

Title of Collection: Evaluation of Financial Empowerment Training Program.

OMB Control Number: 3170–0067.

Type of Review: Revision of a currently approved collection.

Affected Public: Private sector.

Estimated Number of Respondents: 3,000.

Estimated Total Annual Burden Hours: 750.

Abstract: The Bureau's Office of Community Affairs (OCA) is responsible for developing strategies to improve the financial capability of low-income and economically vulnerable consumers, such as consumers who are unbanked or underbanked, those with thin or no credit file, and households with limited savings. To address the needs of these consumers, OCA has developed Your Money, Your Goals, a suite of financial empowerment materials with an accompanying training program. These resources equip frontline staff and volunteers in a range of organizations to provide relevant and effective information, tools, and resources designed to improve the financial outcomes and capability of these consumers. The collection focuses on evaluating Your Money, Your Goals virtual and in-person training practices in enhancing the ability of frontline staff and volunteers to inform low-income consumers about rights and options for managing their finances and how to prevent and address consumer harm.

Request for Comments: The Bureau published a 60-day **Federal Register** notice on December 21, 2022 (87 FR 78092) under Docket Number: CFPB–2022–0085. The Bureau is publishing this notice and soliciting comments on: (a) Whether the collection of information is necessary for the proper performance of the functions of the Bureau, including whether the information will have practical utility; (b) The accuracy of the Bureau's estimate of the burden of the collection of information, including the validity of the methods and the assumptions used; (c) Ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Comments submitted in response to this notice will be reviewed by OMB as part of its review of this

request. All comments will become a matter of public record.

Anthony May,

Paperwork Reduction Act Officer, Consumer Financial Protection Bureau.

BILLING CODE 4810–AM–P

DEPARTMENT OF EDUCATION

[Docket No.: ED–2023–SCC–0036]

Agency Information Collection Activities; Comment Request; Impact Evaluation To Inform the Teacher and School Leader Incentive Program

AGENCY: Institute of Education Science (IES), Department of Education (ED).

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act (PRA) of 1995, the Department is proposing an extension without change of a currently approved information collection request (ICR).

DATES: Interested persons are invited to submit comments on or before April 25, 2023.

ADDRESSES: To access and review all the documents related to the information collection listed in this notice, please use <http://www.regulations.gov> by searching the Docket ID number ED–2023–SCC–0036. Comments submitted in response to this notice should be submitted electronically through the Federal eRulemaking Portal at <http://www.regulations.gov> by selecting the Docket ID number or via postal mail, commercial delivery, or hand delivery. If the regulations.gov site is not available to the public for any reason, the Department will temporarily accept comments at ICDocketMgr@ed.gov. Please include the docket ID number and the title of the information collection request when requesting documents or submitting comments. Please note that comments submitted after the comment period will not be accepted. Written requests for information or comments submitted by postal mail or delivery should be addressed to the Manager of the Strategic Collections and Clearance Governance and Strategy Division, U.S. Department of Education, 400 Maryland Ave. SW, LBJ, Room 6W203, Washington, DC 20202–8240.

FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Elizabeth Wilde, (202) 245–6122.

SUPPLEMENTARY INFORMATION: The Department, in accordance with the

Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. The Department is soliciting comments on the proposed information collection request (ICR) that is described below. The Department is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Impact Evaluation to Inform the Teacher and School Leader Incentive Program.

OMB Control Number: 1850–0950.

Type of Review: Extension without change of a currently approved ICR.

Respondents/Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 1,995.

Total Estimated Number of Annual Burden Hours: 853.

Abstract: Congress mandated that IES conduct an independent evaluation of the Teacher and School Leader Incentive Program (TSL), which supports a variety of strategies aimed at improving the quality of teaching and attracting and retaining effective educators. In response to the legislative mandate to evaluate the TSL program, the first evaluation component addresses the need to understand the characteristics of districts that received TSL grants and the key strategies they are using to improve educator effectiveness and student achievement. The focus of the second evaluation component arises from a need to assess effectiveness, focusing on a single, common strategy of designating teacher leaders to provide coaching to other teachers. This strategy of focusing on a single, common strategy of grantees is part of an evidence-building strategy for the program that complements evidence

on other aspects of the grant that have been previously evaluated. More research is needed to provide guidance on whether this teacher leader strategy improves teacher effectiveness and student achievement. The second component of the evaluation uses a random assignment design to study the impacts (and implementation and cost-effectiveness) of the teacher leader role in non-TSL districts.

Dated: February 17, 2023.

Juliana Pearson,

PRA Coordinator, Strategic Collections and Clearance, Governance and Strategy Division, Office of Chief Data Officer, Office of Planning, Evaluation and Policy Development.

DEPARTMENT OF ENERGY

Bonneville Power Administration

[BPA File No. Klickitat Hatchery Upgrades (DOE/EIS 0535)]

Bonneville Power Administration Klickitat Hatchery Upgrades Environmental Impact Statement (EIS) Termination

AGENCY: Bonneville Power Administration (BPA), Department of Energy (DOE).

