

of migrant farm worker housing. See Public Law 97–470. MSPA requires Farm Labor Contractors, Agricultural Employers, and Agricultural Associations, who recruit, solicit, hire, employ, furnish, transport, or house agricultural workers, as well as providers of migrant housing, to meet certain minimum requirements in their dealings with migrant and seasonal agricultural workers. Various sections of the MSPA require respondents (*e.g.*, Farm Labor Contractors, Agricultural Employers, and Agricultural Associations) to disclose terms and conditions in writing to their workers. MSPA sections 201(g) and 301(f) require providing such information in English or, as necessary and reasonable, in a language common to the workers and that the U.S. Department of Labor (Department) make forms available to provide such information. The Department makes optional-use form WH–516, Worker Information—Terms and Conditions of Employment available for these purposes.

MSPA sections 201(d) and 301(c)—29 U.S.C. 1821(d), 1831(c) and regulations 29 CFR 500.80(a), require each Farm Labor Contractor, Agricultural Employer, and Agricultural Association that employs a migrant or seasonal worker to make, keep, and preserve records for 3 years for each such worker concerning the (1) basis on which wages are paid; (2) number of piece work units earned, if paid on a piece work basis; (3) number of hours worked; (4) total pay period earnings; (5) specific sums withheld and the purpose of each sum withheld; (6) net pay. Respondents are also required to provide an itemized written statement of this information to each migrant and seasonal agricultural worker each pay period. See 29 U.S.C. 1821(d), 1831(c), and 29 CFR 500.1–.80(d). Additionally, MSPA sections 201(e) and 301(d) require each Farm Labor Contractor to provide copies of all the records noted above for the migrant and seasonal agricultural workers the contractor has furnished to other Farm Labor Contractors, Agricultural Employers, or Agricultural Associations who use the workers. Respondents must also make and keep certain records. Section 201(c) of the MSPA requires all Farm Labor Contractors, Agricultural Employers, and Agricultural Associations providing housing to a migrant agricultural worker to post in a conspicuous place at the site of the housing, or present to the migrant worker, a written statement of any housing occupancy terms and conditions. See 29 U.S.C. 1821(c); 29 CFR 500.75. In addition, MSPA section

201(g) requires them to provide such information in English, or as necessary and reasonable, in a language common to the workers. See 29 U.S.C. 1821(g). The provision also requires Department make the optional forms available to provide the required disclosures. See 29 U.S.C. 1821(g); 29 CFR 500.1(i)(2). The Department makes optional-use form WH–501, Wage Statement available for this purpose.

MSPA section 201(c)—29 U.S.C. 1821(c) and regulations 29 CFR 500.75(f)–(g), require each Farm Labor Contractor, Agricultural Employer, and Agricultural Association that provides housing for any migrant agricultural worker shall post in a conspicuous place at the site of the housing or present in the form of a written statement to the worker the following information on the terms and conditions of occupancy of such housing, if any: (1) The name and address of the farm labor contractor, agricultural employer or agricultural association providing the housing; (2) The name and address of the individual in charge of the housing; (3) The mailing address and phone number where persons living in the housing facility may be reached; (4) Who may live at the housing facility; (5) The charges to be made for housing; (6) The meals to be provided and the charges to be made for them; (7) The charges for utilities; and (8) Any other charges or conditions of occupancy. The provision also requires that the Department make the optional forms available to provide the required disclosures. See 29 U.S.C. 1821(c); 29 CFR 500.75(g). The Department makes optional-use form WH–521, Housing Terms and Conditions available for this purpose.

II. Review Focus: The Department of Labor is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Enhance the quality, utility, and clarity of the information to be collected;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology,

e.g., permitting electronic submissions of responses.

III. Current Actions: The Department of Labor seeks an approval for the revision of this information collection in order to ensure effective administration of the Migrant and Seasonal Agricultural Worker Protection Act.

Type of Review: Revision.

Agency: Wage and Hour Division.

Title: Disclosure to Workers Under the Migrant and Seasonal Agricultural Worker Protection Act.

OMB Control Number: 1235–0002.

Affected Public: Business or other for-profit, Not-for-profit institutions, Farms.

Agency Numbers: Forms WH–501 (English and Spanish versions), WH–516 (English, Spanish and Haitian Creole versions), and WH–521.

Total Respondents: 94,729.

Total Annual Responses: 72,606,389.

Estimated Total Burden Hours: 1,228,769.

Estimated Time per Response: Various.

Frequency: On occasion.

Total Burden Cost (capital/startup/operation/maintenance): \$2,904,255.

Dated: March 6, 2023.

Amy DeBisschop,

Director, Division of Regulations, Legislation, and Interpretation.

BILLING CODE P

NATIONAL SCIENCE FOUNDATION

Sunshine Act Meetings

The National Science Board's (NSB) Committee on Oversight hereby gives notice of the scheduling of a videoconference meeting for the transaction of National Science Board business pursuant to the National Science Foundation Act and the Government in the Sunshine Act.

