SUPPLEMENTARY INFORMATION: In accordance with the PRA, we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provides the requested data in the desired format.

We are soliciting comments on the proposed ICR that is described below. We are especially interested in public comments addressing the following issues: (1) is the collection necessary to the proper functions of the USGS minerals information mission; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how the USGS might enhance the quality, utility, and clarity of the information to be collected; and (5) how the USGS might minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personally identifiable information (PII) in your comment, you should be aware that your entire comment—including your PII—may be made publicly available at any time. While you can ask us in your comment to withhold your PII from public review, we cannot guarantee that we will be able to do so.

Abstract: Respondents to these forms supply the USGS with domestic production- and consumption data for industrial mineral commodities, some of which are considered strategic and critical, to assist in determining National Defense Stockpile goals. These data and derived information will be published as chapters in Mineral Yearbooks, monthly Mineral Industry Surveys, annual Mineral Commodity Summaries, and special publications for use by Government agencies, Congressional offices, educational institutions, research organizations, financial institutions, consulting firms, industry, academia, and the general public.

The USGS Mineral Resources Program is submitting this **Federal Register**

Notice as a revision to add a new 'Rare Gases Sold or Used' annual canvass to this ICR and estimates an additional 20 respondents with an average estimated burden time per form of 30 minutes. Based on technology advances, rare gases have become an important component of the U.S. supply chain with few suppliers or functional substitutes, a high risk of supply-chain disruption, and fluctuation-sensitive markets.

Title of Collection: Industrial Minerals Surveys.

OMB Control Number: 1028–0062.

Form Number: Various (39 USGS forms).

Type of Review: Renewal with a revision of a currently approved collection.

Respondents/Affected Public: Businesses or Other For-Profit Institutions: U.S. nonfuel mineral producers and consumers of industrial minerals. Public sector: State- and local governments.

Total Estimated Number of Annual Respondents: 14,630.

Total Estimated Number of Annual Responses: 17,073.

Estimated Completion Time per Response: For each form, we will include an average burden time ranging from 10 minutes to 5 hours.

Total Estimated Number of Annual Burden Hours: 11,736.

Respondent's Obligation: Voluntary.

Frequency of Collection: Monthly, Quarterly, Semiannually, or Annually.

Total Estimated Annual Non-Hour Burden Cost: There are no "non-hour cost" burdens associated with this ICR.

An agency may not conduct or sponsor, nor is a person required to respond to, a collection of information unless it displays a currently valid OMB control number.

The authorities for this action are the PRA, the National Materials and Minerals Policy, Research and Development Act of 1980 (30 U.S.C. 1601 *et seq.*), the National Mining and Minerals Policy Act of 1970 (30 U.S.C. 21(a)), the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98 *et seq.*), and the Defense Production Act (50 U.S.C. 2061 *et seq.*).

Agency Information Collection Activities; Plans and Information

AGENCY: Bureau of Ocean Energy Management, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Bureau of Ocean Energy Management (BOEM) proposes this information collection request (ICR) to renew with revisions the Office of Management and Budget (OMB) Control Number 1010–0151.

DATES: Comments must be received by BOEM no later than May 2, 2023.

ADDRESSES: Send your comments on this ICR by mail to the BOEM Information Collection Clearance Officer, Anna Atkinson, Bureau of Ocean Energy Management, 45600 Woodland Road, Sterling, Virginia 20166; or by email to anna.atkinson@boem.gov. Please reference OMB Control Number 1010–0151 in the subject line of your comments. You may also view the ICR and its related documents by searching the docket number BOEM–2023–0004 at <http://www.regulations.gov>.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, BOEM provides the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps BOEM assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand BOEM's information collection requirements and provide the requested data in the desired format.

BOEM is soliciting comments on this proposed ICR. BOEM is especially

interested in public comments addressing the following issues: (1) is the collection necessary to the proper functions of BOEM; (2) what can BOEM do to ensure that this information is processed and used in a timely manner; (3) is the burden estimate accurate; (4) how might BOEM enhance the quality, utility, and clarity of the information to be collected; and (5) how might BOEM minimize the burden of this collection on the respondents, including minimizing the burden through the use of information technology?

