

Although each application for the 2023 grant year will be given due consideration, the IRS is interested in receiving applications from organizations providing services in those underserved geographic areas. For organizations that intend to refer low-income taxpayers in controversies with the IRS to other qualified representatives, priority will be given to established organizations that can help provide coverage to underserved geographic areas. For the taxpayer education pilot program, special consideration will be given to established organizations with existing community partnerships that can swiftly implement and deliver services to the target audiences.

As in prior years, the IRS will consider a variety of factors in determining whether to award a grant, including: (1) the number of taxpayers who will be assisted by the organization, including the number of ESL taxpayers in that geographic area; (2) the existence of other LITCs assisting the same population of low-income and ESL taxpayers; (3) the quality of the program offered by the organization, including the qualifications of its administrators and qualified representatives, and its record, in providing services to low-income taxpayers; (4) the quality of the organization, including the reasonableness of the proposed budget; (5) the organization's compliance with all federal tax obligations (filing and payment); (6) the organization's compliance with all federal nontax monetary obligations (filing and payment); (7) whether debarment or suspension (31 CFR part 19) applies or whether the organization is otherwise excluded from or ineligible for a federal award; and (8) alternative funding sources available to the organization, including amounts received from other grants and contributors and the endowment and resources of the institution sponsoring the organization.

In addition, the IRS will consider two additional factors for organizations that refer taxpayers to other qualified representatives: (1) the quality of the representatives (attorneys, certified public accountants (CPAs), or enrolled agents (EAs) who have agreed to accept taxpayer referrals from an LITC and provide representation or consultation services free of charge; and (2) the quality of the organization to monitor referrals and ensure that the pro bono representatives are handling the cases properly, including taking timely case actions and ensuring services are offered for free.

Applications that pass the eligibility screening process will then be subject to technical review. Details regarding the scoring process can be found in Publication 3319. The final funding decisions are made by the National Taxpayer Advocate, unless recused. The costs of preparing and applying are the responsibility of each applicant. Applications may be released in response to Freedom of Information Act requests. Therefore, applicants must not include any individual taxpayer information.

The LITC Program Office will notify each applicant in writing once funding decisions have been made. Applicants that want to be considered for 2024 grant year funding will need to apply for a separate grant when the applicable application period opens on or about May 1, 2023.

Kim S. Stewart,

Deputy National Taxpayer Advocate.

Program Description

Summary

Pursuant to the Veterans' Benefits Act of 2010 (Pub. L. 111-275, section 203), the Secretary of Veterans Affairs, through the Loan Guaranty Service

(LGY) of the Veterans Benefits Administration (VBA), is authorized to provide grants of financial assistance to develop new assistive technology. The objective of the SAHAT Grant Program is to encourage the development of new assistive technologies for adapted housing.

Background

LGY currently administers the SAH Grant Program. Through this program, LGY provides funds to eligible Veterans and Service members with certain service-connected disabilities to help purchase or construct an adapted home, or modify an existing home, to allow them to live more independently. Please see 38 U.S.C. 2101(a)(2)(B) and (C) and 38 U.S.C. 2101(b)(2) for a list of qualifying service-connected disabilities. Currently, most SAH adaptations involve structural modifications such as ramps; wider hallways and doorways; roll-in showers; and other accessible bathroom features, etc. For more detailed information about the SAH Grant Program, please visit <https://www.va.gov/housing-assistance/disability-housing-grants/>.

VA acknowledges that there are many emerging technologies and improvements in building materials that could improve home adaptations or otherwise enhance a Veteran's or Service member's ability to live independently. Therefore, in 38 CFR 36.4412(b)(2), VA has defined "new assistive technology" as an advancement that the Secretary determines could aid or enhance the ability of an eligible individual, as defined in 38 CFR 36.4401, to live in an adapted home. New assistive technology can include advancements in new-to-market technologies, as well as new variations on existing technologies. Examples of the latter might include modifying an existing software application for use with a smart home device; upgrading an existing shower pan design to support wheelchairs; using existing modular construction methods to improve bathroom accessibility; or using existing proximity technology to develop an advanced application tailored to blind users.