ACTION: Notice of intent to terminate the preparation of an Environmental Impact Statement (EIS) and intent to prepare an Environmental Assessment (EA).

SUMMARY: This notice advises the public that BPA is terminating the preparation of the Klickitat Hatchery Upgrades EIS and instead will prepare an EA. This EIS would have considered BPA's decision whether to fund the Confederated Tribes and Bands of the Yakama Nation's (Yakama Nation) proposal to upgrade facilities at the Klickitat Hatchery to facilitate a possible increase in production of spring Chinook salmon in the Klickitat River Basin. The change in National Environmental Policy Act (NEPA) analysis is due to a refinement of project scope and design that would minimize resource effects and extensive agency coordination that has shown existing permits are sufficient to address the proposed changes.

FOR FURTHER INFORMATION CONTACT: Carolyn Sharp, Environmental Protection Specialist, Bonneville Power Administration—ECF-4, P.O. Box 3621, Portland, Oregon 97208-3621; toll-free telephone 1-800-622-4519; direct telephone 503-230-5206; or email

casharp@bpa.gov or Mary Todd Haight, Project Manager, Bonneville Power Administration—EWM-4, P.O. Box 3621, Portland, Oregon, 97208-3621; toll-free telephone number 1-800-622-4519; email *mthaight@bpa.gov*. Additional information can be found at the project website: *www.bpa.gov/nepa/klickitat-hatchery-upgrades*.

SUPPLEMENTARY INFORMATION: A Notice of Intent (NOI) was published in the **Federal Register** on October 6, 2017 (82 FR 46804), to begin preparing an EIS for the Klickitat Hatchery Upgrades. The facility improvements would allow the Yakama Nation to increase spring Chinook production from 600,000 to 800,000 smolts, and move from a segregated to an integrated spring Chinook production program. Other cost-dependent options include additional on-site housing for hatchery facility staff and upgrades to the hatchery administrative building.

At the time of issuance, the 2017 NOI identified the National Marine Fisheries Service (NMFS) as a cooperating agency for the project. Since then, NMFS has determined their Mitchell Act Record of Decision (ROD) and Biological Opinion (BO) adequately cover their NEPA and Endangered Species Act (ESA) obligations for increased operations and maintenance funding for the increase in spring Chinook production and integrated programming at the Klickitat Hatchery. The U.S. Environmental Protection Agency (USEPA) had also elected to be a cooperating agency based on an assumption that the proposed project would be determined to be a new source under 40 CFR 122.2 and 122.29. After reviewing more fully developed project designs, USEPA was able to determine that the proposed action would no longer meet the definition of a new source under 40 CFR 122.29, and USEPA thereby rescinded their status as cooperating agency on June 2, 2022. The U.S. Army Corps of Engineers also issued a determination on August 5, 2022, that no permit would be required under Section 404 of the Clean Water Act and Section 10 of the Rivers and Harbors Act.

These efforts to minimize resource effects and coordination with permitting agencies to confirm that existing permits would address the proposed changes have allowed BPA to determine that an EA and FONSI are more appropriate for this project. BPA will complete an EA, consistent with NEPA and the Council on Environmental Quality's and the Department of Energy's NEPA implementing regulations to decide whether to fund the proposed action. The document will be used by BPA as

the funding entity, Yakama Nation as operator of the facility that is located on the Yakama Nation Reservation, and Washington Department of Fish and Wildlife as current landowner and co-manager of the fishery resources in the Klickitat River basin for their respective environmental compliance needs.

The proposal would include funding capital improvements at the Klickitat Hatchery that would enable the Yakama Nation to implement a multi-year transition from a segregated production program of 600,000 spring Chinook smolts to an integrated spring Chinook production program totaling 800,000 smolts. All fish production (spring and fall Chinook and coho salmon) operations and facility maintenance at the hatchery has been funded through NMFS under the Mitchell Act since the hatchery was built in 1954. BPA is not proposing to fund fish production or to assume responsibility for any Mitchell Act funding for the Klickitat Hatchery. BPA funds would be limited to the proposed capital improvements to support spring Chinook production.

To facilitate this transition, capital improvements to the existing Klickitat Hatchery facility would include:

- Upgraded water supply and discharge systems
- Rehabilitation and consolidation of spring water intake and pipeline
- Rehabilitation of river water intake pumps and filtration system
- Replacement of the existing pollution abatement settling pond with a new in-line system
- Updates to the existing fish ladder
- New adult holding raceways and spawning infrastructure
- Installation of a new circular tank aquaculture system to support spring Chinook integrated programming
- Addition of a chemical storage building
- Upgrades to the hatchery security and alarm systems

Optional, cost-dependent upgrades include:

- Updates to the existing hatchery administrative space
- Construction of two on-site residences for hatchery staff
- Installation of predator control netting over the spring Chinook raceways

For the reasons previously explained in this notice, the EIS is being terminated in accordance with 40 CFR 1506.6 and 40 CFR 1506.10.

Signing Authority: This document of the Department of Energy was signed on February 9, 2023 by John Hairston, Administrator and Chief Executive Officer of the Bonneville Power Administration, pursuant to delegated
