BILLING CODE 4331-21-P

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701-TA-562 and 731-TA-1329 (Review)]

Ammonium Sulfate From China

Determination

On the basis of the record¹ developed in the subject five-year reviews, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that revocation of the countervailing and antidumping duty orders on ammonium sulfate from China would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

Background

The Commission instituted these reviews on February 1, 2022 (87 FR 5503) and determined on May 9, 2022, that it would conduct full reviews (87 FR 29878, May 17, 2022). Notice of the scheduling of the Commission’s reviews and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** on August 3, 2022 (87 FR 47463). Since no party to the reviews requested a hearing, the public hearing in connection with the reviews, originally scheduled for December 6, 2022, was cancelled (87 FR 79352, December 27, 2022).

The Commission made these determinations pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)). It completed and filed its determinations in these reviews on February 8, 2022. The views of the Commission are contained in USITC Publication 5402 (February 2023), entitled *Ammonium Sulfate from China: Investigation Nos.*

¹ The record is defined in § 207.2(f) of the Commission’s Rules of Practice and Procedure (19 CFR 207.2(f)).

701-TA-562 and 731-TA-1329 (Review).

By order of the Commission.

Issued: February 8, 2023.

Katherine Hiner,

Acting Secretary to the Commission.

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comment Request; NSF’s Computer and Information Science and Engineering (CISE) Broadening Participation in Computing (BPC) Pilot Survey

AGENCY: National Science Foundation.

ACTION: Submission for OMB review; comment request.

SUMMARY: The National Science Foundation (NSF) has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1995. This is the second notice for public comment; the first was published in the **Federal Register**, and one comment requesting a copy of the proposed survey was received. NSF is forwarding the proposed submission to the Office of Management and Budget (OMB) for

clearance simultaneously with the publication of this second notice.

DATES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, Virginia 22314; telephone (703) 292-7556; or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including Federal holidays).

Comments: Comments regarding (a) whether the proposed collection of information is necessary for the proper performance of the functions of the NSF, including whether the information shall have practical utility; (b) the accuracy of the NSF’s estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, use, and clarity of the information on respondents; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to the points of contact in the **FOR FURTHER INFORMATION CONTACT** section.

Copies of the submission may be obtained by calling 703-292-7556. NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number, and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

SUPPLEMENTARY INFORMATION:

Title of Collection: Information collection for evaluating NSF partnership activities.

OMB Number: 3145-NEW.

Type of Request: Intent to seek approval to establish an information collection.

Abstract: Building partnerships is a high priority for NSF, as evidenced by

two consecutive Agency Priority Goals (APGs for FY 2018 and FY 2020) focused on developing a partnerships strategy. The importance of partnerships is also echoed in the recent National Science Board's Vision 2030 report and reflected in the new Directorate for Technology, Innovation and Partnerships (TIP). Partnerships are hypothesized to accelerate discovery in several ways: they can enable access to expertise, resources, and infrastructure; accelerate the flow of knowledge and expertise; and expand communities of researchers. NSF direct partnerships are established by NSF with other federal agencies, industry, private foundations, non-governmental organizations, and foreign science agencies.

NSF is requesting OMB approval for the NSF to collect information from past and present participants and partners in NSF partnership programs. The information collection will enable the Evaluation and Assessment Capability (EAC) Section within NSF to garner quantitative and qualitative information that will be used to inform programmatic improvements related to partnership models at NSF including partnerships between NSF and other entities and funding opportunities that require or encourage partnerships between grantees. This information collection, which entails collecting information from relevant NSF grantees and partners, is in accordance with the Agency's commitment to improving service delivery as well as the Agency's strategic goal to "advance the capability of the Nation to meet current and future challenges."

Use of the Information: The data collected will be used for NSF internal and external reports related to partnerships, program level studies, and evaluations. These outputs will inform decisions NSF makes regarding future activities.

Respondents: Participants in NSF grants (principal investigators, partners, research personnel, etc.). Partners involved in NSF partnership programs.

Estimated Number of Respondents: 300.

Estimate Burden on the Public: Estimated at 450 hours for a one-time collection.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents,

including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Please submit one copy of your comments by only one method. All submissions received must include the agency name and collection name identified above for this information collection. Commenters are strongly encouraged to transmit their comments electronically via email. Comments, including any personal information provided become a matter of public record. They will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request.

Dated: February 8, 2023.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.