Comments submitted in response to this notice are a matter of public record. BOEM will include or summarize each comment in its ICR to OMB for approval of this information collection, and comments will be posted on www.reginfo.gov. You should be aware that your entire comment—including your address, phone number, email address, or other personally identifiable information included in your comment—may be made publicly available at any time.

Even if BOEM withholds your personally identifiable information in the context of this ICR, your comment is subject to the Freedom of Information Act (FOIA) (5 U.S.C. 552). If your comment is requested under FOIA, your information will only be withheld if a determination is made that one of the FOIA exemptions to disclosure applies. Such a determination will be made in accordance with the Department of the Interior's (DOI) FOIA regulations (43 CFR part 2) and applicable law.

For BOEM to consider withholding from disclosure your personally identifiable information, you must identify, in a cover letter, any information contained in your comment that, if released, would constitute a clearly unwarranted invasion of your privacy. You must also briefly describe any possible harmful consequences of the disclosure of information, such as embarrassment, injury, or other harm.

BOEM will make available for public inspection all comments in their entirety (except propriety information) submitted by organizations and businesses, or by individuals identifying themselves as representatives of organizations or businesses. BOEM protects proprietary information in accordance with FOIA, DOI's implementing regulations, and 30 CFR parts 550 and 552 promulgated pursuant to the Outer Continental Shelf (OCS) Lands Act (43 U.S.C. 1352(c)).

Title of Collection: "30 CFR 550, Subpart B, Plans and Information."

Abstract: This ICR concerns the paperwork requirements in the

regulations under 30 CFR part 550, subpart B, "Plans and Information."

The OCS Lands Act, as amended (43 U.S.C. 1331 *et seq.*, as amended), authorizes the Secretary of the Interior to prescribe regulations to administer leasing of mineral resources on the OCS. Such regulations apply to all operations conducted under a lease. The OCS Lands Act requires lessees to submit exploration plans (EPs), development and production plans (DPPs), and development operations coordination documents (DOCDs) to the Secretary for approval prior to commencing these activities. See 43 U.S.C. 1340 and 1351. On the Arctic OCS, lessees and operators are required to develop an integrated operations plan (IOP) for each exploratory program and to submit additional planning information with their EPs.

The Secretary delegated that regulatory authority to BOEM. The BOEM regulations at 30 CFR part 550, subpart B, require lessees to submit plans and information before conducting OCS activities under a lease. Those information collections are the subject of this ICR. This ICR also covers the related notices to lessees and operators (NTLs) that BOEM issues to provide additional guidance on its regulations.

BOEM geologists, geophysicists, and environmental scientists and other Federal agencies (*e.g.*, USFWS, NMFS) analyze and evaluate the information collected under subpart B. Their analyses ensure that planned operations are safe, conserve OCS resources, and avoid undue effects on the marine, coastal, or human environment. BOEM uses the information to make an informed decision on whether to approve the proposed EP, DDP, or DOCD as submitted or require modifications. Also, the affected States may review the information collected to ensure consistency with their coastal zone management plans.

BOEM also provides reports (typically annually) to NMFS and USFWS to document compliance with the Endangered Species Act (ESA) and any issued biological opinions. These reports may include information on mitigation effectiveness, adverse impacts of activities, and any incidental takes, in accordance with 50 CFR 402.14(i)(3). For example, NMFS' recent biological opinion "Biological Opinion on the Federally Regulated Oil and Gas Program Activities in the Gulf of Mexico," (Consultation Number FPR-2017-92341) dated March 13, 2020, and amended in 2021 (GOM BiOp), covers all activities associated with the OCS oil and gas program in the Gulf of Mexico

