Abstract: The National Underground Railroad Network to Freedom Act of 1998 (54 U.S.C. 308301, *et seq.*) authorizes the NPS to collect information from applicants requesting to join the Network to Freedom Program (the Network). The NPS uses Form 10-946, National Underground Railroad Network to Freedom Application, to evaluate potential participants and determine eligibility to become part of the Network. Through the Network, we coordinate preservation and education efforts nationwide and are working to integrate local historical sites, museums, and interpretive programs associated with the Underground Railroad movement.

All entities that apply to join the Network must have a verifiable association with the historic Underground Railroad movement and complete NPS Form 10-946, “National Underground Railroad Network to Freedom Application,” available at <https://www.nps.gov/subjects/ugrr/index.htm> (website). Respondents must (1) verify associations and characteristics through descriptive texts that are the result of historical research and (2) submit supporting documentation (*e.g.*, copies of rare documents, photographs, and maps).

Network to Freedom Program Partners work with the NPS to help validate the efforts of local and regional

organizations, making it easier for them to share their expertise and communicate with us and each other. Prospective partners must submit a letter with the following information:

Abstract: (a) General Information: The Federal Oil and Gas Royalty Management Act of 1982 (“FOGRMA”) directs the Secretary of the Interior (“Secretary”) to “establish a comprehensive inspection, collection and fiscal and production accounting and auditing system to provide the capability to accurately determine oil and gas royalties, interest, fines, penalties, fees, deposits, and other payments owed, and to collect and account for such amounts in a timely manner.” See 30 U.S.C. 1711. ONRR performs these and other mineral revenue management responsibilities for the Secretary. See U.S. Department of the Interior Departmental Manual, 112 DM 34.1 (Sept. 9, 2020). FOGRMA and ONRR’s regulations at 30 CFR Chapter XII do not apply to the Osage Mineral Estate.

The Osage Mineral Estate is held in trust by the United States for the benefit of the Osage Nation. See Osage Allotment Act of June 28, 1906, Public Law 59–321, 3, 34 Stat. 539, as amended. BIA’s regulations at 25 CFR part 226 contain requirements specific to the Osage Mineral Estate, and, historically, BIA has performed compliance activities related to those requirements. In conjunction with this ICR, BIA has published a proposed rule in the **Federal Register** on January 13, 2023 (88 FR 2430) that would require a lessee of the Osage Mineral Estate to submit to ONRR certain forms already authorized in this ICR for Federal and non-Osage Indian lands. Accordingly, this ICR revision adds information collections specific to oil and gas royalty and production reporting for the Osage Mineral Estate.

This ICR remains unchanged in its application and effect as to all leases previously subject to the information collections described below in (b)(2) and (3), which includes all Federal leases onshore and offshore and all Indian leases held in trust by the United States, except for the Osage Mineral

Estate. The information collection related to the Osage Mineral Estate is described below in (b)(1).

ONRR uses the production, royalty, and other information collected in this ICR to ensure that a lessee properly pays royalty and other mineral revenues due on oil, gas, and geothermal resources produced from Federal and Indian lands. ONRR shares the data with the Bureau of Indian Affairs, Bureau of Land Management, Bureau of Ocean Energy Management, Bureau of Safety and Environmental Enforcement, and Tribal and State governments for their land and lease management responsibilities. The requirement to report accurately and timely is mandatory.

(b) *Information Collections:* This ICR covers the paperwork requirements under 30 CFR part 1210, subparts B, C, and D; part 1212, subpart B and proposed regulations under 25 CFR part 226, subparts F and I as follows:

(1) *Osage Mineral Estate Royalty and Production Reporting:* The proposed regulations at 25 CFR part 226, subparts F and I require a lessee to submit information to ONRR specific to the Osage Mineral Estate's royalties, rental, bonuses, and other payment information, including sales volumes and values. Lessees are required to submit this information by using one of the forms identified by ONRR. ONRR uses the information collected to ensure companies properly pay royalties based on accurate production accounting on oil, gas, and geothermal resources that they produce from leases of the Osage Mineral Estate.

