SUPPLEMENTARY INFORMATION:

Background: GNEB is a federal advisory committee chartered under the Federal Advisory Committee Act, Public Law 92-463. GNEB was created in 1992 by the Enterprise for the Americas Initiative Act, Public Law 102-532, 7 U.S.C. 5404. Implementing authority was delegated to the Administrator of EPA under Executive Order 12916 and was continued under the authority of Executive Order 14048, dated September 30, 2021. The GNEB is charged by statute with submitting an annual report to the President on the need for implementation of environmental and infrastructure projects within the states contiguous to the U.S.-Mexico border. The statute calls for the GNEB to have representatives from U.S. Government agencies; the governments of the states of Arizona, California, New Mexico, and Texas; and tribal and private organizations with experience in environmental and infrastructure issues along the U.S.-Mexico border. Members are appointed by the EPA Administrator for a two-year term. The GNEB meets approximately three times annually and the average workload for committee members is approximately 10 to 15 hours per month. Members serve on the committee in a voluntary capacity. Although we are unable to offer compensation or an honorarium, members may receive travel and per diem allowances, according to applicable Federal travel regulations and the agency's budget.

The EPA is seeking nominations from a variety of sectors along the U.S.-Mexico border including representatives from business and industry, academia, non-governmental organizations, local, county, and Tribal governments.

According to the mandates of FACA, committees are required to support diversity across a broad range of constituencies, sectors, and groups. In accordance with Executive Order 14035 (June 25, 2021) and consistent with law, EPA values and welcomes opportunities to increase diversity, equity, inclusion, and accessibility on its federal advisory committees. EPA's federal advisory

committees strive to have a workforce that reflects the diversity of the American people.

To learn more about the GNEB, please visit <https://www.epa.gov/faca/gneb>.

The following criteria will be used to evaluate nominees:

- Representative of a sector or group that helps to shape border-region environmental policy or represents a group that is affected by border region environmental policy
- Has extensive professional knowledge and experience with the issues that the GNEB examines (*i.e.*, environmental and infrastructure issues), including the bi-national dimension of these issues
- Demonstrates senior level experience that will bring a new and relevant approach to the board's deliberations
- Ability to work in a consensus building process with a wide range of representatives from diverse constituencies
- Ability to contribute approximately 10 to 15 hours per month to the GNEB's activities, including the attendance at meetings and participating in the development of advice letters/reports
- Demonstrate the potential for active and constructive involvement in the GNEB's work

How to Submit Nominations: Any interested person or organization may nominate qualified individuals to be considered for an appointment to serve on the GNEB. Individuals may self-nominate.

• Nominations must include: (1) a statement of interest, (2) resume or curriculum vitae (CV) and (3) a short biography describing professional and educational qualifications, including a list of relevant activities and any current or previous service on advisory committees as well as the nominee's current business address, email address, and daytime telephone number. The statement of interest should describe how the nominee's background, knowledge, and experience would add value to the committee's work, and how the individual's qualifications would contribute to the overall diversity of the GNEB. To help the Agency in evaluating the effectiveness of its outreach efforts, please include in the statement of interest how you learned of this opportunity.

• Nominees from the academic sector should also provide a letter of support authorizing the applicant to represent the views of a particular school/college (*e.g.*, School of Environmental Science or College of Engineering) within the institution's system

• Please be aware that EPA's policy is that, unless otherwise prescribed by statute, members generally are appointed for a two-year term. For appointment consideration, interested nominees should submit the application materials electronically via email to Eugene Green at green.eugene@epa.gov with the subject line GNEB, COMMITTEE APPLICATION PACKAGE 2023 for (Name of Nominee) by May 31, 2023.

Dated: March 14, 2023.

Certain New Chemicals; Receipt and Status Information for February 2023

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA is required under the Toxic Substances Control Act (TSCA), as amended by the Frank R. Lautenberg Chemical Safety for the 21st Century Act, to make information publicly available and to publish information in the **Federal Register** pertaining to submissions under TSCA Section 5, including notice of receipt of a Premanufacture notice (PMN), Significant New Use Notice (SNUN) or Microbial Commercial Activity Notice (MCAN), including an amended notice or test information; an exemption application (Biotech exemption); an application for a test marketing exemption (TME), both pending and/or concluded; a notice of commencement (NOC) of manufacture (including import) for new chemical substances; and a periodic status report on new chemical substances that are currently under EPA review or have recently concluded review. This document covers the period from 2/1/2023 to 2/28/2023.

DATES: Comments identified by the specific case number provided in this document must be received on or before April 19, 2023.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPPT-2022-0132, through the *Federal eRulemaking Portal* at <https://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically

any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Additional instructions on commenting and visiting the docket, along with more information about dockets generally, is available at <https://www.epa.gov/dockets>.

SUPPLEMENTARY INFORMATION:

I. Executive Summary

A. What action is the Agency taking?

This document provides the receipt and status reports for the period from 2/01/2023 to 2/28/2023. The Agency is providing notice of receipt of PMNs, SNUNs, and MCANs (including amended notices and test information); an exemption application under 40 CFR part 725 (Biotech exemption); TMEs, both pending and/or concluded; NOCs to manufacture a new chemical substance; and a periodic status report on new chemical substances that are currently under EPA review or have recently concluded review.

