SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, BOEM provides the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps BOEM assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand BOEM's information collection requirements and provide the requested data in the desired format.

BOEM is soliciting comments on the proposed ICR described below. BOEM is especially interested in public comments addressing the following issues: (1) is the collection necessary to the proper functions of BOEM; (2) what can BOEM do to ensure that this information is processed and used in a timely manner; (3) is the burden estimate accurate; (4) how might BOEM enhance the quality, utility, and clarity of the information to be collected; and (5) how might BOEM minimize the burden of this collection on the respondents, including minimizing the burden through the use of information technology?

Comments submitted in response to this notice are a matter of public record. BOEM will include or summarize each comment in its ICR to OMB for approval of this information collection. You should be aware that your entire comment—including your address, phone number, email address, or other personally identifiable information included in your comment—may be made publicly available at any time.

Even if BOEM withholds your personally identifiable information in the context of this ICR, your comment is subject to the Freedom of Information Act (FOIA) (5 U.S.C. 552). If your comment is requested under FOIA, your information will only be withheld if a determination is made that one of the FOIA exemptions to disclosure applies. Such a determination will be made in accordance with the Department of the Interior's FOIA regulations (43 CFR part 2) and applicable law.

For BOEM to consider withholding from disclosure your personally identifiable information, you must identify, in a cover letter, any information contained in your comment that, if released, would constitute a clearly unwarranted invasion of your privacy. You must also briefly describe any possible harmful consequences of the disclosure of information, such as embarrassment, injury, or other harm.

BOEM will make available for public inspection all comments in their entirety (except propriety information)

submitted by organizations and businesses, or by individuals identifying themselves as representatives of organizations or businesses. BOEM protects proprietary information in accordance with FOIA and the Department's implementing regulations, 30 CFR 582.5 and 582.6, and applicable sections of 30 CFR parts 580 and 581. Items of a sensitive nature are not intended to be collected.

Title of Collection: "Operations in the Outer Continental Shelf for Minerals Other than Oil, Gas, and Sulfur."

Abstract: The Outer Continental Shelf Lands Act (43 U.S.C. 1334 and 1337(k)(1)) authorizes the Secretary of the Interior to issue leases on available areas of the U.S. Outer Continental Shelf (OCS) to the highest qualified bidder to develop any mineral resources other than oil, gas, and sulfur. The Secretary may prescribe the royalty, rental, and other terms and conditions at the time the lease is offered. The act also authorizes the Secretary to issue regulations governing such leasing.

The Secretary delegated rulemaking authority to BOEM. BOEM's regulations at 30 CFR part 582 carry out the statutory requirements by governing such OCS leasing and mining.

Competitive leasing has not occurred for OCS minerals other than oil, gas, and sulfur in many years. Accordingly, BOEM has not generally collected information under this part of its regulations. However, given the regulatory requirements, the potential exists that BOEM may require information under this part. Therefore, BOEM seeks OMB renewal of this information collection.

BOEM will use the information required by 30 CFR part 582 to determine if lessees are complying with the regulations for mining minerals other than oil, gas, and sulfur. BOEM will also use the information to ensure orderly resource development; to protect the human, marine, and coastal environments; and to conduct the requisite technical and environmental evaluations that inform BOEM's decision to approve, disapprove, or require modification of the proposed activities.

OMB Control Number: 1010-0081.

Form Number: None.

Type of Review: Extension of a currently approved information collection.

Respondents/Affected Public:

Potential respondents are OCS lessees.

Total Estimated Number of Annual Responses: 20 responses.

Total Estimated Number of Annual Burden Hours: 212 hours.

Respondent's Obligation: Mandatory.

Frequency of Collection: Monthly, quarterly, or on occasion.
Total Estimated Annual Non-Hour Burden Cost: None.

BOEM estimates this ICR's the annual hour burden at 212 hours. The following

table details the regulatory sections containing information collections and their respective hour burden estimates. In calculating the burdens, we assumed that respondents perform certain

requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden.
