy Regulatory Commission (Commission) will convene a Commission staff-led technical conference to discuss issues raised related to the structural analysis of EcoEléctrica, L.P.'s (EcoEléctrica)

liquefied natural gas (LNG) storage tank at its LNG terminal in Peñuelas, Puerto Rico. The technical conference will be held on January 18-19, 2023, from approximately 9:00 a.m. to 4:00 p.m. Eastern time. The conference will be held virtually and in person (Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC). The agenda for this event is attached. The technical conference will not be open for the public to attend. Only those specified in the December 14, 2022 Notice may attend.

Commission conferences are accessible under section 508 of the Rehabilitation Act of 1973. For accessibility accommodations, please send an email to accessibility@ferc.gov, call toll-free (866) 208-3372 (voice) or (202) 208-8659 (TTY), or send a fax to (202) 208-2106 with the required accommodations.

For more information about this technical conference including how to participate, virtual and in person meeting details, etc., please contact Karla Bathrick at karla.bathrick@ferc.gov or at (202) 502-6328.

Dated: January 13, 2023.

Kimberly D. Bose,
Secretary.
