

scheduled for March 22, 2023. See

**SUPPLEMENTARY INFORMATION.**

**DATES:** The SEDAR 82 South Atlantic Gray Triggerfish Post Assessment Webinar 1 is scheduled for March 22, 2023, from 11 a.m. to 2 p.m., Eastern. The established times may be adjusted as necessary to accommodate the timely completion of discussion relevant to the assessment process. Such adjustments may result in the meeting being extended from or completed prior to the time established by this notice.

**ADDRESSES:** The meeting will be held via webinar. The webinar is open to members of the public. Registration for the webinar is available by contacting the SEDAR coordinator via email at [Kathleen.Howington@safmc.net](mailto:Kathleen.Howington@safmc.net).

*SEDAR address:* South Atlantic Fishery Management Council, 4055 Faber Place Drive, Suite 201, N Charleston, SC 29405; [www.sedarweb.org](http://www.sedarweb.org).

**FOR FURTHER INFORMATION CONTACT:**

Kathleen Howington, SEDAR Coordinator, 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405; phone: (843) 571-4371; email: [Kathleen.Howington@safmc.net](mailto:Kathleen.Howington@safmc.net).

**SUPPLEMENTARY INFORMATION:** The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions, have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop; (2) Assessment Process utilizing webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, Highly Migratory Species Management

Division, and Southeast Fisheries Science Center. Participants include: data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion at the SEDAR 82 South Atlantic Gray Triggerfish Assessment Webinar 1 are as follows: Discuss any leftover data issues that were not cleared up during the data process, answer any questions that the analysts have, and introduce/discuss model development and model setup.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

**Special Accommodations**

This meeting is accessible to people with disabilities. Requests for auxiliary aids should be directed to the South Atlantic Fishery Management Council office (see **ADDRESSES**) at least 10 business days prior to the meeting.

*Note:* The times and sequence specified in this agenda are subject to change.

*Authority:* 16 U.S.C. 1801 *et seq.*

Dated: February 24, 2023.

**Rey Israel Marquez,**

*Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.*

**DEPARTMENT OF COMMERCE**

**National Oceanic and Atmospheric Administration**

[RTID 0648-XC751]

**Pacific Fishery Management Council; Public Meeting**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of a public online meeting.

**SUMMARY:** The Pacific Fishery Management Council (Pacific Council) and the NMFS Northwest Fisheries Science Center will convene an online pre-assessment workshop to review proposed data and modeling approaches to inform groundfish stock assessments for shortspine thornyhead, rex sole, and petrale sole, scheduled for assessment during 2023. The workshop is open to the public.

**DATES:** The pre-assessment workshop will be held Monday, March 20, 2023, from 1 p.m. until 5 p.m. (Pacific Standard Time) or until business for the day has been completed.

**ADDRESSES:** The pre-assessment workshop will be conducted as an online meeting. Specific meeting information, including the agenda and directions on how to join the meeting and system requirements, will be provided in the workshop announcement on the Pacific Council's website (see [www.pcouncil.org](http://www.pcouncil.org)). You may send an email to Mr. Kris Kleinschmidt ([kris.kleinschmidt@noaa.gov](mailto:kris.kleinschmidt@noaa.gov)) or contact him at (503) 820-2412 for technical assistance.

*Council address:* Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220.

**FOR FURTHER INFORMATION CONTACT:**

Marlene A. Bellman, Staff Officer, Pacific Council; telephone: (503) 820-2414, email: [marlene.bellman@noaa.gov](mailto:marlene.bellman@noaa.gov).

**SUPPLEMENTARY INFORMATION:** The purpose of the pre-assessment workshop is to review proposed data inputs, modeling approaches, and any other pertinent information to inform 2023 stock assessments for shortspine thornyhead, rex sole, and petrale sole. The goal of the pre-assessment workshop is to promote dialogue and a common understanding between assessment teams and data providers of the best data and analytical and modeling approaches applicable to these assessments. Stock assessment teams will solicit advice from data stewards, stakeholders, and fishery managers knowledgeable about these species.

