ENVIRONMENTAL PROTECTION AGENCY

[FRL-10746-01-R9]

Revision of Approved State Primacy Program for the State of Nevada

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of approval.

SUMMARY: Notice is hereby given that the State of Nevada revised its approved State primacy program under the Federal Safe Drinking Water Act (SDWA) by adopting regulations that effectuate the Federal Radionuclides Rule. The Environmental Protection Agency (EPA) has determined that Nevada's revision request meets the applicable SDWA program revision requirements and the regulations adopted by Nevada are no less stringent than the corresponding Federal regulations. Therefore, EPA approves this revision to Nevada's approved State primacy program. However, this determination on Nevada's request for approval of a program revision shall take effect in accordance with the procedures described below in the **SUPPLEMENTARY INFORMATION** section of this notice after the opportunity to request a public hearing.

DATES: A request for a public hearing must be received or postmarked before April 3, 2023.

ADDRESSES: Documents relating to this determination that were submitted by Nevada as part of its program revision request are available for public inspection online at <https://ndep.nv.gov/posts>. In addition, documents relating to this determination are available by appointment between the hours of 8:30 a.m. and 4 p.m., Monday through Friday, except official State or Federal holidays, at the following address:

Nevada Division of Environmental Protection, Administration Office, 901 South Stewart Street, Suite 4001, Carson City, NV 89701. Please contact the Bureau of Safe Drinking Water at (775) 687-9521 to schedule an appointment.

FOR FURTHER INFORMATION CONTACT: Samantha Bishop, EPA Region 9, Drinking Water Section; via telephone at (415) 972-3411 or via email address at bishop.samantha@epa.gov.

SUPPLEMENTARY INFORMATION:

Background. EPA approved Nevada's initial application for primary enforcement authority ("primacy") of drinking water systems on February 27, 1978 (43 FR 8030). Since initial primacy approval, EPA has approved various revisions to Nevada's primacy program. For the revision covered by this action, EPA promulgated the Federal Radionuclides Rule at 40 CFR 141.25, 141.26 and 141.66. EPA promulgated National Interim Primary Drinking Water Regulations (NIPDWRs) for radioactivity in drinking water on July 9, 1976. The 1986 amendments to the Safe Drinking Water Act finalized the NIPDWRs and required EPA to promulgate Maximum Contaminant Level Goals and National Primary Drinking Water Regulations for radionuclides, radon and uranium. On December 7, 2000, EPA revised the Radionuclides Rule which modified the monitoring provisions for community water systems and established a new drinking water standard for uranium and new analytical methods (65 FR 76708). On August 25, 2004, EPA published minor corrections to the Radionuclides Rule that clarified rule language and provided a detection limit for uranium (69 FR 52176). EPA has determined that Nevada has adopted into state law Radionuclides Rule requirements that are comparable to and no less stringent than the Federal requirements. EPA has also determined that the State's program revision request meets all of the regulatory requirements for approval, as set forth in 40 CFR 142.12, including a side-by-side comparison of the Federal requirements demonstrating the corresponding State authorities, additional materials to support special primacy requirements of 40 CFR 142.16, a review of the requirements contained in 40 CFR 142.10 necessary for States to attain and retain primary enforcement responsibility, and a statement by the Nevada Attorney General certifying that Nevada's laws and regulations to carry out the program revision were duly adopted and are enforceable. The Attorney General's statement also affirms that there are no environmental

audit privilege and immunity laws that would impact Nevada's ability to implement or enforce the Nevada laws and regulations pertaining to the program revision. Therefore, EPA approves this revision of Nevada's approved State primacy program. The Technical Support Document, which provides EPA's analysis of Nevada's program revision request, is available by submitting a request to the following email address: R9dw-program@epa.gov. Please note "Technical Support Document" in the subject line of the email.