through approximately March 2030. The GOM BiOp addresses the impacts to and incidental take of ESA-listed species as a result of BOEM-authorized activities. Compliance with the GOM BiOp's relevant terms, conditions, mitigation measures, and protocols necessitates updates to the information that lessees and operators must submit in the appendices to their plan. Certain post-lease approvals (*e.g.*, for activities involving new and unusual technologies, equipment involving entanglement risks, and all ancillary geological and geophysical (G&G) surveys) require step-down review with NMFS and may require additional information to fully assess the potential for impacts to protected species. BOEM uses the information submitted by the lessees and operators (*e.g.*, BOEM-0137, OCS Plan Information Form) to determine which mitigations are necessary. The GOM BiOp modified reporting requirements compared to the prior BiOp issued by NMFS; therefore, BOEM is revising the estimated burdens identified in this ICR.

Type of Review: Revision of a currently approved information collection.

Respondents/Affected Public: Potential respondents compromise Federal OCS oil, gas, and sulfur lessees and operators.

Total Estimated Number of Annual Responses: 1,291 responses.

Total Estimated Number of Annual Burden Hours: 286,144 hours.

Respondent's Obligation: Mandatory.

Frequency of Collection: On occasion, semi-monthly, and varies by section.

Total Estimated Annual Non-Hour Burden Cost: \$3,688,524.

BOEM identified three non-hour costs associated with this information collection. Those costs are fees that BOEM charges lessees to review their planning documents, such as EPs (\$4,348 fee for 95 EPs; total \$413,600 annually), DPPs or DOCDs (\$5,017 fee for 180 DPPs and DOCDs; total \$903,060 annually), and conservation information documents (CIDs) (\$32,372 fee for 17 CIDs; total \$550,324 annually).

Also, lessees incur a non-hour cost associated with the Protected Species Observer Program. This cost totals \$1,822,080 and covers observation activities that are usually subcontracted to companies with expertise in these areas.

The current OMB Control Number 1010-0151 accounts for 436,438 annual burden hours, 4,266 responses, and \$3,939,435 non-hour cost burdens. Based on several revisions, BOEM estimates the burden for the renewal will be 286,144 annual burden hours with 1,291 responses, and \$3,688,524 non-hour cost burdens.

In calculating the information collection burdens, BOEM accounted for decreases in the number of plans

submitted annually and for the changes resulting from the GOM BiOp. Per the GOM BiOp, BOEM currently requires monthly marine mammal observation and monitoring reports and a final report within 90 days of the completion of an OCS survey. Because the GOM BiOp replaced BOEM's NTL 2016-G02, which had required two reports each month, BOEM estimates an overall decrease in the burden related to these monitoring reports.

The GOM BiOp requires additional reporting if one or more individuals from a protected species are observed within an enclosed moon pool, which is an opening in the bottom of a marine platform, drill ship or vessel, through

which deepwater drilling is done. The operator must report the observation within 24 hours and daily thereafter as long as any individuals from a protected species remain within the moon pool. With this new requirement, BOEM estimates a slight increase in annual reporting.

While the GOM BiOp increased certain reporting burdens for lessees and operators in the Gulf of Mexico, the overall non-hour costs are estimated to decrease slightly due to the anticipated reduction in the number of plans submitted to BOEM.

The following table estimates the information collection burden contained in 30 CFR 550, subpart B.

** Archaeological surveys and reports required under 30 CFR 550, subpart A in 550.194(a) are generally part of the geohazard survey report required under 30 CFR 550, subpart B. On average it takes an archaeologist 35 hours to prepare the archaeological survey and report. This hour burden is included in the overall hour burden estimate for submission of EPs and all required information.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Agency Information Collection Activities; Operations in the Outer Continental Shelf for Minerals Other Than Oil, Gas, and Sulfur

AGENCY: Bureau of Ocean Energy Management, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Bureau of Ocean Energy Management (BOEM) proposes this information collection request (ICR) to renew Office of Management and Budget (OMB) Control Number 1010-0081.

DATES: Comments must be received by BOEM no later than May 2, 2023.

