

recontacted for quality assurance purposes.

For sample housing units in the Puerto Rico Community Survey, a different mail strategy is employed. The Census Bureau continues to use the previously used mail strategy with no references to an internet response option. The Census Bureau sends up to five mailings to a Puerto Rico address selected to be in the sample. The first mailing includes a prenotice letter. The second and fourth mailings include the paper survey. The third and fifth mailings serve as a reminder to respond to the survey. Puerto Rico addresses deemed unmailable because the address is incomplete or directs mail only to a post office box are collected by computer-assisted personal interviewing. A small sample of respondents from the nonresponse follow-up data collection interview are recontacted for quality assurance purposes.

The Census Bureau uses a different strategy to collect data from group quarters. The Census Bureau defines group quarters as places where people live or stay, in a group living arrangement that is owned or managed by an entity or organization providing housing and/or services for the residents, such as college/university student housing, residential treatment centers, skilled nursing facilities, group homes, military barracks, correctional facilities, workers' group living quarters and Job Corps centers, and emergency and transitional shelters. The Census Bureau collects data for group quarters primarily through personal interview. The Census Bureau will obtain the facility information by conducting a personal visit interview with a group quarters contact. During this interview, the Census Bureau obtains roster of residents and randomly selects them for person-level interviews. During the person-level phase, a field representative uses a computer-assisted personal interviewing instrument to collect detailed information for each sampled resident. Field representatives also have the option to distribute a bilingual (English/Spanish) questionnaire to residents for self-response if unable to complete a computer-assisted personal interviewing interview. Beginning in 2024, residents in some group quarters will have the option to self-respond to the survey online. A small sample of respondents are recontacted for quality assurance purposes.

*Affected Public:* Individuals or households.

*Frequency:* Monthly.

*Respondent's Obligation:* Mandatory.

*Legal Authority:* Title 13 U.S.C. 141 and 193, and 221.

### Foreign-Trade Zones Board

[B–19–2023]

#### **Foreign-Trade Zone (FTZ) 138, Notification of Proposed Production Activity; Intel Corporation; (Semiconductor Products); New Albany, Ohio**

Intel Corporation submitted a notification of proposed production activity to the FTZ Board (the Board) for its facility in New Albany, Ohio, within Subzone 138I. The notification conforming to the requirements of the Board's regulations (15 CFR 400.22) was received on March 2, 2023.

Pursuant to 15 CFR 400.14(b), FTZ production activity would be limited to the specific foreign-status material(s)/ component(s) and specific finished product(s) described in the submitted notification (summarized below) and subsequently authorized by the Board. The benefits that may stem from conducting production activity under FTZ procedures are explained in the background section of the Board's website—accessible via [www.trade.gov/ftz](http://www.trade.gov/ftz).

The proposed finished products include semiconductor transducers, electronic integrated circuit processors and amplifiers, electronic memory circuits, and electronic integrated circuits (duty rates are duty-free).

The proposed foreign-status materials and components include: methane

(liquid; gas); chlorine; oxygen; hydrogen; helium; xenon; nitrogen; hydrochloric acid; hydrogen chloride; nitric acid; phosphoric acid; phosphoric acid based solution; hydrofluoric acid (also known as hydrogen fluoride); silicate reagent; hydrogen bromide; carbon dioxide; silica; carbon monoxide; dinitrogen monoxide (also known as nitrous oxide); nitric oxide; sulfur dioxide; boron trichloride; dichlorosilane; silane; silicon tetrachloride; chlorine trifluoride; diiodosilane; nitrogen trifluoride; anhydrous ammonia; ammonia; potassium hydroxide; potassium hydroxide based slurry; sulfur hexafluoride gas; tungsten hexafluoride; potassium hydroxide based slurry; sulfur hexafluoride gas; tungsten hexafluoride; titanium tetrachloride; carbonyl sulfide; copper sulphate solution; potassium chloride electrode filling solution; cerium hydroxide based slurry; hydrogen peroxide; disilane; n-octane; ethyne (also known as acetylene); hydrocarbon solution; trifluoromethane; tetrafluoromethane (also known as perfluoromethane); hexafluoro-1,3-butadiene; octafluorocyclobutane; isopropyl alcohol; tert-butyl alcohol; hexachlorodisilane; 2-heptanone; cyclohexanone; cyclopentanone; butyl acetate; propylene glycol monomethyl ether acetate (PGMEA); pentakis(dimethylamido)tantalum powder; tetrakis(methylethylamino)zirconium; N-methylethanolamine solution; tetramethylammonium hydroxide developer solution; bis(diethylamino)silane; hexamethyldisilazane photoresist; N,N-bis(1-methylethyl)silanamine; tetramethylsilane; trimethylaluminum; trimethylsilane; butyrolactone; potassium chloride based solution; methyl 2-hydroxyisobutyrate based photoresist solution; PGMEA based photoresist solution; PGMEA based undercoat material; polyglycerol polymer based slurry; surfactant solution; butoxyethanol based wafer cleaning solution; ethanolamine based wafer cleaning solution; 1-hydroxyethane-1,1-diphosphonic acid based wafer cleaning solution; bolt release lubrication; acetic acid based slurry; ammonium hydroxide based slurry; amorphous silica based slurry; cerium dioxide based slurry; potassium hydroxide based slurry; silica based slurry; tetraethylammonium hydroxide based slurry; silica and phosphoric acid based slurry; various mixtures (photoresist chemicals; diborane and argon; diborane and hydrogen; fluorine

