

wintertime access to inholdings right-of-way (ROW) application that we have received from Kaktovik Inupiat Corporation. The application is for an ROW across the Arctic National Wildlife Refuge. Due to the complexity of the project, we are announcing our need to extend the timeframe for completing the EA.

FOR FURTHER INFORMATION CONTACT:

Brian Glaspell, Chief, National Wildlife Refuge System in Alaska, Alaska Regional Office, by email at FW7_ArcticNWR_KIC_ROW_NEPA@fws.gov; by U.S. mail at 1011 East Tudor Road, Anchorage, AK 99503; or by telephone at 907-786-3584. Information about the applicant's proposal is also available at <https://www.fws.gov/refuge/arctic>. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: In compliance with the National Environmental Policy Act of 1969, as amended (NEPA 42 U.S.C. 4321 *et seq.*), and the Alaska National Interest Lands Conservation Act (ANILCA; 16 U.S.C. 3111-3126), we, the U.S. Fish and Wildlife Service (Service), are preparing an environmental assessment (EA) for a wintertime access to inholdings right-of-way (ROW) application submitted by Kaktovik Inupiat Corporation (KIC). Submitted under section 1110(b) of ANILCA, the application is for a 20-year ROW across the lands and waters of the Arctic National Wildlife Refuge (Refuge) between KIC lands located within the Refuge and the land-based winter transportation network west of the Refuge's western boundary. Due to the complexity of the project, we announce via this notice that we need to extend the timeframe for completing the EA.

Applicant's Proposed Activities

The applicant has identified the following initial items for transport over the ROW during the term of the desired ROW permit, including but not limited to the following:

- Permanent school modules for Kaktovik and other building modules;
- Bi-directional movement of community vehicles;
- Diesel fuel, using double-walled fuel tanks, for the community powerplant; and
- Other consumables, as identified by the community.

The number of round trips would vary year to year, depending on community needs. All products would be transported across the proposed winter overland trail on Rolligon vehicles, which exert low ground pressure. For detailed information regarding KIC's application, please go to <https://www.fws.gov/refuge/arctic>.

Purpose and Need for the Proposed Action

The purpose of the proposed action is to assure adequate and feasible access (to the extent it does not already exist) for economic and other purposes to KIC's inholdings within the Refuge while protecting the natural and other values of the Refuge. The need for the proposed action is established by KIC's application for an ROW pursuant to title XI, section 1110(b) of ANILCA and the Department's implementing regulations at 43 CFR part 36.

Potential Affected Resources

Based on the proposed route and methods identified by KIC in their ROW application (<https://www.fws.gov/refuge/arctic>), the Service has identified the following potentially affected resources:

- Polar bears and their critical habitat;
- Cultural and paleontological resources;
- Tundra, soils, permafrost, stream banks, and coastal banks;
- Proposed wilderness and wilderness character;
- Central Arctic and Porcupine caribou herds;
- Water;
- Public safety;
- Viewshed;
- Soundscape;
- Shorebirds and other avian species;
- The Hula Hula River (proposed by the Service as a wild and scenic river under the National Wild and Scenic Rivers System Act (Pub. L. 90-542; 16 U.S.C. 1271 *et seq.*));
- Other marine mammal species in the vicinity of the project area;
- Other threatened and endangered species;
- Socioeconomics of the Kaktovik community; and
- Subsistence uses.

Next Steps

The Service received the complete application from KIC on December 21, 2021. Although departmental regulations in 43 CFR part 36 state that an EA or a draft environmental impact statement shall be completed within 9 months after the application filing date, those regulations allow for a longer time

period if the lead agency determines, for good cause, that the 9-month period is insufficient. Due to the complexity of the project, the Service needs to extend the completion date for the EA. The Service will complete the draft EA by September 2023. Upon completion, the Service will make the draft EA available on the Refuge's website (<https://www.fws.gov/refuge/arctic>) for a 45-day public comment period. Within 90 days after the draft EA comment period closing date, the Service will either prepare a final EA (and, if appropriate, a finding of no significant impact), or will commence development of an environmental impact statement.

Sara Boario,

Regional Director, Alaska Region.

Indian Gaming; Approval of Tribal-State Class III Gaming Compacts in the State of Oregon

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice.

SUMMARY: This notice publishes the approval of the Amended and Restated Tribal-State Compact for Regulation of Class III Gaming between the Confederated Tribes of the Grand Ronde Community of Oregon and the State of Oregon (Compact) governing class III gaming for the Confederated Tribes of the Grand Ronde Community of Oregon (Tribe) in the State of Oregon (State).

DATES: The Amendments take effect on February 8, 2023.

FOR FURTHER INFORMATION CONTACT: Ms. Paula L. Hart, Director, Office of Indian Gaming, Office of the Deputy Assistant Secretary—Policy and Economic Development, Washington, DC 20240, paula.hart@bia.gov, (202) 219-4066.

