

The Rule

This amendment to 14 CFR part 71:

Amends the Class D airspace at St. Louis Regional Airport, Alton/St. Louis, IL, by replacing the outdated term “Notice to Airmen” with “Notice to Air Missions”:

Removes the Class E airspace designated as an extension to Class D airspace at St. Louis Regional Airport as it is no longer required;

And amends the Class E airspace extending upward from 700 feet above the surface at St. Louis Regional Airport by removing the Civic Memorial NDB and associated extension from the airspace legal description.

This action is due to an airspace review conducted as part of the decommissioning of the Civic Memorial NDB which provided navigation information for the instrument procedures at this airport.

FAA Order JO 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures,” paragraph 5–6.5.a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: NMFS issues regulations to implement Amendment 52 to the Fishery Management Plan for the Commercial King and Tanner Crab Fisheries of the Bering Sea and Aleutian Islands (Crab FMP) and a regulatory amendment to revise regulations on Economic Data Reports (EDR) requirements for groundfish and crab fisheries off Alaska. This final rule removes third party data verification audits and blind formatting requirements from the Bering Sea and Aleutian Islands (BSAI) crab fisheries EDR, the Bering Sea American Fisheries Act (AFA) pollock fishery Chinook Salmon EDR, and the BSAI Amendment 80 fisheries EDR. This action also eliminates the EDR requirements for the Gulf of Alaska (GOA) trawl fisheries. This final rule is intended to promote the goals and objectives of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), the Crab FMP, the Fishery Management Plans for Groundfish of the Gulf of Alaska Management Area (GOA FMP) and for the Groundfish of the BSAI Management
