

to the appropriate OGC. In consultation with OGC, the program official will assess whether the circumstances disqualify an entity or individual from participating in the competition for award and reject the proposal if necessary.

i. A program official intending to take enforcement action per paragraph (b) above will notify each entity subject to such action about the specific reason for the action and will adhere to the requirements in GCAM section 7.13, *Appealing a Suspended or Terminated Award*, as necessary.

c. When an entity discloses to NASA that it has a foreign government COI or COC, as directed above, the cognizant Grant Officer (if the conflict pertains to an active award) or program official (if the conflict pertains to a proposal that is under consideration), or one of their delegates, must assess and determine whether the circumstances should disqualify the entity from continuing to hold the award or participating in the competition for award. This determination is to be made by the relevant Grant Officer or program official in consultation with OGC and the NASA Office of International and Interagency Relations (OIIR), as appropriate. If NASA determines that an applicant or recipient will be disqualified from participating in a competition for award or continuing to hold an award due to a foreign government conflict, then NASA will offer the applicant or recipient an opportunity to address the conflict or affiliation prior to removing a proposal from consideration or taking action on an award.

d. If fraud, misrepresentation, or related misconduct is suspected in relation to any disclosure submitted to NASA, then the Grant Officer or program official also will refer the matter to the NASA Office of Inspector General (OIG) and the OGC Acquisition Integrity Program.

5. Enforcement.

a. If a covered individual knowingly fails to disclose required information, NASA may take one or more of the following enforcement or other actions:

i. Reject a proposal,
 ii. Suspend or terminate an award,
 iii. Temporarily or permanently discontinue any or all funding for the covered individual or entity,
 iv. Refer recipients for consideration of suspension or debarment proceedings;

v. Refer the failure to disclose to the NASA OIG for further investigation or to Federal law enforcement authorities to determine whether any criminal or civil laws were violated;

vi. Report the entity in the Contractor Performance Assessment Reporting System (CPARS) to alert other Federal agencies to the noncompliance;

vii. Take one or more of the actions described in 2 CFR 200.339, Remedies for noncompliance; or

viii. Take such other actions against the covered individual or entity as authorized under applicable law or regulations.

b. If an enforcement or other action is necessary, NASA will adhere to the regulations in 2 CFR 200.340, Termination; 200.341, Notification of termination requirement; and 200.342, Opportunities to object, hearings, and appeals.

The GCAM, Appendix D, Award Terms and Conditions, will be revised to include the following:

D39. Disclosure Requirements

(a) All NASA grant and cooperative agreement recipients shall comply with the conflict of interest and conflict of commitment disclosure requirements in section 3.3, Conflicts of Interest Policy, of the *NASA Grant and Cooperative Agreement Manual* (GCAM).

Nanette Smith,

Team Lead, NASA Directives and Regulations.

SUPPLEMENTARY INFORMATION:

Public Comment Procedures

We are publishing notice of records schedules in which agencies propose to dispose of records they no longer need to conduct agency business. We invite public comments on these records schedules, as required by 44 U.S.C. 3303a(a), and list the schedules at the end of this notice by agency and subdivision requesting disposition authority.

In addition, this notice lists the organizational unit(s) accumulating the records or states that the schedule has agency-wide applicability. It also provides the control number assigned to each schedule, which you will need if you submit comments on that schedule.

We have uploaded the records schedules and accompanying appraisal memoranda to the *regulations.gov* docket for this notice as "other" documents. Each records schedule contains a full description of the records at the file unit level as well as their proposed disposition. The appraisal

memorandum for the schedule includes information about the records.

We will post comments, including any personal information and attachments, to the public docket unchanged. Because comments are public, you are responsible for ensuring that you do not include any confidential or other information that you or a third party may not wish to be publicly posted. If you want to submit a comment with confidential information or cannot otherwise use the [regulations.gov](https://www.regulations.gov) portal, you may contact request.schedule@nara.gov for instructions on submitting your comment.

We will consider all comments submitted by the posted deadline and consult as needed with the Federal agency seeking the disposition authority. After considering comments, we may or may not make changes to the proposed records schedule. The schedule is then sent for final approval by the Archivist of the United States. After the schedule is approved, we will post on [regulations.gov](https://www.regulations.gov) a “Consolidated Reply” summarizing the comments, responding to them, and noting any changes we made to the proposed schedule. You may elect at [regulations.gov](https://www.regulations.gov) to receive updates on the docket, including an alert when we post the Consolidated Reply, whether or not you submit a comment. If you have a question, you can submit it as a comment, and can also submit any concerns or comments you would have to a possible response to the question. We will address these items in consolidated replies along with any other comments submitted on that schedule.

We will post schedules on our website in the Records Control Schedule (RCS) Repository, at <https://www.archives.gov/records-mgmt/rcs>, after the Archivist approves them. The RCS contains all schedules approved since 1973.

Background

Each year, Federal agencies create billions of records. To control this accumulation, agency records managers prepare schedules proposing retention periods for records and submit these schedules for NARA’s approval. Once approved by NARA, records schedules provide mandatory instructions on what happens to records when no longer needed for current Government business. The records schedules authorize agencies to preserve records of continuing value in the National Archives or to destroy, after a specified period, records lacking continuing administrative, legal, research, or other

value. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules, however, cover records of only one office or program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

Agencies may not destroy Federal records without the approval of the Archivist of the United States. The Archivist grants this approval only after thorough consideration of the records’ administrative use by the agency of origin, the rights of the Government and of private people directly affected by the Government’s activities, and whether or not the records have historical or other value. Public review and comment on these records schedules is part of the Archivist’s consideration process.