EPA is also providing information on its website about cases reviewed under the amended TSCA, including the section 5 PMN/SNUN/MCAN and exemption notices received, the date of receipt, the final EPA determination on the notice, and the effective date of EPA's determination for PMN/SNUN/MCAN notices on its website at: <https://www.epa.gov/reviewing-new-chemicals-under-toxic-substances-control-act-tsca/status-pre-manufacture-notices>. This information is updated on a weekly basis.

B. What is the Agency's authority for taking this action?

Under the Toxic Substances Control Act (TSCA), 15 U.S.C. 2601 *et seq.*, a chemical substance may be either an "existing" chemical substance or a "new" chemical substance. Any chemical substance that is not on EPA's TSCA Inventory of Chemical Substances (TSCA Inventory) is classified as a "new chemical substance," while a chemical

substance that is listed on the TSCA Inventory is classified as an "existing chemical substance." (See TSCA section 3(11).) For more information about the TSCA Inventory please go to: <https://www.epa.gov/inventory>.

Any person who intends to manufacture (including import) a new chemical substance for a non-exempt commercial purpose, or to manufacture or process a chemical substance in a non-exempt manner for a use that EPA has determined is a significant new use, is required by TSCA section 5 to provide EPA with a PMN, MCAN, or SNUN, as appropriate, before initiating the activity. EPA will review the notice, make a risk determination on the chemical substance or significant new use, and take appropriate action as described in TSCA section 5(a)(3).

TSCA section 5(h)(1) authorizes EPA to allow persons, upon application and under appropriate restrictions, to manufacture or process a new chemical substance, or a chemical substance subject to a significant new use rule (SNUR) issued under TSCA section 5(a)(2), for "test marketing" purposes, upon a showing that the manufacture, processing, distribution in commerce, use, and disposal of the chemical will not present an unreasonable risk of injury to health or the environment. This is referred to as a test marketing exemption, or TME. For more information about the requirements applicable to a new chemical go to: <https://www.epa.gov/chemicals-under-tsca>.

Under TSCA sections 5 and 8 and EPA regulations, EPA is required to publish in the **Federal Register** certain information, including notice of receipt of a PMN/SNUN/MCAN (including amended notices and test information); an exemption application under 40 CFR part 725 (biotech exemption); an application for a TME, both pending and concluded; NOCs to manufacture a new chemical substance; and a periodic status report on the new chemical substances that are currently under EPA review or have recently concluded review.

C. Does this action apply to me?

This action provides information that is directed to the public in general.

D. Does this action have any incremental economic impacts or paperwork burdens?

No.

E. What should I consider as I prepare my comments for EPA?

1. *Submitting confidential business information (CBI).* Do not submit this

information to EPA through [regulations.gov](https://www.epa.gov/regulations.gov) or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at <https://www.epa.gov/dockets/commenting-epa-dockets>.

II. Status Reports

In the past, EPA has published individual notices reflecting the status of TSCA section 5 filings received, pending, or concluded. In 1995, the Agency modified its approach and streamlined the information published in the **Federal Register** after providing notice of such changes to the public and an opportunity to comment (see the **Federal Register** of May 12, 1995 (60 FR 25798) (FRL-4942-7)). Since the passage of the Lautenberg amendments to TSCA in 2016, public interest in information on the status of section 5 cases under EPA review and, in particular, the final determination of such cases, has increased. In an effort to be responsive to the regulated community, the users of this information, and the general public, to comply with the requirements of TSCA, to conserve EPA resources and to streamline the process and make it more timely, EPA is providing information on its website about cases reviewed under the amended TSCA, including the section 5 PMN/SNUN/MCAN and exemption notices received, the date of receipt, the final EPA determination on the notice, and the effective date of EPA's determination for PMN/SNUN/MCAN notices on its website at: <https://www.epa.gov/reviewing-new-chemicals-under-toxic-substances-control-act-tsca/status-pre-manufacture-notices>. This information is updated on a weekly basis.

III. Receipt Reports

For the PMN/SNUN/MCANs that have passed an initial screening by EPA during this period, Table I provides the following information (to the extent that

such information is not subject to a CBI claim) on the notices screened by EPA during this period: The EPA case number assigned to the notice that indicates whether the submission is an initial submission, or an amendment, a notation of which version was received, the date the notice was received by EPA, the submitting manufacturer (*i.e.*, domestic producer or importer), the potential uses identified by the manufacturer in the notice, and the chemical substance identity.

As used in each of the tables in this unit, (S) indicates that the information in the table is the specific information provided by the submitter, and (G) indicates that this information in the table is generic information because the specific information provided by the submitter was claimed as CBI. Submissions which are initial submissions will not have a letter following the case number. Submissions which are amendments to previous submissions will have a case number

followed by the letter "A" (*e.g.* P-18-1234A). The version column designates submissions in sequence as "1", "2", "3", etc. Note that in some cases, an initial submission is not numbered as version 1; this is because earlier version(s) were rejected as incomplete or invalid submissions. Note also that future versions of the following tables may adjust slightly as the Agency works to automate population of the data in the tables.

Certain New Chemicals; Receipt and Status Information for January 2023; Extension of Comment Period

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice, extension of comment period.

SUMMARY: In the **Federal Register** of February 17, 2023, announced the receipt and status information for

certain new chemical actions that are currently under EPA review or have recently concluded review as required by the Toxic Substances Control Act (TSCA). That document also provided an opportunity for public comment and this document extends the comment period for 60 days from March 20, 2023, to May 19, 2023.

DATES: The comment period for the notice that published on February 17, 2023, at 88 FR 10320, is extended. Comments must be received on or before May 19, 2023.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPPT-2023-0061,
