Comments

A 60-day Notice requesting public comment was published in the **Federal Register** on November 11, 2022 at 65753–65754. This comment period ended January 3, 2023. Three public comments were received from this Notice. Each commenter expressed support for conducting the training and technical assistance surveys and believed the burden to be reasonable. Most comments related to the wording of some of the survey questions, and AmeriCorps generally re-worded these questions to clarify what we are asking and to fix some mistakes. Some suggestions were made to add information to the demographic questions (e.g., additional options to select, information to help respondents quickly identify their regions). For the most part, these changes were made. For a few questions, we added an “other” option to elicit suggestions for additional training topics we might not have thought of, in addition to the main topics listed in the original survey. Two commenters suggested we consider providing a paper copy of the survey to respondents can consider the questions ahead of time before completing the electronic survey. We will provide a link on the website to a printable copy of the survey.

Title of Collection: AmeriCorps All-Partner Training and Technical Assistance Survey.

OMB Control Number: 3045–NEW.

Type of Review: New.

Respondents/Affected Public:

AmeriCorps grantees and sponsors who have VISTA, AmeriCorps State and National, AmeriCorps Seniors, and Days of Service/Volunteer Generation Fund awards.

Total Estimated Number of Annual Responses: 101,000 responses.

Total Estimated Number of Annual Burden Hours: 14,083.

Abstract: This new collection represents 3 different surveys: The AmeriCorps All-Partner Training and Technical Assistance (TTA) Survey is designed to gather information about the experiences our grantees and sponsors have with our current TTA so that we can improve how we develop and provide TTA to our partners in the future. The changes brought on with the Agency's restructuring, rebranding, and the website overhaul have affected the TTA we provide to our grantees and sponsors. This survey is meant to provide a current baseline for how grantees/sponsors access, use, and receive our current TTA. Grantees and sponsors, as the target audience for the training we develop, have insight that can help AmeriCorps improve our trainings and our internal processes around training development. The Post-Training eLearning Survey and the Post-Training Live Webinar Survey are designed to collect feedback on specific trainings immediately after they are taken by grantees/sponsors. These surveys are an essential piece to effective instructional design and training because they allow us to get direct feedback on individual trainings from their target audience. This feedback will help us correct errors, clarify issues, determine what other training needs exist—all of which will help us improve the quality of training we provide to grantees and sponsors. Together, these surveys will help us better support the recipients of AmeriCorps awards to manage their awards more effectively and efficiently. This is a new information collection.
