

Respondents: U.S. growers, shippers, exporters, and State and local plant health regulatory authorities.

Estimated annual number of respondents: 9.

Estimated annual number of responses per respondent: 6.

Estimated annual number of responses: 54.

Estimated total annual burden on respondents: 209 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 23rd day of February 2023.

Anthony Shea,

Administrator, Animal and Plant Health Inspection Service.

BILLING CODE 3410-34-P

DEPARTMENT OF AGRICULTURE

National Agricultural Statistics Service

Notice of Intent To Seek Approval To Reinstate an Information Collection; Correction

AGENCY: National Agricultural Statistics Service, USDA.

ACTION: Notice; correction.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces a correction to the intention of the National Agricultural Statistics Service (NASS) to seek reinstatement of an information collection, the 2023 Irrigation and Water Management Survey.

DATES: Comments on this notice must be received by May 1, 2023 to be assured of consideration.

ADDRESSES: You may submit comments, identified by docket number 0535-0234, by any of the following methods:

- *Email:* ombofficer@nass.usda.gov. Include the docket number above in the subject line of the message.
- *E-fax:* (855) 838-6382.
- *Mail:* Mail any paper, disk, or CD-ROM submissions to: Richard Hopper, NASS Clearance Officer, U.S. Department of Agriculture, Room 5336 South Building, 1400 Independence Avenue SW, Washington, DC 20250-2024.

- *Hand Delivery/Courier:* Hand deliver to: Richard Hopper, NASS Clearance Officer, U.S. Department of Agriculture, Room 5336 South Building,

1400 Independence Avenue SW, Washington, DC 20250-2024.

SUPPLEMENTARY INFORMATION:

Correction

In the **Federal Register** of February 16, 2023, in FR Doc. 2023-03290, on page 10078, correct the **SUPPLEMENTARY INFORMATION** caption, paragraph 1, under the Abstract section, to read:

Abstract: The 2023 Irrigation and Water Management Survey is conducted every 5 years as authorized by the Census of Agriculture Act of 1997 (Pub. L. 105-113). The 2023 Irrigation and Water Management Survey will use a combined probability sample of all farms and horticultural operations that reported irrigation and/or irrigation equipment on the 2022 Census of Agriculture. This irrigation survey aims to provide a comprehensive inventory of farm irrigation practices with detailed data relating to acres irrigated by category of land use, quantity of water applied, and method of application to selected crops. The 2023 survey will also collect expenditures for maintenance and repair of irrigation equipment and facilities; purchase of energy for on-farm pumping of irrigation water; investment in irrigation equipment, facilities, and land improvement; cost of water received from off-farm water supplies; and questions related to water reuse. The irrigation questions for horticultural specialties will provide the area irrigated in the open and under protection, source of water, and the irrigation method used at the State level and by 20 Water Resource Regions (WRR). The survey will publish tables showing the total estimated quantity of water applied, including one for crops. Irrigation data items are used by farmers, farming representatives, government agencies, and many other groups concerned with the irrigation industry and water use. This survey will provide the only source of dependable, comparable irrigation data by State and Water Resources Region (WRR). The National Agricultural Statistics Service will use the information collected only for statistical purposes and will publish the data only as aggregate totals.

Signed at Washington, DC, February 23, 2023.

Yvette Anderson,

Federal Register Liaison Officer, ARS, ERS, NASS.

DEPARTMENT OF AGRICULTURE

National Institute of Food and Agriculture

Notice of Intent To Request Approval of a New Information Collection

AGENCY: National Institute of Food and Agriculture, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 and Office of Management and Budget (OMB) regulations, this notice announces the National Institute of Food and Agriculture's (NIFA) intention to request a new information collection, entitled *National 4-H Conference Registration and Leadership Roles*.

DATES: Written comments on this notice must be received by May 1, 2023 to be assured of consideration. Comments received after that date will be considered to the extent practicable.

ADDRESSES: You may submit comments through the Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.

Instructions: All comments received will be posted without change to <http://www.regulations.gov>, including any personal information provided.

FOR FURTHER INFORMATION CONTACT: Laura Givens, 816-527-5379, Laura.Givens@usda.gov.

SUPPLEMENTARY INFORMATION:

Title of Collection: National 4-H Conference Registration and Leadership Roles.

OMB Control Number: 5024-NEW.
Type of Request: Notice of intent to request approval of a new information collection.

Abstract: NIFA is requesting approval of a new information collection entitled "National 4-H Conference Registration and Leadership Roles." This information collection is required to support the successful planning and delivery of activities associated with National 4-H Conference. The information collection is essential to provide the necessary instructions and paperwork to eligible registrants who would like to attend or serve in a leadership role at National 4-H Conference.