Please Note: SAHAT funding does not support the construction or modification of residential dwellings for accessibility. Veterans and Service members interested in receiving assistance to adapt a home are encouraged to review the following fact sheet: <https://www.prosthetics.va.gov/factsheet/PSAS-FactSheet-Housing-Adaptation-Programs.pdf> to identify Home Adaptation programs offered by VA.

Statutory Authority

Public Law 111–275, the Veterans' Benefits Act of 2010, was enacted on October 13, 2010. Section 203 of the Act added 38 U.S.C. 2108 to establish the SAHAT Grant Program. The Act authorized VA to provide grants of up to \$200,000 per FY, through September 30, 2016, to a "person or entity" for the development of specially adapted housing assistive technologies. For the purpose of this notice, VA refers to such persons or entities as grantees or grant recipients, and the terms are interchangeable.

On September 30, 2022, the Continuing Appropriations and Ukraine Supplemental Appropriations Act, 2023 was enacted (Pub. L. 117–180, section 205). Section 205 of Public Law 117–180 extended the authority for VA to provide grants in the manner listed above through September 30, 2024 (see 38 U.S.C. 2108 and 38 CFR 36.4412).

Desired Outcomes and Funding Priorities

Grantees will be expected to leverage grant funds to develop new assistive technologies for SAH. In 38 CFR 36.4412(f)(2), VA set out the scoring criteria and the maximum points allowed for each criterion. As explained in the preambles to both the proposed and final rules, while the scoring framework is set out in the regulation text, each notice will address the scoring priorities for that particular grant cycle (79 FR 53146, 53148, September 8, 2014; 80 FR 55763, 55764, September 17, 2014). For FY 2023, the Secretary has identified the categories of innovation and unmet needs as top priorities. These categories are further described as scoring criteria 1 and 2 in section V(A) of this notice. Although VA encourages innovation across a wide range of specialties, VA is, in this grant cycle, particularly interested in technologies that could help blinded Veterans optimize their independence (for example, mobile applications, safety devices and so forth). VA also has particular interest in applications that either demonstrate innovative approaches in the design and building of adaptive living spaces or would lead to new products and techniques that expedite the modification of existing spaces, so as to reduce the impact that adaptive projects can have on a Veteran's quality of life during the construction phase. VA notes that applications addressing these categories of special interest are not guaranteed selection, but they would, on initial review, be categorized as meeting the priorities for this grant cycle.

Additional information regarding how these priorities will be scored and considered in the final selection is contained in section V(A) of this notice.

Definitions

Definitions of terms used in the SAHAT Grant Program are found at 38 CFR 36.4412(b).

Delegation of Authority

Pursuant to 38 CFR 36.4412(i), certain VA employees appointed to or lawfully fulfilling specific positions within VBA are delegated authority, within the limitations and conditions prescribed by law, to exercise the powers and functions of the Secretary with respect to the SAHAT Grant Program authorized by 38 U.S.C. 2108.

Assistance Listings

The listings include the following: 64.051 Specially Adapted Housing Assistive Technology Grant Program; 64.106 Specially Adapted Housing for Disabled Veterans; and 64.118 Veterans Housing Direct Loans for Certain Disabled Veterans.

Federal Award Information

Funding Availability

Funding will be provided as an assistance agreement in the form of grants. Funding for these projects is not guaranteed and is subject to the availability of funds and the evaluation of technology grant applications based on the criteria in this announcement. Award of funding through this competition is not a guarantee of future funding. The SAHAT Grant Program is administered annually and does not guarantee subsequent awards. Renewal grants to provide new assistive technology will not be considered under this announcement.

Intergovernmental Review

This section is not applicable to the SAHAT Grant Program.

Funding Restrictions

The SAHAT Grant Program does not allow reimbursement of pre-award costs.

Application Review Information

Each eligible proposal (based on the Section III threshold eligibility review) will be evaluated according to the criteria established by the Secretary and provided below in section A.

