Certain Vertical Shaft Engines Between 99cc and Up To 225cc, and Parts Thereof, From the People's Republic of China: Affirmative Final Determination of Circumvention of the Antidumping and Countervailing Duty Orders—Dual-Piston Engines

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) determines that imports of dual-piston engines with a single, common combustion chamber, of the type designed by FNA Group, Inc. (FNA), produced in, and exported from the People's Republic of China (China), constitute later-developed merchandise that is circumventing the antidumping duty (AD) and countervailing duty (CVD) orders on certain vertical shaft engines between 99cc and up to 225cc, and parts thereof (small vertical engines), from China. Commerce is also applying this affirmative circumvention finding on a country-wide basis.

DATES: Applicable February 28, 2023.

SUPPLEMENTARY INFORMATION:

Background

On September 29, 2022, Commerce published the *Preliminary Determination* of the circumvention inquiry of the AD and CVD orders on small vertical engines from China¹ with respect to imports of dual-piston engines with a single, common

combustion chamber, of the type designed by FNA, produced in, and exported from China.² We invited parties to comment on the *Preliminary Determination*. For a complete description of the events that followed the *Preliminary Determination*, see the Issues and Decision Memorandum.³

Scope of the Orders

The merchandise subject to the *Orders* is small vertical engines from China. For a complete description of the scope of the *Orders*, see the Issues and Decision Memorandum.

Merchandise Subject to the Circumvention Inquiry

This circumvention inquiry covers dual-piston engines with a single, common combustion chamber, of the type designed by FNA, produced in, and exported from China, that otherwise meet the scope of the *Orders*. The dual-piston engines subject to this circumvention inquiry have a common combustion chamber shared by two cylinders that contain pistons working in unison.⁴

Analysis of Comments Received

All issues raised in the case and rebuttal briefs are addressed in the Issues and Decision Memorandum. A list of the issues raised is attached in the appendix to this notice. The Issues and Decision Memorandum is a public document and is filed electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. Affirmative Final Determination of Circumvention

Consistent with the *Preliminary Determination*,⁵ Commerce continues to determine that imports of dual-piston engines with a single, common combustion chamber, of the type designed by FNA, produced in, and exported from China, constitute later-developed merchandise that is circumventing the *Orders*, pursuant to section 781(d) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.226(k). Commerce also continues to apply this affirmative circumvention finding on a country-wide basis.

Liquidation of Entries

In the *Preliminary Determination*, Commerce stated it would instruct U.S. Customs and Border Protection (CBP) to suspend liquidation of, and collect cash deposits on, imports of dual-piston engines with a single, common combustion chamber, of the type designed by FNA, produced in, and exported from China, that were entered, or withdrawn from warehouse, for consumption on or after April 25, 2022 (*i.e.*, the date of the initiation of this inquiry).⁶ On October 26, 2022, Commerce rescinded the administrative review of the AD order for the period July 23, 2020, through April 30, 2022.⁷ Accordingly, the administrative review covering entries that would have been suspended had they entered from April 25, 2022, through April 30, 2022, has been rescinded.

For any unliquidated entries of dual-piston engines with a single, common combustion chamber, of the type designed by FNA, produced in, and exported from China, that entered as non-AD/CVD type entries (*e.g.*, type 01) that were shipped and/or entered, or withdrawn from warehouse, for consumption in the United States after April 25, 2022, importers should file a Post Summary Correction with CBP, in accordance with CBP's regulations regarding the conversion of such entries from non-AD/CVD case numbers to AD/CVD type entries (*e.g.*, type 01 to type 03). For such shipments, the Post Summary Corrections should be completed as soon as practicable, but no later than 45 days after the publication of this notice in the **Federal Register**. Importers should report those AD/CVD type entries of merchandise under the AD/CVD case numbers of the *Orders* on small vertical engines from China (*i.e.*,
