B. Privacy Act

In accordance with 49 U.S.C. 31315(b)(6), DOT solicits comments from the public on the exemption requests. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov. As described in the system of records notice DOT/ALL 14 (Federal Docket Management System), which can be reviewed at <https://www.transportation.gov/individuals/privacy/privacy-act-system-records-notices>, the comments are searchable by the name of the submitter.

II. Background

On August 24, 2022, FMCSA published a notice announcing its decision to renew exemptions for seven individuals from the hearing standard in 49 CFR 391.41(b)(11) to operate a CMV in interstate commerce and requested comments from the public (87 FR 52107). The public comment period ended on September 23, 2022, and three comments were received.

FMCSA has evaluated the eligibility of these applicants and determined that renewing these exemptions would likely achieve a level of safety equivalent to, or greater than, the level that would be achieved by complying with § 391.41(b)(11).

The physical qualification standard for drivers regarding hearing found in § 391.41(b)(11) states that a person is physically qualified to drive a CMV if that person first perceives a forced whispered voice in the better ear at not less than 5 feet with or without the use of a hearing aid or, if tested by use of an audiometric device, does not have an average hearing loss in the better ear greater than 40 decibels at 500 Hz, 1,000 Hz, and 2,000 Hz with or without a hearing aid when the audiometric device is calibrated to American National Standard (formerly ASA Standard) Z24.5–1951.

This standard was adopted in 1970 and was revised in 1971 to allow drivers to be qualified under this standard while wearing a hearing aid (35 FR 6458, 6463 (Apr. 22, 1970) and 36 FR 12857 (July 8, 1971), respectively).

III. Discussion of Comments

FMCSA received three comments in this proceeding. Jeff Daniels’ comment regarding drug testing was outside the scope of this notice. The Commercial Vehicle Training Association’s (CVTA’s) comment was found identical to the comment they submitted to the August 17, 2022, **Federal Register** notice (87 FR 50690). FMCSA provided a response to this comment in the December 29, 2022, **Federal Register** notice (87 FR 80254) that will not be repeated in this notice. Lastly, an anonymous individual opposed the same comment by CVTA.

IV. Conclusion

Based upon its evaluation of the seven renewal exemption applications and comments received, FMCSA announces its decision to exempt the following drivers from the hearing requirement in § 391.41(b)(11).

As of September 6, 2022, and in accordance with 49 U.S.C. 31136(e) and 31315(b), the following four individuals have satisfied the renewal conditions for obtaining an exemption from the hearing requirement in the FMCSRs for interstate CMV drivers (87 FR 52107): Weston Arthurs (CA) Charles DePriest (TX) Richard Hoots (AR), D’Nielle Smith (OH)

The drivers were included in docket number FMCSA–2014–0106, FMCSA–2015–0326, or FMCSA–2016–0002. Their exemptions were applicable as of

September 6, 2022 and will expire on September 6, 2024.

As of September 14, 2022, and in accordance with 49 U.S.C. 31136(e) and 31315(b), the following three individuals have satisfied the renewal conditions for obtaining an exemption from the hearing requirement in the FMCSRs for interstate CMV drivers:

Jonathan Kelly (TX)
Eddie Martinez (TX)
Willie Miller (IA)

The drivers were included in docket number FMCSA–2020–0026. Their exemptions were applicable as of September 14, 2022 and will expire on September 14, 2024.

In accordance with 49 U.S.C. 31315(b), each exemption will be valid for 2 years from the effective date unless revoked earlier by FMCSA. The exemption will be revoked if the following occurs: (1) the person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained prior to being granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315(b).

C. Privacy Act

In accordance with 49 U.S.C. 31315(b)(6), DOT solicits comments from the public on the exemption requests. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov. II. Background

Under 49 U.S.C. 31136(e) and 31315(b), FMCSA may grant an exemption from the FMCSRs for no longer than a 5-year period if it finds such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption. The statutes also allow the Agency to renew exemptions at the end of the 5-year period. FMCSA grants medical

exemptions from the FMCSRs for a 2-year period to align with the maximum duration of a driver’s medical certification.

The four individuals listed in this notice have requested an exemption from § 391.41(b)(4). Accordingly, the Agency will evaluate the qualifications of each applicant to determine whether granting the exemption will achieve the required level of safety mandated by statute.

The physical qualification standard found in § 391.41(b)(4) states that a person is physically qualified to drive a CMV if that person has no current clinical diagnosis of myocardial infarction, angina pectoris, coronary insufficiency, thrombosis, or any other cardiovascular disease of a variety known to be accompanied by syncope, dyspnea, collapse, or congestive cardiac failure.

In addition to the regulations, FMCSA has published advisory criteria¹ to assist medical examiners in determining whether drivers with certain medical conditions are qualified to operate a CMV in interstate commerce. The advisory criteria states that ICDs are disqualifying due to risk of syncope.

III. Qualifications of Applicants

Kevin Coughlin

Kevin Coughlin is a class A driver’s license holder in Massachusetts. A letter dated January 12, 2023, from Kevin Coughlin’s cardiologist reports that the ICD was implanted 25 years ago due to a diagnosis of long QT syndrome.
