(c) to develop guidelines for the utilisation, as and when appropriate, of quality assurance systems¹ to ensure that foodstuffs conform with

requirements and to promote the recognition of these systems in facilitating trade in food products under bilateral/multilateral arrangements by countries;

(d) to develop guidelines and criteria with respect to format, declarations and language of such official certificates as countries may require with a view towards international harmonization;

(e) to make recommendations for information exchange in relation to food import/export control;

(f) to consult as necessary with other international groups working on matters related to food inspection and certification systems; and,
