

marketing of grain. Grain producers in affected counties in Illinois, Indiana, Iowa, Kentucky, Minnesota, Missouri, North Dakota, South Dakota, Tennessee and any other affected counties as determined and announced by the Deputy Administrator for Farm Programs (DAFP) are eligible to apply.

The producers are required to complete the form FSA-413 and FSA-413-1, Continuation Sheet for EGSFP, if applicable, EGSFP Application to determine eligibility and the need for the on-farm grain storage capacity, estimated costs to build the on-farm grain storage and purchase drying and handling equipment. FSA may request additional supporting documents for verification of information on a completed EGSFP Application.

For the following estimated total annual burden on respondents, the formula used to calculate the total burden hour is the estimated average time per response multiplied by the estimated total annual responses.

Estimate of Respondent Burden: Public reporting burden for this information collection is estimated to average 0.2368 hours per response to include the time for reviewing instructions, searching for information, gathering, and maintaining the data, and completing and reviewing the collection of information.

Type of Respondents: Producers or farmers.

Estimated Annual Number of Respondents: 750.

Estimated Number of Responses per Respondent: 1.92.

Estimated Total Annual Responses: 1440.

Estimated Average Time per Response: 0.2368 hours.

Estimated Total Annual Burden on Respondents: 341 hours.

We are requesting comments on all aspects of this information collection to help us to:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the FSA, including whether the information will have practical utility;

(2) Evaluate the accuracy of FSA's estimate of burden including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those that are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this document, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the submission for Office of Management and Budget approval.

Environmental Review

The environmental impacts have been considered in a manner consistent with the provisions of the National Environmental Policy Act (NEPA, 42 U.S.C. 4321-4347), the regulations of the Council on Environmental Quality (40 CFR parts 1500-1508), and the FSA regulations for compliance with NEPA (7 CFR part 799).

The purpose of EGSFP is to establish assistance to help agricultural producers in affected counties in Illinois, Indiana, Iowa, Kentucky, Minnesota, Missouri, North Dakota, South Dakota, and Tennessee purchase and build on-farm grain storage and purchase drying and handling equipment necessary due to marketing and storage disruptions caused by devastating natural disaster events from December 1, 2021, through August 1, 2022. The limited discretionary aspects of EGSFP do not have the potential to impact the human environment as they are administrative. Accordingly, these discretionary aspects are covered by the categorical exclusions in 7 CFR 799.31(b)(6)(iii) that applies to price support programs, provided no extraordinary circumstances are found to exist. As such, the implementation of EGSFP and the participation in EGSFP do not constitute major Federal actions that would significantly affect the quality of the human environment, individually or cumulatively. Therefore, FSA will not prepare an environmental assessment or environmental impact statement for this action and this document serves as documentation of the programmatic environmental compliance decision for this federal action.

Federal Assistance Programs

The title and number of the Federal assistance programs, as found in the Assistance Listing,⁷ to which this document applies is 10.973, Emergency Grain Storage Facility Assistance Program.

USDA Non-Discrimination Policy

In accordance with Federal civil rights law and USDA civil rights regulations and policies, USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are

prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family or parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Individuals who require alternative means of communication for program information (for example, braille, large print, audiotape, American Sign Language, etc.) should contact the responsible Agency or USDA TARGET Center at (202) 720-2600 (voice and text telephone (TTY) or dial 711 for Telecommunications Relay Service (both voice and text telephone users can initiate this call from any telephone). Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at <https://www.usda.gov/oascr/how-to-file-a-program-discrimination-complaint> and at any USDA office or write a letter addressed to USDA and provide in the letter all the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by mail to: U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue SW, Washington, DC 20250-9410 or email: OAC@usda.gov.

USDA is an equal opportunity provider, employer, and lender.

William Marlow,

Acting Administrator, Farm Service Agency.

DEPARTMENT OF AGRICULTURE

Forest Service

Lolo National Forest; Revision of the Land Management Plan for the Lolo National Forest

AGENCY: Forest Service, Agriculture (USDA).

ACTION: Notice of intent to prepare an Assessment and Initiate Land Management Plan Revision for the Lolo National Forest.

⁷ See <https://sam.gov/content/assistance-listings>.

SUMMARY: The Forest Service, U.S. Department of Agriculture, is initiating the Land Management Plan (Plan) revision process, pursuant to the 2012 Planning Rule and as directed by the National Forest Management Act, for the Lolo National Forest located in western Montana. This process will result in a revised Land Management Plan which will guide all resource management activities on the Lolo National Forest for approximately 15 years. This notice announces the initiation of the assessment phase, the beginning of plan development, and the preliminary stages of the plan revision process. The assessment will identify and consider relevant and readily accessible material about ecological, social, and economic conditions and trends in the planning area, including best available scientific information. Trends and conditions identified in the assessment will then help describe a need to change the existing plan and inform the revision of the Plan.