SUPPLEMENTARY INFORMATION: Under section 11 of the Indian Gaming Regulatory Act (IGRA), Public Law 100-497, 25 U.S.C. 2701 *et seq.*, the Secretary of the Interior shall publish in the **Federal Register** notice of approved Tribal-State compacts for the purpose of engaging in Class III gaming activities on Indian lands. As required by 25 CFR 293.4, all compacts and amendments are subject to review and approval by the Secretary. The amended and restated Compact replaces the previous compact

effective July 14, 2006, including Amendment 1, effective December 28, 2012, Amendment II, effective December 13, 2017, and Amendment III, effective December 27, 2019. The Compact permits the Tribe to implement changes in operations regarding cashless wagering, licensing for certain employees and management officials, criteria for issuance of grants through the Tribe's community fund, and other technical corrections and amendments. The Compact is approved.

Bryan Newland,

Assistant Secretary, Indian Affairs.

Notice of Inventory Completion: Walsh Gallery, Seton Hall University, South Orange, NJ

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), the Walsh Gallery at Seton Hall University (Walsh Gallery) has completed an inventory of human remains and has determined that there is a cultural affiliation between the human remains and Indian Tribes or Native Hawaiian organizations in this notice. The human remains were removed from unknown sites in the Mid-Atlantic United States.

DATES: Repatriation of the human remains in this notice may occur on or after March 10, 2023.

FOR FURTHER INFORMATION CONTACT: Laura Hapke, Collections Manager, Walsh Gallery, University Libraries, Seton Hall University, 400 South Orange Avenue, South Orange, NJ 07079, telephone (973) 275-2165, email laura.hapke@shu.edu.

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the Walsh Gallery. The National Park Service is not responsible for the determinations in this notice. Additional information on the determinations in this notice, including the results of consultation, can be found in the inventory or related records held by the Walsh Gallery.

Description

Human remains representing, at minimum, six individuals were removed from unknown sites in the Mid-Atlantic United States. In all cases, no known individuals were identified and no associated funerary objects are present.

FIM013—Possibly in 1962, the human remains of one individual were excavated by Lewis Haggerty from a location in New York he identified as the "Van Sickle site." Based on Haggerty's records, this site may have been in Orange County, NY. The age of the human remains is unknown. Haggerty's collection, including these human remains, was donated to the Seton Hall University Museum of Anthropology and Archaeology in 1981. In 2001, the museum closed following director Herbert Kraft's death, and in 2015, its collections were transferred to the Walsh Gallery.

FIM172—At an unknown date, the human remains of one individual were removed from an unknown location. These remains came into the collection of the Seton Hall University Museum of Anthropology and Archaeology through Professor of Anthropology Herbert Kraft. As Kraft's work focused on the Lenape Indians, these human remains are likely affiliated with the Lenape. In 2001, the museum closed following director Herbert Kraft's death, and in 2015, its collections were transferred to the Walsh Gallery.

FIM606—At an unknown date, the human remains of one individual were removed from an unknown location. These human remains came into the collection of the Seton Hall University Museum of Anthropology and Archaeology through Professor of Anthropology Herbert Kraft. As Kraft's work focused on the Lenape Indians, these human remains are likely affiliated with the Lenape. In 2001, the museum closed following director Herbert Kraft's death, and in 2015, its collections were transferred to the Walsh Gallery.

FIM607—At an unknown date, the human remains of one individual were removed from an unknown site in New Jersey. In 1962, David Werner and Lyman Vandermark donated these human remains to the Seton Hall Museum of Anthropology and Archaeology. The age of these human remains is unknown. The Seton Hall University Museum of Anthropology and Archaeology closed in 2001, and in 2015, its collections were transferred to the Walsh Gallery.

FIM0608—At an unknown date, the human remains of one individual were

removed from an unknown location. These human remains came into the collection of the Seton Hall University Museum of Anthropology and Archaeology through Professor of Anthropology Herbert Kraft. As Kraft's work focused on the Lenape Indians, these human remains are likely affiliated with the Lenape. In 2001, the museum closed following director Herbert Kraft's death, and in 2015, its collections were transferred to the Walsh Gallery.

FIM0609—At an unknown date, the human remains of one individual were removed from an unknown location. These human remains came into the collection of the Seton Hall University Museum of Anthropology and Archaeology through Professor of Anthropology Herbert Kraft. As Kraft's work focused on the Lenape Indians, these human remains are likely affiliated with the Lenape. In 2001, the museum closed following director Herbert Kraft's death, and in 2015, its collections were transferred to the Walsh Gallery.

Cultural Affiliation

The human remains in this notice are connected to one or more identifiable earlier groups, tribes, peoples, or cultures. There is a relationship of shared group identity between the identifiable earlier groups, tribes, peoples, or cultures and one or more Indian Tribes or Native Hawaiian organizations. The following types of information were used to reasonably trace the relationship: historical and geographical (based on institutional knowledge about the Walsh Gallery's archeological collection).

Determinations

Pursuant to NAGPRA and its implementing regulations, and after consultation with the appropriate Indian Tribes and Native Hawaiian organizations, the Walsh Gallery has determined that:

- The human remains described in this notice represent the physical remains of six individuals of Native American ancestry.

- There is a relationship of shared group identity that can be reasonably traced between the human remains described in this notice and the Delaware Nation, Oklahoma; Delaware Tribe of Indians; and the Stockbridge Munsee Community, Wisconsin.

Requests for Repatriation

Written requests for repatriation of the human remains in this notice must be sent to the Responsible Official