and nitrogen; helium and nitrogen; helium based compressed gas; hydrogen and argon; hydrogen and helium; hydrogen and nitrogen; methane and argon; oxygen and helium; xenon and hydrogen); soldering, brazing, or welding powder; triethanolamine based solution; dimethyl sulfoxide based cleaning solvent; propylene glycol monomethyl ether based solvent; tetramethylammonium hydroxide based cleaning solvent; semi-processed semiconductor wafers; 4-morpholinecarbaldehyde based solution; acetic acid based solution; ammonium fluoride based solution; benzotriazole based cleaning solution; cobalt based solution; ethylene glycol based solution; isobutyl propionate based developer solution; nitric acid based solution; phosphoric acid based solution; tetrahydrothiophene-1,1-dioxide based solution; anti-reflective photoresist chemical coating; melamine resin; ion exchangers; plastic components (cases; packing; bottles); ethylene bags; self-adhesive labels; quartz reactor tubes; copper anode discs; filtering machinery for liquids; permanent metal magnets; central processing units; microprocessors; electronic memory circuits; sputtering targets (cobalt; copper; tantalum; titanium); electrical conductors for a voltage not exceeding 1,000 V (fitted with connectors and used in telecommunication); not used in telecommunication); electrical conductors for a voltage not exceeding 80 V; insulated electrical conductors for a voltage not exceeding 1,000 V; copper electrical conductors for a voltage not exceeding 80 V; fitted electrical conductors for a voltage exceeding 1,000 V; and, electrical conductors for a voltage exceeding 1,000 V (duty rate ranges from duty-free to 6.5%). The request indicates that certain materials/components are subject to duties under section 232 of the Trade Expansion Act of 1962 (section 232) or section 301 of the Trade Act of 1974 (section 301), depending on the country of origin. The applicable section 232 and section 301 decisions require subject merchandise to be admitted to FTZs in privileged foreign status (19 CFR 146.41).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary and sent to: [ftz@trade.gov](mailto:ftz@trade.gov). The closing period for their receipt is April 19, 2023.

A copy of the notification will be available for public inspection in the "Online FTZ Information System" section of the Board's website.

For further information, contact Juanita Chen at [juanita.chen@trade.gov](mailto:juanita.chen@trade.gov).

Dated: March 7, 2023.

## DEPARTMENT OF COMMERCE

### Foreign-Trade Zones Board

[B-18-2023]

#### **Foreign-Trade Zone (FTZ) 3, Notification of Proposed Production Activity; Phillips 66 Company; (Renewable Fuels and By-Products); Rodeo, California**

Phillips 66 Company submitted a notification of proposed production activity to the FTZ Board (the Board) for its facility in Rodeo, California within Subzone 3E. The notification conforming to the requirements of the Board's regulations (15 CFR 400.22) was received on March 3, 2023.

Pursuant to 15 CFR 400.14(b), FTZ production activity would be limited to the specific foreign-status material(s)/ component(s) and specific finished product(s) described in the submitted notification (summarized below) and subsequently authorized by the Board. The benefits that may stem from conducting production activity under FTZ procedures are explained in the background section of the Board's website—accessible via [www.trade.gov/ftz](http://www.trade.gov/ftz). The proposed finished product(s) and material(s)/component(s) would be added to the production authority that the Board previously approved for the operation, as reflected on the Board's website.

The proposed finished products include treated renewable feedstock, sulfur, renewable fuels (naphtha; diesel; jet), sustainable jet fuel, butane, and mixed gas streams (duty rate ranges from duty-free to 8.0%, and 10.5¢/bbl).

The proposed foreign-status materials and components include: animal fats; oils (soybean; canola; rapeseed; distiller's corn; used cooking); mixed fats, oils, and grease (also known as FOG); and, greases (trap; brown; yellow (a mix of animal fats that may include used cooking oil)) (duty rate ranges from 0.43¢/kg to 3¢/kg, 3.4% to 19.1%). The request indicates that certain materials/components are subject to duties under section 301 of the Trade Act of 1974 (section 301), depending on the country of origin. The applicable section 301 decisions require subject merchandise to be admitted to FTZs in privileged foreign status (19 CFR 146.41).

Public comment is invited from interested parties. Submissions shall be

addressed to the Board's Executive Secretary and sent to: [ftz@trade.gov](mailto:ftz@trade.gov). The closing period for their receipt is April 19, 2023.

A copy of the notification will be available for public inspection in the "Online FTZ Information System" section of the Board's website.

For further information, contact Juanita Chen at [juanita.chen@trade.gov](mailto:juanita.chen@trade.gov).

Dated: March 6, 2023.

## DEPARTMENT OF COMMERCE

### Bureau of Industry and Security

#### **Materials and Equipment Technical Advisory Committee; Notice of Open Meeting**

The Materials and Equipment Technical Advisory Committee will meet on March 30, 2023, 10 a.m., Eastern Daylight Time. The meeting will be virtual. The Committee advises the Office of the Assistant Secretary for Export Administration with respect to technical questions that affect the level of export controls applicable to materials and related technology.

#### **Agenda**

##### *Open Session*

1. Opening Remarks and Introduction by BIS Senior Management.
2. Report from working groups.
3. Report by regime representatives.

To join the conference, submit inquiries to Ms. Yvette Springer at [Yvette.Springer@bis.doc.gov](mailto:Yvette.Springer@bis.doc.gov), no later than March 23, 2023.

To the extent time permits, members of the public may present oral statements to the Committee. Written statements may be submitted at any time before or after the meeting. However, to facilitate distribution of public presentation materials to Committee members, the materials should be forwarded prior to the meeting to Ms. Springer via email.

For more information, contact Ms. Springer via email.

**Yvette Springer,**

*Committee Liaison Officer.*
