Description

On July 30, 2002, human remains representing, at minimum, one individual were removed from their resting spot in Beaverton Township, MI (Gladwin County). The human remains (MPC-7-22) consist of a fragmented partial cranium that is missing the mandible, maxillae, majority of the facial bones, and teeth. Osteobiographical information determined by Dr. Todd Fenton of Michigan State University indicated the individual was Native American due to the dry bone, cortical exfoliation, adhered soil, lack of odor, and vault shape. On August 24, 2022, the human remains were located at the Michigan State Police West Branch post, which immediately requested assistance in carrying out NAGPRA responsibilities. Subsequently, Ms. Hanna Friedlander collected the human remains and transferred them to temporary holding at the Michigan State Police Headquarters in Dimondale, MI. No known individual was identified. No associated funerary objects are present.

Disposition of the human remains described in this notice to a requestor may occur on or after March 1, 2023. If competing requests for disposition are received, the Michigan State Police must determine the most appropriate requestor prior to disposition. Requests for joint disposition of the human remains are considered a single request and not competing requests.
