

6c. How can Federal surveys or forms collect data related to descent from enslaved peoples originally from the African continent? For example, when collecting and coding responses, what term best describes this population group (e.g., is the preferred term “American Descendants of Slavery,” “American Freedmen,” or something else)? How should this group be defined? Should it be collected as a detailed group within the “Black or African American” minimum category, or through a separate question or other approach?

6d. The proposals in this FRN represent the Working Group’s initial suggestions for revisions to SPD 15 to improve the accuracy and usefulness of Federal race and ethnicity data. The Working Group and OMB welcome comments and suggestions on any other ways that SPD 15 could be revised to produce more accurate and useful race and ethnicity data.
