eSubmit—20 CFR 404.704; 404.1512, 416.912, and 422.505—0960–NEW

Background

From March 17, 2020, through April 7, 2022, because of the Coronavirus (COVID–19) public health emergency, SSA encouraged the public to use our online and automated telephone services while we offered limited in-person services in field offices. The increased volume of documents sent to our field offices presented an enormous challenge to SSA, as we had limited staff on site to process the mail at that time. This limited the time the field office staff had to review and process those submissions or work directly with the public. To lessen the burden on front-line employees and managers, allow staff more time to work with the public and process the information we receive, and to modernize form submission and document intake, we are creating a new service called eSubmit.

eSubmit

SSA is introducing eSubmit, a new way individuals can submit evidence and forms to SSA online. In the digital age, individuals expect to complete transactions online, including submission of documents and forms to government agencies. The agency already offers several self-service specific options for individuals to submit forms and other documents online, including the Electronic Protective Filing Tool, ePFT (OMB No. 0960–0826), internet Social Security Benefits Application, iClaim (OMB No. 0960–0618), and iAppeals (OMB No. 0960–0269 & 0960–0622).

eSubmit is a secure upload portal which respondents will use to submit documents and forms to SSA. To ensure the success of eSubmit, we will roll out the new application in several phases. The first phase will allow respondents to provide select documents (evidence that does not need to be certified or evidence which the agency does not require to be an original, also known collectively as “non original documentation,” and first-party forms that do not require a signature) to SSA electronically. Individuals must provide this information themselves since they will have to authenticate with their own information through one of several authentication methods (*i.e.*, *Login.gov*, *ID.me*, or SSA’s Public Credentialing and Authentication Process).

During this initial phase for eSubmit, we will ask the individual to be in contact, via a telephone or face-to-face interview, with SSA for a business matter (*e.g.*, filing a claim, performing a