The National 4-H Conference at the U.S. Department of Agriculture (USDA) is known as the "Secretary's Conference" and has been the flagship youth development opportunity of USDA since 1927. The objectives of National 4-H Conference are to: develop the next generation of leaders; increase youths' familiarity with the government

and future career opportunities; and provide an opportunity for young people involved in 4–H in rural, urban and Tribal communities to share their voice on a national level with the federal government.

National 4–H Conference is administered by the National Institute of Food and Agriculture (NIFA) of the USDA. NIFA has determined that the Conference is reasonably and logically related to carrying out its statutory authority under Section 7511(f)(2) of the Food, Conservation, and Energy Act of 2008 (Pub. L. 110–246), as amended.

All NIFA Land-grant Colleges and Universities (1862, 1890, and 1994) are invited to select and send high school aged 4–H participants along with chaperones to National 4–H Conference. Each is encouraged to partner within their state to select a diverse state delegation based on age, background, geographic distribution, and/or experience with the 4–H Program.

Approximately 220 4–H participants between the ages of 15 to 19; 90 adult volunteer chaperones from 1862, 1890, and 1994 Institutions and the Cooperative Extension System; and 25 partner groups from across the federal government as well as non-profit organizations register to participate. Additionally, four adults, 17 college students and six youths serve in leadership positions.

The multi-day event is held in the Washington, DC area in Spring and includes registration, a published substantive agenda, scheduled speakers, and discussion panels. A core program activity is the federal briefings where youth delegates plan and deliver briefings based on challenge questions submitted by partnering federal agencies and congressional committees. The Secretary of Agriculture speaks during the Secretary's Assembly and in the past, U.S. Presidents have graced the event.

NIFA exercises overall oversight and development of the program for National 4–H Conference and works cooperatively with a logistics company, authorized under 7 U.S.C. 3318(c), who provides the required goods and services to ensure National 4–H Conference is successful at achieving its objectives.

The information collection is used by USDA and the logistics company to ensure youth and adults who would like to attend or serve in a leadership role at National 4–H Conference can be contacted, submit activity and dietary preferences, meet eligibility requirements, and provide the required permissions required by law such as parental/guardian consent. The

information collection is necessary to evaluate the application and other required paperwork for determining the applicant's eligibility and to assist in the selection of the leadership team for National 4–H Conference.

Type of Respondents: Individuals or Institutions of Higher Education.

Estimate of Burden: The annual public reporting burden for the collection of information is estimated to average one (1) hour per response. Public reporting burden for this information collection is estimated to include the time for reviewing instructions, searching existing data sources, gathering the data needed and completing and reviewing the collections of information.

Estimated Number of Respondents: 400.

Estimated Number of Responses per Respondent: 1.

Estimated Burden per Response: 1 hour.

Estimated Total Annual Burden on Respondents: 400 hours.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice will be summarized and included in the request to OMB for approval. All comments will become a matter of public record.

Obtaining a Copy of the Information Collection: A copy of the information collection and related instructions may be obtained free of charge by contacting Laura Givens as directed above.

Done at Washington, DC, this day of February 23, 2023.

Dionne Toombs,

Acting Director, National Institute of Food and Agriculture, U.S. Department of Agriculture.

BILLING CODE 3410–22–P

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[B–13–2023]

Foreign-Trade Zone (FTZ) 38, Notification of Proposed Production Activity; BMW Manufacturing Company, LLC; (Passenger Motor Vehicles); Spartanburg, South Carolina

BMW Manufacturing Company, LLC submitted a notification of proposed production activity to the FTZ Board (the Board) for its facility in Spartanburg, South Carolina within Subzone 38A. The notification conforming to the requirements of the Board's regulations (15 CFR 400.22) was received on February 22, 2023.

Pursuant to 15 CFR 400.14(b), FTZ production activity would be limited to the specific foreign-status material(s)/ component(s) described in the submitted notification (summarized below) and subsequently authorized by the Board. The benefits that may stem from conducting production activity under FTZ procedures are explained in the background section of the Board's website—accessible via www.trade.gov/ftz. The proposed material(s)/ component(s) would be added to the production authority that the Board previously approved for the operation, as reflected on the Board's website.

The proposed foreign-status component is an aluminum instantaneous water heater (duty-free). The request indicates that aluminum instantaneous water heaters are subject to duties under section 301 of the Trade Act of 1974 (section 301), depending on the country of origin. The applicable section 301 decisions require subject merchandise to be admitted to FTZs in privileged foreign status (19 CFR 146.41).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary and sent to: ftz@trade.gov. The closing period for their receipt is April 10, 2023.

A copy of the notification will be available for public inspection in the "Online FTZ Information System" section of the Board's website.

For further information, contact Christopher Wedderburn at Chris.Wedderburn@trade.gov.

Dated: February 23, 2023.

Elizabeth Whiteman,

Acting Executive Secretary.
