Information Collection Request Title: The Teaching Health Center Graduate

Medical Education (THCGME) Program Reconciliation Tool OMB No. 0915–0342—Revision.

Abstract: The THCGME program, authorized by section 340H of the Public Health Service Act, was established by section 5508 of Public Law 111–148. The Consolidated Appropriations Act, 2021 (Pub. L. 116–260) and the American Rescue Plan Act of 2021 (Pub. L. 117–2) provide continued funding for the THCGME Program.

The THCGME program awards payment for both direct and indirect expenses to support training for primary care residents in community-based ambulatory patient care settings. Direct expense payments are designed to compensate eligible teaching health centers for those expenses directly associated with sponsoring resident training programs, while indirect expense payments are intended to compensate for the additional costs relating to teaching residents in such programs.

HRSA collects information from THCGME program award recipients using an OMB-approved reconciliation tool. HRSA seeks to extend its approved information collection and is increasing the total estimated annual burden hours associated with the collection, due to an increase in the number of program award recipients from 58 to 83. A 60-day notice published in the **Federal Register**, 87 FR 76204–05 (December 13, 2022). There were no public comments.

Need and Proposed Use of the Information: THCGME program payments are prospective payments, and the statute provides for a reconciliation process, through which overpayments may be recouped and underpayments may be adjusted at the end of the fiscal year. This data collection instrument will gather information relating to the number of resident full-time equivalents in Teaching Health Center training programs in order to reconcile payments for both direct and indirect expenses.

Likely Respondents: The likely respondents to the THCGME Reconciliation Tool are THCGME program award recipients.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose, or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train
