SUPPLEMENTARY INFORMATION:

I. Background

In July 2012, Congress passed the Generic Drug User Fee Amendments of 2012 (GDUFA I) (Pub. L. 112–144). GDUFA I was designed to enhance public access to safe, high-quality generic drugs and to modernize the generic drug program. To support this goal, FDA agreed in the Generic Drug User Fee Act Program Performance Goals and Procedures (GDUFA I commitment letter) to work with industry and interested stakeholders on identifying science and research initiatives specific to generic drugs for each fiscal year covered by GDUFA I.

In August 2017, GDUFA was reauthorized until September 2022 through the Generic Drug User Fee Amendments of 2017 (GDUFA II) (Pub. L. 115–52), and in September 2022, GDUFA was reauthorized until September 2027 through the Generic Drug User Fee Amendments of 2022 (GDUFA III) (Pub. L. 117–180, 136 Stat. 2155). In the GDUFA Reauthorization Performance Goals and Program Enhancements Fiscal Years 2023–2027 (GDUFA III commitment letter),[1] FDA agreed to conduct annual public workshops ''to solicit input from industry and stakeholders for inclusion in an annual list of GDUFA III regulatory science initiatives.'' This public workshop scheduled for May 11, 2023, and May 12, 2023, seeks to fulfill this agreement.

II. Topics for Discussion at the Public Workshop

The purpose of this public workshop is to obtain input from industry and other interested stakeholders on identifying generic drug science and research initiatives for FY 2024. FDA is interested in receiving input about regulatory science initiatives for the ongoing years of the GDUFA III science and research program, and particularly for FY 2024.

Topics discussed during the workshop will likely include challenges and considerations for oral, parenteral, and other generic products, including complex products. Specific presentations and discussions at this workshop will be announced at a later date and may differ from the topics above. However, input about the topics above will help the Agency identify and expand its scientific focus for the next fiscal year.

FDA will consider all comments made at this workshop or received through the docket (see **ADDRESSES**) as it develops its FY 2024 science and research initiatives. Information concerning the science and research initiatives for generic drugs can be found on the Science & Research website at *https://www.fda.gov/drugs/generic-drugs/science-research.*

III. Participating in the Public Workshop

Registration: Registration is free. Persons interested in attending this public workshop must register online at *https://fda.zoomgov.com/webinar/register/WN_J3MsCbCWQwyuA1AojKF_8Q.* Registration may be performed at any time before or during the workshop.

Requests to provide public comments via a pre-recorded presentation or a live presentation, including in-person or virtual presentations, should be submitted by 11:59 p.m. Eastern Time at the end of March 31, 2023. We will do our best to accommodate requests to make public comments. Individuals and organizations with common interests are urged to consolidate or coordinate their presentations, and request time for a joint presentation, or submit requests for designated representatives to participate in the workshop. No commercial or promotional material will be permitted to be presented or distributed at the public workshop.
