

DEPARTMENT OF HOMELAND SECURITY**Coast Guard****33 CFR Part 165**

[Docket No. USCG–2023–0026]

Safety Zone; Riverwalk Marketplace/Lundi Gras Fireworks Display, New Orleans, LA**AGENCY:** Coast Guard, DHS.**ACTION:** Notification of enforcement of regulation.

SUMMARY: The Coast Guard will enforce a temporary safety zone for the Riverwalk Marketplace/Lundi Gras fireworks display on February 20, 2023, to provide for the safety of life on navigable waterways during this event. Our regulation for annual fireworks displays and other events in the Eighth Coast Guard District requiring safety zones identifies the regulated area for this event on the navigable waters of the Lower Mississippi River between Mile Marker (MM) 93 and MM 96, New Orleans, LA. During the enforcement period, entry into this zone is prohibited unless authorized by the Captain of the Port or a designated representative. All persons and vessels shall comply with the instructions of the Captain of the Port or designated representative. Designated representatives include commissioned, warrant, and petty officers of the U.S. Coast Guard.

DATES: The regulation in 33 Code of Federal Regulations, Part 165.801, Table 5, line 1 will be enforced from 6 p.m. through 7 p.m. on February 20, 2023.

FOR FURTHER INFORMATION CONTACT: If you have questions about this notification of enforcement, call or email Lieutenant Commander William Stewart, Sector New Orleans, U.S. Coast Guard; telephone 504–365–2246, email William.A.Stewart@uscg.mil.

SUPPLEMENTARY INFORMATION: The Coast Guard will enforce a temporary safety zone in 33 CFR 165.801, Table 5, line 1, for the Riverwalk Marketplace/Lundi Gras fireworks display event from 6 p.m. through 7 p.m. on February 20, 2023. This action is being taken to provide for the safety of life on navigable waterways during this event. Our regulation for annual fireworks displays and other events in the Eighth Coast Guard District requiring safety zones, § 165.801, identifies the regulated area for the Riverwalk Marketplace/Lundi Gras fireworks display on the navigable waters of the Lower Mississippi River between Mile Marker (MM) 93 and MM 96, New Orleans, LA.

During the enforcement period, as reflected in § 165.801(a)–(c), entry into this zone is prohibited unless authorized by the Captain of the Port or a designated representative. All persons and vessels shall comply with the instructions of the Captain of the Port or designated representative. Designated representatives include commissioned, warrant, and petty officers of the U.S. Coast Guard.

In addition to this notification of enforcement in the **Federal Register**, the Coast Guard plans to provide notification of this enforcement period via Marine Safety Information Bulletin and Broadcast Notice to Mariners.

Dated: February 3, 2023.

K.K. Denning,*Captain, U.S. Coast Guard, Captain of the Port Sector New Orleans.*

BILLING CODE 9110–04–P**ENVIRONMENTAL PROTECTION AGENCY****40 CFR Part 52**

[EPA–R02–OAR–2022–0169; FRL–9610–02–R2]

Approval and Promulgation of Implementation Plans; New York; Gasoline Dispensing, Stage I, Stage II and Transport Vehicles**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving a State Implementation Plan (SIP) submitted by the State of New York for ozone concerning the control of volatile organic compounds. The SIP revision consists of amendments to regulations in New York’s Codes, Rules and Regulations (NYCRR) applicable to gasoline dispensing sites and transport vehicles. This revision includes regulatory amendments that eliminate Stage II requirements and strengthen requirements for Stage I vapor recovery systems at gasoline dispensing facilities, and that require that transport vehicles meet current Federal United States Department of Transportation (DOT) requirements. The intended effect of this action is to approve control strategies, required by the Clean Air Act, which will result in emission reductions that will help attain and maintain national ambient air quality standards for ozone and will reduce volatile organic compounds throughout the State. This action is being taken

pursuant to the Clean Air Act. The EPA proposed to approve this rule on November 1, 2022, and received no comments.

DATES: This final rule is effective on March 13, 2023.

ADDRESSES: The EPA has established a docket for this action under Docket ID Number EPA–R02–OAR–2022–0169. All documents in the docket are listed on the <https://www.regulations.gov> website. Although listed in the index, some information is not publicly available, e.g., Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available electronically through <https://www.regulations.gov>.

- I. Background
- II. Comments Received in Response to the EPA’s Proposed Action
- III. Final Action
- IV. Incorporation by Reference
- V. Statutory and Executive Order Reviews

I. Background

On November 1, 2022 (87 FR 65714), the EPA published a notice of proposed rulemaking (NPR) that proposed to approve a SIP revision submitted by the State of New York on March 3, 2021. The submitted SIP revision consists of amendments to Title 6 of NYCRR, part 230, “Gasoline Dispensing Sites and Transport Vehicles.” These revisions to 6 NYCRR part 230 eliminate Stage II vapor recovery system requirements and require the decommissioning of existing Stage II vapor recovery systems; strengthen Stage I vapor recovery requirements; and require that transport vehicles meet current Federal United States DOT requirements. On September 17, 2021, the New York State Department of Environmental Conservation (NYSDEC) submitted a supplemental analysis, “New York State Stage II Removal Analysis 2020,” to demonstrate its justification of Stage II removal.

Stage I Vapor Recovery Systems

Stage I vapor recovery systems are systems that capture hydrocarbon
