2. *Administrative and National Policy Requirements:* We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Open Licensing Requirements:* Unless an exception applies, if you are awarded a grant under this competition, you will be required to openly license to the public grant deliverables created in whole, or in part, with Department grant funds. When the deliverable consists of modifications to pre-existing works, the license extends only to those modifications that can be separately identified and only to the extent that open licensing is permitted under the terms of any licenses or other legal restrictions on the use of pre-existing works. Additionally, a grantee or subgrantee that is awarded competitive grant funds must have a plan to disseminate these public grant deliverables. This dissemination plan can be developed and submitted after your application has been reviewed and selected for funding. For additional information on the open licensing requirements please refer to 2 CFR 3474.20.

4. *Reporting:* (a) If you apply for a grant under this competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multiyear award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to www.ed.gov/

[fund/grant/apply/appforms/appforms.html](#).

5. *Performance Measures:* For the purposes of Department reporting under 34 CFR 75.110, we have established the following set of performance measures for the Open Textbooks Pilot program grants:

c. The failure rate or withdrawal rate in courses that use open textbooks and/or ancillary materials compared with equivalent courses that used commercial textbooks;

d. The average grade of students who completed a course that used open textbooks and/or ancillary materials developed through the grant compared with the equivalent average grade of students who used commercial textbooks;

e. The number of faculty/instructors that use open textbooks and/or ancillary materials developed through the grant;

f. The number of institutions within the consortium, and the number of institutions outside of the consortium, that adopted the open textbooks and/or ancillary materials developed through the grant;

h. The number of faculty/instructors or institutions that use tools for revising and remixing open educational resources content to facilitate adoption of open textbooks and/or ancillary materials developed through the grant;

i. The average cost savings per student; and

j. The total cost savings for students who used open textbooks and/or ancillary materials developed through the grant compared to students in the same course of study who used traditional textbooks.

6. *Continuation Awards:* In making a continuation award under 34 CFR 75.253, the Secretary considers, among other things: whether a grantee has made substantial progress in achieving the goals and objectives of the project; whether the grantee has expended funds in a manner that is consistent with its approved application and budget; and, if the Secretary has established performance measurement requirements, whether the grantee has

made substantial progress in achieving the performance targets in the grantee's approved application.

In making a continuation award, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

[GDO Docket No. EA-339-C]

Application for Renewal of Authorization To Export Electric Energy; Shell Energy North America (US), L.P.

AGENCY: Grid Deployment Office, Department of Energy.

ACTION: Notice of application.

SUMMARY: Shell Energy North America (US), L.P. (the Applicant or Shell Energy) has applied for authorization to transmit electric energy from the United States to Canada pursuant to the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before April 17, 2023.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed by electronic mail to Electricity.Exports@hq.doe.gov.

FOR FURTHER INFORMATION CONTACT:

Steven Blazek, (240) 474-2780, electricity.exports@hq.doe.gov.

SUPPLEMENTARY INFORMATION: The United States Department of Energy (DOE) regulates electricity exports from the United States to foreign countries in accordance with section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)) and regulations thereunder (10 CFR 205.300 *et seq.*). Sections 301(b) and 402(f) of the DOE Organization Act (42 U.S.C. 7151(b) and 7172(f)) transferred this regulatory authority, previously exercised by the now-defunct Federal Power Commission, to DOE.

Section 202(e) of the FPA provides that an entity which seeks to export electricity must obtain an order from DOE authorizing that export. (16 U.S.C. 824a(e)). On June 13, 2022, the authority to issue such orders was delegated to the DOE's Grid Deployment Office (GDO) under Delegation Order No. S1-DEL-S3-2022-2 and Redelegation Order No. S3-DEL-GD1-2022.

On May 5, 2008, DOE issued Order No. EA-339 authorizing Shell Energy to transmit electric energy from the United States to Canada as a power marketer. DOE subsequently renewed Shell Energy's authorization to export electric energy from the United States to Canada as a power marketer in Order No. EA-339-A (May 9, 2013), and again in Order No. EA-339-B (May 30, 2018). On December 2, 2022, Shell Energy filed an application with DOE (Application or App) for renewal of their export authority for an additional five-year term. App at 1.

In its Application, Shell Energy states that it "does not own or control any transmission or distribution facilities" and "does not have a franchised service area." App at 2. Shell Energy seeks to renew its authority to "export electric energy acquired from U.S. generating sources to Canada over international electric transmission facilities." App at 3. Shell Energy represents that it "will purchase the power to be exported from electric utilities, qualifying small power production facilities, cogeneration facilities and federal power marketing agencies" and that "electric energy exported pursuant to the authorization requested in this Renewal Application, whether on a firm or interruptible basis, will be purchased in bilateral, voluntary transactions from the surplus and available electric energy of the generator/seller." App at 4. Therefore, "Shell Energy's exports to Canada will not impair the sufficiency of the electric power supply within the U.S." *Id.*

The existing international transmission facilities to be utilized by