ADDRESSES: Send your comments on this ICR by mail to the BOEM Information Collection Clearance Officer, Anna Atkinson, Bureau of Ocean Energy Management, 45600 Woodland Road, Sterling, Virginia 20166; or by email to anna.atkinson@boem.gov. Please reference OMB Control Number 1010-0081 in the subject line of your comments. You may also view the ICR and its related documents by searching the docket number BOEM-2023-0004 at <http://www.regulations.gov>.

Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside of the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, BOEM provides the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps BOEM assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand BOEM's information collection requirements and provide the requested data in the desired format.

BOEM is soliciting comments on the proposed ICR described below. BOEM is especially interested in public comments addressing the following issues: (1) is the collection necessary to the proper functions of BOEM; (2) what can BOEM do to ensure that this information is processed and used in a timely manner; (3) is the burden estimate accurate; (4) how might BOEM enhance the quality, utility, and clarity of the information to be collected; and (5) how might BOEM minimize the burden of this collection on the respondents, including minimizing the burden through the use of information technology?

Comments submitted in response to this notice are a matter of public record. BOEM will include or summarize each comment in its ICR to OMB for approval of this information collection. You should be aware that your entire comment—including your address, phone number, email address, or other personally identifiable information included in your comment—may be made publicly available at any time.

Even if BOEM withholds your personally identifiable information in the context of this ICR, your comment is subject to the Freedom of Information Act (FOIA) (5 U.S.C. 552). If your comment is requested under FOIA, your information will only be withheld if a determination is made that one of the FOIA exemptions to disclosure applies. Such a determination will be made in accordance with the Department of the Interior's FOIA regulations (43 CFR part 2) and applicable law.

For BOEM to consider withholding from disclosure your personally identifiable information, you must identify, in a cover letter, any information contained in your comment that, if released, would constitute a clearly unwarranted invasion of your privacy. You must also briefly describe any possible harmful consequences of the disclosure of information, such as embarrassment, injury, or other harm.

BOEM will make available for public inspection all comments in their entirety (except propriety information)

submitted by organizations and businesses, or by individuals identifying themselves as representatives of organizations or businesses. BOEM protects proprietary information in accordance with FOIA and the Department's implementing regulations, 30 CFR 582.5 and 582.6, and applicable sections of 30 CFR parts 580 and 581. Items of a sensitive nature are not intended to be collected.

Title of Collection: "Operations in the Outer Continental Shelf for Minerals Other than Oil, Gas, and Sulfur."

Abstract: The Outer Continental Shelf Lands Act (43 U.S.C. 1334 and 1337(k)(1)) authorizes the Secretary of the Interior to issue leases on available areas of the U.S. Outer Continental Shelf (OCS) to the highest qualified bidder to develop any mineral resources other than oil, gas, and sulfur. The Secretary may prescribe the royalty, rental, and other terms and conditions at the time the lease is offered. The act also authorizes the Secretary to issue regulations governing such leasing.

The Secretary delegated rulemaking authority to BOEM. BOEM's regulations at 30 CFR part 582 carry out the statutory requirements by governing such OCS leasing and mining.

Competitive leasing has not occurred for OCS minerals other than oil, gas, and sulfur in many years. Accordingly, BOEM has not generally collected information under this part of its regulations. However, given the regulatory requirements, the potential exists that BOEM may require information under this part. Therefore, BOEM seeks OMB renewal of this information collection.

BOEM will use the information required by 30 CFR part 582 to determine if lessees are complying with the regulations for mining minerals other than oil, gas, and sulfur. BOEM will also use the information to ensure orderly resource development; to protect the human, marine, and coastal environments; and to conduct the requisite technical and environmental evaluations that inform BOEM's decision to approve, disapprove, or require modification of the proposed activities.

OMB Control Number: 1010-0081.

Form Number: None.

Type of Review: Extension of a currently approved information collection.

Respondents/Affected Public:

Potential respondents are OCS lessees.

Total Estimated Number of Annual Responses: 20 responses.

Total Estimated Number of Annual Burden Hours: 212 hours.

Respondent's Obligation: Mandatory.