(2) *Royalty Reporting:* Regulations at 30 CFR part 1210, subparts B and D and part 1212, subpart B, require a lessee to report and remit royalty on oil, gas, and geothermal resources, and to make, retain, and, upon request, provide for inspection accurate and complete records demonstrating proper royalty and other payment. A lessee submits form ONRR-2014, *Report of Sales and Royalty Remittance*, monthly to report royalty on oil, gas, and geothermal leases. Each line contains the royalty owed and the basic elements necessary to calculate the royalty, such as lease number, agreement number, unit number, product code, sales type, sales volume, sales value, processing allowances, transportation allowances, royalty value prior to allowances, and royalty value less allowances. A lessee also uses the form to report certain rents.

(3) *Production Reporting:* Regulations at 30 CFR part 1210, subparts C and D and part 1212, subpart B, require an operator to submit production reports if

it operates a Federal or Indian oil and gas lease or federally approved unit or communitization agreement, and to make, retain, and, upon request, provide for inspection accurate and complete records for demonstrating royalty payment. An operator uses the following forms for production accounting and reporting:

(i) *Form ONRR-4054, Oil and Gas Operations Report:* An operator submits this report monthly. Part A tracks the oil and gas volume produced from each Federal or Indian well. Part B tracks disposition of the oil and gas. Part C tracks the oil and gas inventory on the property. ONRR compares the production information with the sales and other royalty data that a lessee submits on form ONRR-2014 to ensure that the lessee paid and reported the proper royalty on the reported oil and gas production. ONRR also uses the information from parts A, B, and C to track all oil and gas from the point of production to the point of first sale or other disposition.

(ii) *Form ONRR-4058, Production Allocation Schedule Report:* Unless certain conditions are met, an operator must submit this report if it operates an offshore facility measurement point (FMP) handling production from a Federal oil and gas lease or federally approved unit agreement that is commingled (with approval) with production from any other source prior to measurement for royalty determination. The report is filed monthly to allocate the production to each source. ONRR uses the data to verify accurate production and royalty reporting.

Title of Collection: Royalty and Production Reporting.

OMB Control Number: 1012-0004.

Form Numbers: ONRR-2014, ONRR-4054, and ONRR-4058.

Type of Review: Revision to a currently approved collection.

Respondents/Affected Public: Businesses.

Total Estimated Number of Annual Respondents: 3,490 oil, gas, and geothermal reporters.

Total Estimated Number of Annual Responses: 12,827,063 lines of data.

Estimated Completion Time per Response: Varies between 1 and 7 minutes per line, depending on the activity. The average completion time is 1.72 minutes per line. The average completion time is calculated by first multiplying the estimated annual burden hours from the table below (369,379) by 60 to obtain the total annual burden minutes. Then the total annual burden minutes (22,162,740) is divided by the estimated annual number

of lines submitted from the table below (12,827,063).

Total Estimated Number of Annual Burden Hours: 369,379 hours.

Respondent's Obligation: Mandatory.

Frequency of Collection: Monthly.

Total Estimated Annual Non-Hour Burden Cost: ONRR identified no "non-hour cost" burden associated with this collection of information.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the PRA (44 U.S.C. 3501, *et seq.*).

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701-TA-564 and 731-TA-1338-1340 (Review)]

Steel Concrete Reinforcing Bar From Japan, Taiwan, and Turkey

Determination

On the basis of the record¹ developed in the subject five-year reviews, the United States International Trade Commission ("Commission") determines, pursuant to the Tariff Act of 1930 ("the Act"), that revocation of the countervailing duty order on steel concrete reinforcing bar ("rebar") from Turkey and revocation of the antidumping duty orders on rebar from Japan, Taiwan, and Turkey would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

Background

The Commission instituted these reviews on June 1, 2022 (87 FR 33206) and determined on September 6, 2022 that it would conduct expedited reviews (87 FR 77636, December 19, 2022).

The Commission made these determinations pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)). It completed and filed its determinations in these reviews on January 24, 2023. The views of the Commission are contained in USITC Publication 5400 (January 2023), entitled *Steel Concrete Reinforcing Bar from Japan, Taiwan,*

¹ The record is defined in § 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR 207.2(f)).