Scoring Criteria

The Secretary will score technology grant applications based on the scoring criteria listed below. As indicated in section I of this notice, the Secretary is placing the greatest emphasis on criteria 1 and 2. This emphasis does not establish new scoring criteria but is designed to assist technology grant applicants in understanding how scores will be weighted and ultimately considered in the final selection process. A technology grant application must receive a minimum aggregate score

of 70 to receive further consideration for an award. Instructions for completion of the scoring criteria are listed on VA Form 26–0967a. This form is included in the application package materials on www.Grants.gov. The scoring criteria and maximum points are as follows:

1. A description of how the new assistive technology is innovative, to include an explanation of how it involves advancements in new-to-market technologies, new variations on existing technologies or both (up to 50 points);
2. An explanation of how the new assistive technology will meet a specific, unmet need among eligible individuals, to include whether and how the new assistive technology fits within a category of special emphasis for FY 2023, as explained in section I(D) of this notice (up to 50 points);
3. An explanation of how the new assistive technology is specifically designed to promote the ability of eligible individuals to live more independently (up to 30 points);
4. A description of the new assistive technology's concept, size and scope (up to 30 points);
5. An implementation plan with major milestones for bringing the new assistive technology into production and to the market. Such milestones must be meaningful and achievable within a specific timeframe (up to 30 points); and
6. An explanation of what uniquely positions the technology grant applicant in the marketplace. This can include a focus on characteristics such as the economic reliability of the technology grant applicant, the technology grant applicant's status as a minority or Veteran-owned business or other characteristics that the technology grant applicant wants to include to show how it will help protect the interests of, or further the mission of, VA and the program (up to 20 points).

Review and Selection Process

Eligible applications will be evaluated by a review panel comprising of five VA employees. The review panel will score applications using the scoring criteria provided in section V(A) and refer to the selecting official those applications that receive a minimum aggregate score of 70. In determining which applications to approve, the selecting official will take into account the review panel score, the priorities described in this Notice of Funding Opportunity, the governing statute, 38 U.S.C. 2108, the governing regulation, 38 CFR 36.4412 and the VA Financial Policy, Volume X Grants Management, Chapter 4 Grants Application and Award Process, <https://www.va.gov/finance/docs/VA-FinancialPolicyVolumeXChapter04.pdf>.

VA will review and consider applications for funding pursuant to this notice of funding opportunity in accordance with Office of Management and Budget's guidance located at 2 CFR part 200, all applicable Federal laws and relevant Executive guidance, except as noted.

Award Administration Information

Award Notices

Although subject to change, the SAHAT Grant Program Office expects to announce grant recipients on or about April 1, 2023. Prior to executing any funding agreement, VA will contact successful applicants, make known the amount of proposed funding and verify the applicant's desire to receive the funding. Any communication between the SAHAT Grant Program Office and successful applicants prior to the issuance of an award notice is not authorization to begin project activities. Once VA verifies that the grant applicant is still seeking funding, VA will issue a signed and dated award notice. This will begin the performance period. VA expects that the performance period should not last longer than 15 months. The award notice will be sent by U.S. mail or electronic means to the organization listed on the SF–424. All applicants will be notified by letter or email sent by U.S. mail or electronic means to the address listed on the SF–424.

Administrative and National Policy Requirements

This section is not applicable to the SAHAT Grant Program.

Reporting

VA places great emphasis on the responsibility and accountability of grantees. Grantees must agree to cooperate with any Federal evaluation of the program and provide the following:

1. Quarterly Progress Reports: These reports will be submitted electronically and outline how grant funds were used, describe program progress and describe any barriers and measurable outcomes. The format for quarterly reporting will be provided to grantees upon grant award.
2. Quarterly Financial Reports: These reports will be submitted electronically using the SF–425–Federal Financial Report.
3. Grantee Closeout Report: This final report will be submitted electronically and will detail the assistive technology developed. The grantee's Closeout

Report must be submitted to the SAHAT Grant Program Office not later than 120 days after the date the performance period ends.