DATES: In the winter and spring of 2023, the public has been invited to engage and participate in the assessment phase of the revision process. Engagement opportunities are posted on the Lolo National Forest Plan Revision website, located at <https://www.fs.usda.gov/goto/lolo/planrevision>. The Lolo National Forest will conduct consultation with Tribes as part of the assessment phase of revision. Information will also be shared through electronic mailing lists, social media, and media outlets. If members of the public are interested in learning more, please visit the website listed above and select the link to subscribe to updates on the Lolo Plan Revision. The public can also sign up by sending an email to SM.FS.LNFRRevision@usda.gov. The Forest Service will produce a draft assessment for public review and comment, expected around May 2023. The Forest Service will review and incorporate public comments and additional information from tribal consultation on the assessment and produce a final assessment to inform plan revision for the Lolo National Forest. The Forest Service may then initiate procedures pursuant to the National Environmental Policy Act (NEPA) to prepare a revised Land Management Plan.

ADDRESSES: For questions about Land Management Plan revision or comments on initiating the assessment phase of plan revision, please address mail to: Lolo National Forest Supervisor's Office, Attn: Amanda Milburn—Lolo Plan Revision, 24 Fort Missoula Rd., Missoula, MT 59804, or via email to

SM.FS.LNFRRevision@usda.gov. All correspondence, including names and addresses, will be part of the public record. More information on the planning process can also be found on the Lolo Plan Revision website at <https://www.fs.usda.gov/goto/lolo/planrevision>.

FOR FURTHER INFORMATION CONTACT: Amanda Milburn, Plan Revision Team Leader, 406-438-6440.

Individuals who use telecommunication devices for the deaf and hard of hearing (TDD) may call the Federal Relay Service (FRS) at 1-800-877-8339, 24 hours a day, every day of the year, including holidays.

SUPPLEMENTARY INFORMATION: The National Forest Management Act (NFMA) of 1976 requires that the Forest Service develop a Land and Resource Management Plan, often called a Forest Plan, for every national forest. Forest Plans provide the strategic direction for management of forest resources and are amendable as conditions change over time. The Lolo Forest Plan was adopted in 1986. This notice announces the start of the first stage of the plan revision process, during which updated information from the public, Tribes, other government agencies, and non-governmental parties, will be compiled into an assessment. Information relevant to these reports typically includes the status and trends of ecological, social, and economic conditions within the planning area and across the broader landscape. Federal Regulation 36 CFR 219.6 requires the assessment of (1) Terrestrial ecosystems, aquatic ecosystems, and watersheds; (2) Air, soil, and water resources and quality; (3) System drivers, including dominant ecological processes, disturbance regimes, and stressors, such as natural succession, wildland fire, invasive species, and climate change, and the ability of terrestrial and aquatic ecosystems in the plan area to adapt to change; (4) Baseline assessment of carbon stocks; (5) Threatened, endangered, proposed, and candidate species, and potential species of conservation concern present in the plan area; (6) Social, cultural, and economic conditions; (7) Benefits people obtain from the National Forest System planning area (ecosystem services); (8) Multiple uses and their contributions to local, regional, and national economies; (9) Recreation settings, opportunities and access, and scenic character; (10) Renewable and nonrenewable energy and mineral resources; (11) Infrastructure, such as recreational facilities and transportation and utility corridors; (12) Areas of tribal

importance; (13) Cultural and historic resources and uses; (14) Land status and ownership and access patterns; and (15) Existing designated areas located in the plan area including wilderness and wild and scenic rivers and potential need and opportunity for additional designated areas.

During this assessment phase, the Forest Service invites other government agencies, Tribes, non-governmental parties, and the public to share information about social, economic, and environmental conditions of the Lolo National Forest and the broader landscape. Existing information about conditions on the Lolo National Forest, supplemented with information gathered through public engagement and tribal consultation, will be integrated into final resource assessments. The Forest Service will host public outreach forums to share progress and gather additional information.

Responsible Official: The responsible official for the revision of the land and resource management plan for the Lolo National Forest is Carolyn Upton, Forest Supervisor, Lolo National Forest Supervisor's Office, 24 Fort Missoula Road, Missoula, MT 59804, phone 406-329-3750.

Dated: March 10, 2023.

Troy Heithecker,

Associate Deputy Chief, National Forest System.
