SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995 (PRA, 44 U.S.C. 3501 *et seq.*) and 5 CFR 1320.8(d)(1), we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

A **Federal Register** notice with a 60-day public comment period soliciting comments on this collection of information was published on February 16, 2022 (87 FR 8876). No comments were received.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again soliciting comments from the public and other Federal agencies on the proposed ICR that is described below. We are especially interested in public comment addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility.
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used.
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected.
- (4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic,

mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The National Park Service Organic Act, 54 U.S.C. 100101(a) *et seq.*, requires that the NPS preserve national parks for the enjoyment, education, and inspiration of this and future generations. In order to monitor resources and wildlife in the Glacier Bay National Park and Preserve (GLBA) and to enhance the safety of future visitors, the park monitors all sightings and interactions by visitors with bears. NPS regulations codified in 36 CFR 1–7, 12 and 13, are designated to implement statutory mandates that provide for resource protection and public enjoyment.

The NPS uses Forms 10–405, “Tatshenshini—Alek River Bear Report” and 10–406, “Bear Information Management Report to record observations and interactions by visitors to determine bear movements, habitat use, and species distribution. Obtaining immediate information on bear-human conflicts allows managers to respond promptly to mitigate further conflicts. Proactive mitigation includes notifying other backcountry users, issuing advisories or recommendations, or issuing closures to prevent further conflicts and maintain public safety.

Title of Collection: Glacier Bay National Park and Preserve Bear Sighting and Encounter Reports.

OMB Control Number: 1024–0281.