Public Process. Any interested person may request a public hearing on this determination. A request for a public hearing must be received or postmarked before April 3, 2023 and addressed to the Regional Administrator of EPA Region 9, via the following email address: R9dw-program@epa.gov, or by contacting the EPA Region 9 contact person listed above in this notice by telephone if you do not have access to email. Please note "State Program Revision Determination" in the subject line of the email. The Regional Administrator may deny frivolous or insubstantial requests for a hearing. If a timely request for a public hearing is made, then EPA Region 9 may hold a public hearing. Any request for a public hearing shall include the following information: 1. The name, address, and telephone number of the individual, organization, or other entity requesting a hearing; 2. A brief statement of the requesting person's interest in the Regional Administrator's determination and of information that the requesting person intends to submit at such hearing; and 3. The signature of the individual making the request, or, if the request is made on behalf of an organization or other entity, the signature of a responsible official of the organization or other entity.

If EPA Region 9 does not receive a timely request for a hearing or a request for a hearing was denied by the Regional Administrator for being frivolous or insubstantial, and the Regional Administrator does not elect to hold a hearing on their own motion, EPA's approval shall become final and effective on April 3, 2023, and no further public notice will be issued.

Authority: Section 1413 of the Safe Drinking Water Act, as amended, 42 U.S.C. 300g-2 (1996), and 40 CFR part 142 of the National Primary Drinking Water Regulations.

Dated: February 23, 2023.

Martha Guzman Aceves,
Regional Administrator, EPA Region 9.

Clean Air Act Operating Permit; Apache County, Arizona; Petition for Objection to State Operating Permit for Springerville Generating Station

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final action.

SUMMARY: The Environmental Protection Agency (EPA) Administrator signed an Order, dated January 19, 2023, denying the petition to object to a Clean Air Act (CAA) title V operating permit issued to the Tuscon Electric Power Company Springerville Generating Station located in Apache County, Arizona. The Order responds to a June 20, 2022 petition submitted by the Sierra Club and the National Parks Conservation Association (the "Petitioners") requesting that the EPA object to the final operating permit No. 65614 issued by the Arizona Department of Environmental Quality (ADEQ). The Order constitutes a final action on the petition addressed therein.

DATES: Pursuant to section 307(b)(1) of the Clean Air Act, 42 U.S.C. 7607(b)(1), judicial review of this final agency action, to the extent it is available, may be sought by filing a petition for review in the United States Court of Appeals for the Ninth Circuit within 60 days of March 3, 2023.

ADDRESSES: Copies of the petitions and Orders are available at <https://www.epa.gov/title-v-operating-permits/title-v-petition-database>. For additional information, please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section.

FOR FURTHER INFORMATION CONTACT: Lisa Beckham, EPA Region IX, 75 Hawthorne Street (AIR-3-1), San Francisco, California 94105. By phone at (415) 972-3811, or by email at beckham.lisa@epa.gov.

SUPPLEMENTARY INFORMATION: The CAA affords the EPA a 45-day period to review and, as appropriate, the authority to object to operating permits proposed by state and local permitting authorities under title V of the CAA, 42 U.S.C. 7661-7661f. Section 505(b)(2) of the CAA and 40 CFR 70.8(d) authorize any person to petition the EPA

Administrator to object to a title V operating permit within 60 days after the expiration of the EPA's 45-day review period if the EPA has not objected on its own initiative. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the permitting authority, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or the grounds for the issues arose after the comment period closed.

On June 20, 2022, the Petitioners submitted a petition to the EPA pursuant to section 505(b)(2) of the CAA and 40 CFR 70.8(d). The petition requested that the EPA object to significant permit revision No. 91093 to the CAA title V operating permit issued by the ADEQ for Tuscon Electric Power Company Springerville Generating Station (Permit No. 65614) in Apache County, Arizona. On January 19, 2023, the Administrator issued an Order denying the petition.

The Order provides additional information, including a summary of the claims raised and the EPA's bases for denying the claims raised by the Petitioners. Please see the **ADDRESSES** section above to access a copy of the Order.

Dated: February 23, 2023.

Martha Guzman Aceves,
Regional Administrator, Region IX.
