**SUPPLEMENTARY INFORMATION:** In compliance with 44 U.S.C. 3507, ACL has submitted the following proposed collection of information to OMB for review and clearance. The Administration for Community Living (ACL) is currently engaged in an effort to streamline and standardize grantee profiles across three programs managed by the Office of Healthcare Information and Counseling (OHIC): the State Health Insurance Assistance Program (SHIP), Senior Medicare Patrol (SMP), and Medicare Improvements for Patients and Providers Act (MIPPA). Grantees in each program must adhere to a specific set of reporting requirements and associated reporting schedules outlined in their Program Reporting Guidelines. While

reporting requirements are effective in ensuring grantees data, there is no consistency or uniformity in how individual grantees submit their data.

For example, SHIP profiles currently exist; these profiles are accessible to the SHIP grantee network via the program’s technical assistance center, and they can be updated directly by grantee states. SMP and MIPPA profiles have yet to be developed. The goal of this data collection effort is to obtain consistent data elements for the three programs that will allow ACL to reimagine the existing profiles into a comparable set of data elements across programs.

These data will allow RTI International, a contractor to ACL, to develop an updated set of grantee profiles that are accessible, visually

appealing, and consistent across programs. Specifically, the purpose of this data collection effort is to update the SHIP grantee profiles, which were last updated in 2016, and develop similar profiles for SMP and MIPPA. These profiles will be internal to ACL and will only be shared with grantees.

A web-based questionnaire will be emailed to all 125 grant managers (representing 54 states and territories) electronically via Smartsheet. The collected data will be imported into a dataset and will be used to create program profiles accessible to ACL and grantees.

27, 2022. Zero public comments were received during the 60-day FRN. ACL’s responses to these comments are included below.

**Estimated Program Burden**

ACL estimates the burden of this collection of information as follows:

A maximum of 125 grantees are expected to respond to the web-based data collection instrument. The approximate burden for pre-data collection preparation is 30 minutes per respondent and approximate burden for form completion is 20 minutes per respondent for a total annual estimate of 103.75 hours. The estimated completion burden includes time to review the instructions, read the questions and complete and responses.

IC BURDEN CHART

Respondent/data collection activity	Number of respondents	Responses per respondent	Hours per response	Annual burden hours
Pre-data collection preparation .....	125	1	0.5	62.5
Web-based data collection .....	125	1	0.33	41.25
<b>Total .....</b>	<b>125</b>	<b>1</b>	<b>0.83</b>	<b>103.75</b>

**AGENCY:** Administration for Community Living, Department of Health and Human Services.

**FOR FURTHER INFORMATION CONTACT:** Elizabeth Leef, (202) 475–2482 or *Elizabeth.Leef@acl.hhs.gov*.

**SUPPLEMENTARY INFORMATION:** In compliance with the Paperwork Reduction Act, ACL has submitted the following proposed new information collection to OMB for review and clearance.

The purpose of the federal Traumatic Brain Injury (TBI) State Partnership Program is to create and strengthen person-centered, culturally competent systems of services and supports that maximize the independence and overall

health and well-being of all people with TBI across the lifespan, their family members, and their support networks. The TBI State Partnership Program funds the development and implementation of statewide systems that ensure access to TBI related services, including transitional services, rehabilitation, education and employment, and long-term community support. To best monitor, guide, and support TBI State Partnership Program grantees, ACL requires grantees to report about their activities and outcomes. The simplest, least burdensome and most useful way to accomplish this goal is to require grantees to submit information as part of their required semiannual reports via the proposed electronic data submission instrument (appendix A).

In 1996, the Public Health Service Act was amended “to provide for the conduct of expanded studies and the establishment of innovative programs with respect to traumatic brain injury, and for other purposes” (Pub. L. 104–166). This legislation allowed for the implementation of “grants to States for the purpose of carrying out demonstration projects to improve access to health and other services regarding traumatic brain injury.” The TBI Reauthorization Act of 2014 (Pub. L. 113–196) allowed the Department of Health and Human Services Secretary to review oversight of the federal TBI
