The information requested is not of a confidential nature. However, respondents may request materials or information submitted to the Commission be withheld from public inspection under 47 CFR 0.459 of the Commission's rules.

*Needs and Uses:* On April 28, 2017, the Commission released the *Business Data Services Order*, WC Docket No. 16-143 *et al.*, FCC 17-43, reforming the business data services/special access regulations for incumbent and competitive LECs. The Commission's reforms included replacing the application-based pricing flexibility rules with a new framework under which: (a) packet-based services, time division multiplexing (TDM) services with bandwidth greater than 45 mbps, and TDM transport services are not subject to ex ante pricing regulation; (b) a new standard is applied to determine the extent to which the Commission regulates price cap LECs' TDM end user channel terminations with bandwidth less than 45 mbps and certain other low bandwidth business data services. Under this standard, a price cap LEC is not subject to ex ante pricing regulation in the provision of these services in counties deemed competitive under the Commission's competitive market test or for which the price cap LEC previously obtained Phase II pricing flexibility; (c) the price cap LEC is subject to ex ante pricing regulation in other counties where it is the incumbent LEC, but in these counties the price cap LEC has downward pricing flexibility (*i.e.*, the equivalent of Phase I pricing flexibility under the prior rules); and (d) the Commission will update the competitive market test results every three years using data already collected in FCC Form 477.

Among other rules changes, the *Business Data Services Report and Order* repealed section 1.774, which set forth requirements for pricing flexibility applications, and added section 1.776, which limits the circumstances under which price cap LECs must file their business data services contracts as contract-based tariffs. The Commission also amended section 69.701 of its rules to specify that its pricing flexibility

rules no longer apply to business data services.

### Information Collection Being Reviewed by the Federal Communications Commission

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice and request for comments.

**SUMMARY:** As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

**DATES:** Written PRA comments should be submitted on or before May 8, 2023. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

**ADDRESSES:** Direct all PRA comments to Cathy Williams, FCC, via email to [PRA@fcc.gov](mailto:PRA@fcc.gov) and to [Cathy.Williams@fcc.gov](mailto:Cathy.Williams@fcc.gov).

**FOR FURTHER INFORMATION CONTACT:** For additional information about the information collection, contact Cathy Williams at (202) 418–2918.

**SUPPLEMENTARY INFORMATION:**

*Title:* Wireless Telecommunications Bureau Universal Licensing System Recordkeeping and Third Party Disclosure Requirements.

*Form No.:* N/A.

*Type of Review:* Extension of a currently approved collection.

*Respondents:* Business or other for-profit entities, Individuals or households, Not-for-profit institutions, and State, Local or Tribal Government.

*Number of Respondents and Responses:* 84,048 respondents; 84,050 responses.

*Estimated Time per Response:* .166 hours (10 minutes)—4 hours.

*Frequency of Response:* Recordkeeping and third-party disclosure requirements; on occasion reporting requirement.

*Obligation To Respond:* Required to obtain or retain benefits. The statutory authority for this collection is contained in 47 U.S.C. 154(i) and 309(j).

*Total Annual Burden:* 116,306 hours.

*Annual Cost Burden:* No cost.

*Needs and Uses:* The Commission will submit this information collection to the Office of Management and Budget (OMB) as an extension after this 60-day comment period to obtain the full three-year clearance from them.

The purpose of this information collection is to continually streamline and simplify processes for wireless applicants and licensees, who previously used a myriad of forms for various wireless services and types of requests, in order to provide the Commission information that has been collected in separate databases, each for a different group of services. Such processes have resulted in unreliable reporting, duplicate filings for the same licensees/applicants, and higher cost burdens to licensees/applicants. By streamlining the Universal Licensing System (ULS), the Commission eliminates the filing of duplicative applications for wireless carriers; increases the accuracy and reliability of licensing information; and enables all wireless applicants and licensees to file all licensing-related applications and other filings electronically, thus increasing the speed and efficiency of the application process. The ULS also benefits wireless applicants/licensees by reducing the cost of preparing

applications, and speeds up the licensing process in that the Commission can introduce new entrants more quickly into this already competitive industry. Finally, ULS enhances the availability of licensing information to the public, which has access to all publicly available wireless licensing information on-line, including maps depicting a licensee's geographic service area.