No management actions will be decided by the workshop participants. The participants' role will be development of recommendations for consideration by the stock assessment teams assigned to conduct these assessments. Assessments for these stocks are tentatively scheduled for peer review during Stock Assessment Review (STAR) panels: shortspine thornyhead and rex sole (June 5-9, 2023) and petrale sole (July 24-28, 2023). The

Pacific Council and the Pacific Council's Scientific and Statistical Committee are scheduled to consider these draft assessments for use in informing management decisions at their September 2023 meeting in Spokane, WA.

Although nonemergency issues not contained in the workshops' agendas may be discussed, those issues may not be the subject of formal action during these workshops. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent of the workshop participants to take final action to address the emergency.

### Special Accommodations

Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Kris Kleinschmidt ([kris.kleinschmidt@noaa.gov](mailto:kris.kleinschmidt@noaa.gov); (503) 820-2412) at least 10 days prior to the meeting date.

*Authority:* 16 U.S.C. 1801 *et seq.*

Dated: February 24, 2023.

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

#### Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Socioeconomics of Coral Reef Conservation, the Commonwealth of the Northern Mariana Islands 2024 Survey

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on January 25,

2021 (86 FR 6876) during a 60-day comment period and again on April, 16, 2021 (86 FR 20120) during a 30-day comment period. This notice allows for an additional 30 days for public comments.

*Agency:* National Oceanic & Atmospheric Administration (NOAA), Commerce.

*Title:* Socioeconomics of Coral Reef Conservation, the Commonwealth of the Northern Mariana Islands 2024 Survey.

*OMB Control Number:* 0648-0646.

*Form Number(s):* None.

*Type of Request:* Regular (revision to an existing information collection).

*Number of Respondents:* 1,600.

*Average Hours per Response:* 20 minutes (0.33 hours).

*Total Annual Burden Hours:* 533 hours.

*Needs and Uses:* This request is for a revision to a currently approved hybrid-generic information collection under OMB Control Number 0648-0646. This request adds materials for jurisdictional implementation in the Commonwealth of the Northern Mariana Islands (CNMI).

The information collection is part of the National Coral Reef Monitoring Program (NCRMP), which was established by the National Oceanic and Atmospheric Administration (NOAA) Coral Reef Conservation Program (CRCP) under the authority of the Coral Reef Conservation Act of 2000. The CRCP was created to safeguard and ensure the welfare of the coral reef ecosystems along the coastlines of America's states and territories. In accordance with its mission goals, NOAA developed a survey to track relevant information regarding each jurisdiction's population, social and economic structure, the benefits of coral reefs and related habitats, the impacts of society on coral reefs, and the impacts of coral management on communities. The survey is repeated in each jurisdiction every five to seven years in order to provide longitudinal data and information for managers to effectively conserve coral reefs for current and future generations.

The purpose of this information collection is to obtain human dimensions information from residents in the Commonwealth of the Northern Mariana Islands. Specifically, NOAA is seeking information on the behaviors and activities related to coral reefs, as well as information on perceptions of coral reef conditions and attitudes toward specific reef conservation activities. The survey has a core set of questions that are the same for all jurisdictions to allow for information to be tracked over time. To account for geographical, cultural and linguistic

differences between jurisdictions, the survey questions include items that are specific to the local context and developed based on jurisdictional partner feedback.

We intend to use the information collected through this survey instrument for research purposes, as well as for measuring and improving the results of our reef protection programs. Because many of our efforts to protect reefs rely on education and changing attitudes toward reef protection, the information collected will allow CRCP to ensure that programs are designed appropriately at the start, future program evaluation efforts are as successful as possible, and outreach efforts are targeting the intended recipients with useful information.

*Affected Public:* Individuals or households.

*Frequency:* Every 5-7 years.

*Respondent's Obligation:* Voluntary.

*Legal Authority:* Coral Reef Conservation Act of 2000.

This information collection request may be viewed at [www.reginfo.gov](http://www.reginfo.gov). Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering either the title of the collection or the OMB Control Number 0648-0646.
