

(v) *Prior Related Cases, if any:* GG–B–ZZY.

(vi) *Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid:* None.

(vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold:* See Attached Annex.

(viii) *Date Report Delivered to Congress:* August 3, 2021.

* As defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Georgia—Javelin Missiles

The Government of Georgia has requested to buy eighty-two (82) Javelin FGM–148 Missiles; and forty-six (46) Javelin Command Launch Units (CLU). Also included are Enhanced Producibility Basic Skills Trainers; Missile Simulation Rounds; Security Assistance Management Directorate Technical Assistance; Tactical Aviation and Ground Munitions Project Office Technical Assistance; other associated equipment and services; and other related elements of logistical and program support. The estimated total cost is \$30 million.

This proposed sale will support the foreign policy and national security of the United States by improving the security of Georgia which is a strategic partner and a key contributor to security and stability the region. The Javelin system will help Georgia build its long-term defense capacity to defend its sovereignty and territorial integrity in order to meet its national defense requirements.

The proposed sale will improve Georgia's capability to meet current and future threats by increasing its anti-armor capacity. Georgia will have no difficulty absorbing these weapons into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be Raytheon/Lockheed Martin Javelin Joint Venture of Orlando, Florida, and Tucson, Arizona. However, these articles are being provided from U.S. Army stock. There are no known offset agreements proposed in conjunction with this potential sale.

Implementation of this proposed sale will not require the assignment of any U.S. Government or contractor representatives to Georgia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 21–48

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex Item No. vii

(vii) *Sensitivity of Technology:*

1. The Javelin Weapon System is a medium-range, man portable, shoulder-launched, fire and forget, anti-tank system for infantry, scouts, and combat engineers. It may also be mounted on a variety of platforms including vehicles, aircraft and watercraft. The system weighs 49.5 pounds and has a maximum range in excess of 2,500 meters. The system is highly lethal against tanks and other systems with conventional and reactive armors. The system possesses a secondary capability against bunkers.

2. Javelin's key technical feature is the use of fire-and-forget technology, which allows the gunner to fire and immediately relocate or take cover. Additional special features are the top attack and/or direct fire modes, an advanced tandem warhead and imaging infrared seeker, target lock-on before launch, and soft launch from enclosures or covered fighting positions. The Javelin missile also has a minimum smoke motor, thus decreasing its detection on the battlefield.

3. The Javelin Weapon System is comprised of two major tactical components, which are a reusable Command Launch Unit (CLU) and a round contained in a disposable launch tube assembly. The CLU incorporates an integrated day-night sight that provides a target engagement capability in adverse weather and countermeasure environments. The CLU may also be used in a stand-alone mode for battlefield surveillance and target detection. The CLU's thermal sight is a second generation Forward Looking Infrared (FLIR) sensor. To facilitate initial loading and subsequent updating of software, all on-board missile software is uploaded via the CLU after mating and prior to launch.

4. The missile is autonomously guided to the target using an imaging infrared seeker and adaptive correlation tracking algorithms. This allows the gunner to take cover or reload and engage another target after firing a missile. The missile has an advanced tandem warhead and can be used in either the top attack or direct fire modes (for target undercover). An onboard flight computer guides the missile to the selected target.

5. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

6. If a technologically advanced adversary obtains knowledge of the specific hardware and software elements, the information could be used to develop countermeasures or equivalent systems that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

7. A determination has been made that Georgia can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This proposed sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

8. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Georgia.

DEPARTMENT OF EDUCATION

[Docket No.: ED–2023–SCC–0028]

Agency Information Collection Activities; Comment Request; Evaluation of Strategies To Address Unfinished Learning in Math (ReSolve Math Study)

AGENCY: Institute of Education Sciences (IES), Department of Education (ED).

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act (PRA) of 1995, the Department is proposing a new information collection request (ICR).

DATES: Interested persons are invited to submit comments on or before April 17, 2023.

ADDRESSES: To access and review all the documents related to the information collection listed in this notice, please use <http://www.regulations.gov> by searching the Docket ID number ED–2023–SCC–0028. Comments submitted in response to this notice should be submitted electronically through the Federal eRulemaking Portal at <http://www.regulations.gov> by selecting the Docket ID number or via postal mail, commercial delivery, or hand delivery. If the [regulations.gov](http://www.regulations.gov) site is not available to the public for any reason, the Department will temporarily accept comments at ICDocketMgr@ed.gov. Please include the docket ID number and the title of the information collection request when requesting documents or submitting comments. Please note that comments submitted

after the comment period will not be accepted. Written requests for information or comments submitted by postal mail or delivery should be addressed to the Manager of the Strategic Collections and Clearance Governance and Strategy Division, U.S. Department of Education, 400 Maryland Ave. SW, LBJ, Room 6W203, Washington, DC 20202–8240.

FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Thomas Wei, (646) 428–3892.

SUPPLEMENTARY INFORMATION: The Department, in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. The Department is soliciting comments on the proposed information collection request (ICR) that is described below. The Department is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Evaluation of Strategies to Address Unfinished Learning in Math (ReSolve Math Study).

OMB Control Number: 1850–NEW.

Type of Review: New ICR.

Respondents/Affected Public: Individuals or Households.

Total Estimated Number of Annual Responses: 12,640.

Total Estimated Number of Annual Burden Hours: 2,559.

Abstract: The COVID–19 pandemic led to substantial unfinished learning in math and an important debate about how best to address it. Traditionally, policymakers and educators have advocated a “broad foundation skill building” approach, but an alternative “just-in-time skill building” approached

has received more attention recently, including in the U.S. Department of Education's COVID–19 Handbook. But there is limited evidence comparing these approaches. This evaluation will examine the effectiveness of adaptive technology products that deliver these two catch-up strategies in elementary schools, where teachers often struggle with how to teach math well and the benefits of using technology supports are understudied. The findings will provide valuable evidence, especially for low-performing schools identified under the Every Student Succeeds Act and their most underserved students. This package requests approval for data collection activities to conduct the evaluation.

Dated: February 9, 2023.

Juliana Pearson,

PRA Coordinator, Strategic Collections and Clearance, Governance and Strategy Division, Office of Chief Data Officer, Office of Planning, Evaluation and Policy Development.

BILLING CODE 4000–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP23–14–000]

Wyoming Interstate Company, LLC; Notice of Schedule for the Preparation of an Environmental Assessment for the Diamond Mountain Abandonment Project

On November 10, 2022, Wyoming Interstate Company LLC. (WIC) filed an application in Docket No. CP23–14–000 requesting authorization pursuant to Section 7(b) of the Natural Gas Act to abandon certain natural gas pipeline facilities. The proposed project is known as the Diamond Mountain Abandonment Project (Project) and consists of WIC's proposal to abandon in-place a compressor station and associated equipment and facilities in Uintah County, Utah. According to WIC, the proposed abandonment is due to the decline of natural gas production in the Uintah basin, and the absence of bids submitted during open season. WIC would continue to operate the existing mainline block valve at the compressor station site after the abandonment.

On November 24, 2022, the Federal Energy Regulatory Commission (Commission or FERC) issued its Notice of Application for the Project. Among other things, that notice alerted agencies issuing federal authorizations of the

requirement to complete all necessary reviews and to reach a final decision on a request for a federal authorization within 90 days of the date of issuance of the Commission staff's environmental document for the Project.

This notice identifies Commission staff's intention to prepare an environmental assessment (EA) for the Project and the planned schedule for the completion of the environmental review.¹

Schedule for Environmental Review

Issuance of EA—May 19, 2023

90-day Federal Authorization Decision

Deadline²—August 17, 2023

If a schedule change becomes necessary, additional notice will be provided so that the relevant agencies are kept informed of the Project's progress.

Project Description

The Project is located in Uintah County, Utah. Proposed work includes disconnecting piping from compressor units, draining oil and coolant from the turbines, draining water from the domestic and heating systems, disconnecting power, removing applicable station valves and the turbine surge valve. WIC would complete all work within the existing gravel station yard and would access the station from the existing facility access roads. No ground disturbing activities are proposed. WIC would remove and repurpose components of the abandoned facility for use at other Kinder Morgan affiliate pipelines.

Background

On January 27, 2023, the Commission issued a *Notice of Scoping Period Requesting Comments on Environmental Issues for the Proposed Diamond Mountain Abandonment Project and Notice of Public Scoping Session* (Notice of Scoping). The Notice of Scoping was sent to affected landowners; federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers. To date, the Commission has not received comments in response to the Notice of Scoping.

¹ 40 CFR 1501.10 (2020).

² The Commission's deadline applies to the decisions of other federal agencies, and state agencies acting under federally delegated authority, that are responsible for federal authorizations, permits, and other approvals necessary for proposed projects under the Natural Gas Act. Per 18 CFR 157.22(a), the Commission's deadline for other agency's decisions applies unless a schedule is otherwise established by federal law.
