

## INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 731–TA–1580, 1582, and 1583 (Final)]

### Steel Nails From India, Thailand, and Turkey

#### Determinations

On the basis of the record<sup>1</sup> developed in the subject investigations, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that an industry in the United States is not materially injured or threatened with material injury by reason of imports of steel nails from India, Thailand, and Turkey, provided for in subheadings 7317.00.55, 7317.00.65, and 7317.00.75 of the Harmonized Tariff Schedule of the United States, that have been found by the U.S. Department of Commerce (“Commerce”) to be sold in the United States at less than fair value (“LTFV”).<sup>2</sup>

#### Background

The Commission instituted these investigations effective December 30, 2021, following receipt of petitions filed with the Commission and Commerce by Mid Continent Steel & Wire, Inc., Poplar Bluff, Missouri. The Commission scheduled the final phase of the investigations following notification of preliminary determinations by Commerce that imports of steel nails from India, Oman, Sri Lanka, and Turkey were being subsidized within the meaning of section 703(b) of the Act (19 U.S.C. 1671b(b)).<sup>3</sup> Notice of the scheduling of the final phase of the Commission’s investigations and of a public hearing to be held in connection therewith was given by posting copies

<sup>1</sup> The record is defined in § 207.2(f) of the Commission’s Rules of Practice and Procedure (19 CFR 207.2(f)).

<sup>2</sup> 87 FR 78929, December 23, 2022; 87 FR 78935, December 23, 2022; and 87 FR 78937, December 23, 2022. Commerce also published notice in the *Federal Register* of a negative final antidumping duty determination in connection with the investigation concerning steel nails from Sri Lanka (87 FR 78933, December 23, 2022). Accordingly, effective December 23, 2022, the Commission terminated its antidumping duty investigation concerning steel nails from Sri Lanka (88 FR 1291, January 9, 2023).

<sup>3</sup> While Commerce preliminarily determined that countervailable subsidies were not being provided to producers and exporters of steel nails from Thailand, the Commission continued its investigative activities pursuant to Commission rule 207.21(c). Determinations by Commerce with respect to sales at less-than-fair-value value of imports of steel nails from India, Sri Lanka, Thailand, and Turkey were pending at that time and subsequently published in the *Federal Register* on August 4, 2022 (87 FR 47719, 87 FR 47701, 87 FR 47708, and 87 FR 47699).

of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the *Federal Register* of June 21, 2022 (87 FR 36882). In light of the restrictions on access to the Commission building due to the COVID–19 pandemic, the Commission conducted its hearing through written testimony and video conference on August 17, 2022. All persons who requested the opportunity were permitted to participate.

The investigation schedules became staggered when Commerce did not align its countervailing duty investigations with its antidumping duty investigations and reached earlier final countervailing duty determinations. On October 6, 2022, the Commission issued final negative determinations in its countervailing duty investigations of steel nails from India, Oman, Sri Lanka, and Turkey (87 FR 61631, October 12, 2022). Following notification of final determinations by Commerce that imports of steel nails from India, Thailand, and Turkey were being sold at LTFV within the meaning of section 735(a) of the Act (19 U.S.C. 1673d(a)), notice of the supplemental scheduling of the final phase of the Commission’s antidumping duty investigations was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the *Federal Register* of scheduling of the final phase of Commission’s antidumping duty investigations (88 FR 2373, January 13, 2023).

The Commission made these determinations pursuant to section 735(b) of the Act (19 U.S.C. 1673d(b)). It completed and filed its determinations in these investigations on February 6, 2023. The views of the Commission are contained in USITC Publication 5404 (February 2023), entitled *Steel Nails from India, Thailand, and Turkey: Investigation Nos. 731–TA–1580, 1582, and 1583 (Final)*.

**SUPPLEMENTARY INFORMATION:** The WRP is a recruitment and referral program that connects students with disabilities to an opportunity for employment. Through participating colleges and universities, WRP creates a database for Federal and select private-sector employers nationwide to find highly motivated college students and recent graduates with disabilities who are

eager to demonstrate their abilities in the workplace through summer or permanent jobs. Candidates represent all majors, and range from college freshmen to graduate students and law students. Information from these candidates is compiled in a searchable database that is available through this website to Federal Human Resources Specialists, Equal Employment Opportunity Specialists, and other Federal employees and hiring officials in Federal agencies.

Every year, WRP staff approach more than 300 colleges and universities to participate in the WRP recruitment process for the year. WRP School Coordinators at these schools conduct outreach to their eligible students and encourage them to apply to participate in the WRP. School Coordinators must be college staff and are usually from the career or disability services office. Candidates that are approved by the School Coordinators and completed the application by the deadline are given the opportunity to have an elective informational interview with a trained volunteer WRP Recruiter from a Federal agency.

To be eligible to register, candidates must be current, full-time, degree-seeking undergraduate or graduate students with a disability, or have graduated within two and a half years of the release of the database each December. Candidates must be U.S. citizens, must be attending or have graduated from a U.S. accredited college or university, and be eligible under the Schedule A Hiring Authority for persons with disabilities. Candidates must also be approved by a WRP School Coordinator to apply to WRP and participate in an interview.

Candidates are not interviewing for specific positions at specific agencies. They have the opportunity to have an elective informational interview with a Federal recruiter to learn about Federal service and discuss their career path. Candidates are not placed into jobs; they are simply applying to be part of a database of postsecondary students and recent graduates with disabilities that is made available to Federal employers directly and to the private sector through a contractor. Employers will then reach out to candidates directly if they are interested in interviewing or hiring them for a specific position. Candidates should be aware that WRP is not a guarantee of employment and not everyone who participates in WRP is contacted by employers.

This information collection is subject to the Paperwork Reduction Act (PRA). A Federal agency generally cannot conduct or sponsor a collection of