TIME AND DATE: Wednesday, March 15, 2023, from 10:30–11:30 a.m. EDT.

PLACE: This meeting will be held by videoconference through the National Science Foundation.

STATUS: Open.

MATTERS TO BE CONSIDERED: The agenda of the meeting is: Committee Chair's opening remarks and welcome new members; Approval of prior minutes; Presentations and Discussion of the FY 2021 Merit Review Digest, NSF biennial survey of proposers and Reviewers, and consideration of future formats; the Chief Financial Officer update and presentation; and Committee Chair's closing remarks.

CONTACT PERSON FOR MORE INFORMATION: Point of contact for this meeting is:

(Chris Blair, cblair@nsf.gov), 703/292–7000. Members of the public can observe this meeting through a YouTube livestream. The YouTube link will be available from the NSB meetings web page—<https://www.nsf.gov/nsb/meetings/index.jsp>.

Christopher Blair,

Executive Assistant to the National Science Board Office.

BILLING CODE 7555–01–P

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Notice of Intent To Reinstate Information Collection

AGENCY: National Science Foundation.
ACTION: Notice.

SUMMARY: The National Science Foundation (NSF) is announcing plans to reinstate this collection. In accordance with the requirements of the Paperwork Reduction Act of 1995, we are providing opportunity for public comment on this action. After obtaining and considering public comment, NSF will prepare the submission requesting Office of Management and Budget (OMB) clearance of this collection for no longer than 3 years.

DATES: Written comments on this notice must be received by May 9, 2023 to be assured consideration. Comments received after that date will be considered to the extent practicable. Send comments to address below.

Comments: Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency’s estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological

collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT: Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, Virginia 22314; telephone (703) 292–7556; or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including Federal holidays).

SUPPLEMENTARY INFORMATION:

Title of Collection: Survey of Science and Engineering Research Facilities.

OMB Control Number: 3145–0101.

Expiration Date of Current Approval: Not applicable.

Type of Request: Intent to seek approval to reinstate an information collection for three years.

Abstract: Established within NSF by the America COMPETES Reauthorization Act of 2010 § 505, codified in the NSF Act of 1950, as amended, NCSES—one of 13 principal federal statistical agencies—serves as a central Federal clearinghouse for the collection, interpretation, analysis, and dissemination of objective data on science, engineering, technology, and research and development for use by practitioners, researchers, policymakers, and the public.

The Survey of Science and Engineering Research Facilities is a Congressionally mandated (Pub. L. 99–159), biennial census that has been conducted since 1986. The survey collects data on the amount, condition, costs, and funding of the physical facilities used to conduct science and engineering research at U.S. academic institutions. Congress expected that this survey would provide the data necessary to describe the status and needs of science and engineering research facilities and would help formulate appropriate solutions to documented needs. During the FY 2019 and FY 2021 survey cycles, data were collected from a population of approximately 585 research-performing universities. Data are collected through a Web-based interface, although institutions have the option of printing and completing a PDF that can be sent by mail.

Use of the Information: The proposed project will continue the biennial survey for two cycles: FY 2023 and FY 2025. The Survey of Science and Engineering Research Facilities will provide continuity of statistics on the status of scientific and engineering research facilities and capabilities. Statistics on the square footage of research and development (R&D) space available, the condition of R&D space, and the costs for new construction, repairs, and renovation of R&D space at higher education institutions by science and engineering R&D field are produced from the survey. The sources of funding for new construction and repair and renovation projects are also published. The information can be used by Federal policy makers, planners, and budget analysts in making policy decisions, as well as by institutional academic officials, the scientific/engineering establishment, and state agencies and legislatures that fund universities.

Data are published in NCSES’s biennial publication series *Survey of Science and Engineering Research Facilities*, available on the web at <http://www.nsf.gov/statistics/srvyfacilities/>.

Expected Respondents: The Facilities Survey is a census of institutions that performed at least \$1 million in separately accounted for science and engineering research and development in the previous fiscal year.

In the most recent FY 2021 Facilities Survey, a census of 584 academic institutions was conducted. The sampling frame used for the survey was the FY 2020 Higher Education Research and Development Survey conducted by the National Center for Science and Engineering Statistics.

Estimate of Burden: The Facilities Survey will be sent to approximately 600 academic institutions for both the FY 2023 and FY 2025 data collection cycles. Response to this voluntary survey is typically 97 percent each cycle. The average burden estimate is 19 hours per academic institution based on completion time estimates provided by all survey participants in the FY 2013 survey. The expected estimated burden per survey cycle is 11,400 hours (600 institutions × 19 hours to complete). The total estimated burden is 22,800 for both years combined.

BURDEN ESTIMATE FOR THE FY 2023 AND FY 2025 SURVEYS

Year	Respondents	Average response time (hours)	Total burden (hours)
2023	600	19	11,400
