ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

Electronic records are maintained on secure NASA servers and protected in accordance with all Federal standards and those established in NASA regulations at 14 CFR 1212.605. Additionally, server and data management environments employ infrastructure encryption technologies both in data transmission and at rest on servers. Electronic messages sent within and outside of the Agency that convey sensitive data are encrypted and transmitted by staff via pre-approved electronic encryption systems as required by NASA policy. Approved security plans are in place for information systems containing the records in accordance with the Federal Information Security Management Act of 2002 (FISMA) and OMB Circular A-130, Management of Federal Information Resources. Only authorized personnel requiring information in the official discharge of their duties are authorized access to records through approved access or authentication methods. Access to electronic records is achieved only from workstations within the NASA Intranet or via a secure Virtual Private Network (VPN) connection that requires two-factor hardware token authentication or via employee Personal Identity Certification (PIV) badge authentication from NASA-issued computers. Non-electronic records are secured in locked rooms or locked file cabinets.

RECORD ACCESS PROCEDURES:

In accordance with 14 CFR part 1212, Privacy Act—NASA Regulations, and subject to exemptions described therein, individuals who wish to gain access to their records should submit their request in writing to the System Manager or Subsystem Manager at locations listed above. Requests may also be requested electronically by the individual on whom the records are maintained or by their authorized representative.

CONTESTING RECORD PROCEDURES:

The NASA regulations for access to records and for contesting contents and appealing initial determinations by the individual concerned appear in 14 CFR part 1212.

NOTIFICATION PROCEDURES:

In accordance with 14 CFR part 1212, Privacy Act—NASA Regulations, information may be obtained from the cognizant system or subsystem manager listed at the above locations where the records are created and/or maintained.

EXEMPTIONS PROMULGATED FOR THE SYSTEM:

This system of records is exempt under 5 U.S.C. 552a(k)(2) and 5 U.S.C. 552a(k)(5) from the following subsections of the Privacy Act of 1974, specifically (c)(3) relating to access to the disclosure accounting; (d) relating to access to the records; (e)(1) relating to the type of information maintained in the records; (e)(4)(G), (H), and (I) relating to publishing in the annual system notice information as to agency procedures for access and correction and information as to the categories of sources of records; and (f) relating to developing agency rules for gaining access and making corrections.
