**SUPPLEMENTARY INFORMATION:** This notice provides a summary of the proposed changes to Circular 7050.1B. The Circular itself is not included in this notice; instead, a redline version of the updated Circular showing the proposed changes is posted in Docket FTA-2022-0038.

FTA is proposing to update Circular 7050.1B, to add "technology to fuel a zero-emission vehicle" as an eligible joint development improvement under FTA programs. Recipients of assistance for these improvements must collect fees for the use of the charging facilities unless exceptions apply.

Sec. 30001 of the BIL amended section 5302 of title 49, United States Code, by adding section 5302(4)(G)(vi)(XV); revising section

5302(4)(G)(iv); and reordering Sections 5302(4)(G)(i-vi).<sup>1</sup> Section 5302(4)(G)(vi)(XV) added "technology to fuel a zero-emission vehicle" as an eligible joint development improvement under the definition of a "Capital Project."

Section 5302(4)(G)(iv) provides that "if equipment to fuel privately owned zero-emission passenger vehicles is installed, the recipient of assistance shall collect fees from users of the equipment in order to recover the costs of construction, maintenance, and operation of the equipment." FTA is proposing to add this language to the Circular on pages III-7 and VI-4-VI-5, with the following clarifying language: "The recipient of assistance shall be required to collect fees from usage only if the equipment is used primarily by privately-owned passenger vehicles. Fee collection may also be waived if the recipient demonstrates in the joint development application that the cost to install a fee collection system is more than the recipient anticipates collecting from users of the equipment. The method of fee collection in all circumstances is at the discretion of the site host and/or recipient of FTA assistance."

This update of Circular 7050.1B is a direct implementation of a statutory change. FTA recommends that interested stakeholders review the proposed changes to the Circular and provide comment on any impacts these proposed changes may have on future joint development projects.

After a review and consideration of the comments provided on these changes, FTA will publish the updated Circular on its website. No other changes to the Circular are being proposed at this time.
