Telecommunications Bureau Seeks Comment on C-Band Phase II Certification of Accelerated Relocation Procedures and Implementation of the Commission’s Incremental Reduction Plan for Phase II Accelerated Relocation Payments, released on March 13, 2023. The full text of this document is available for public inspection online at <https://www.fcc.gov/document/wtb-seeks-comment-c-band-phase-ii-certification-procedures>.

1. With this Public Notice, the Bureau proposes adopting filing procedures modeled after those previously adopted for Phase I to allow eligible space station operators to submit Certifications, and stakeholders to file related challenges, with respect to the Phase II migration of incumbent services in this band. The Bureau also seeks comment on potential adjustments to the Phase I procedures that we believe will create more transparency and efficiency in the Phase II Certification review process such as requiring a specific level of detail in incumbent earth station operator’s Certifications and/or requiring information be provided in a standardized format. The Bureau also seeks comment on a potential threshold trigger before Phase II Certifications may be submitted for validation. With relation to the Phase II incremental reduction plan, the Bureau proposes adopting an approach that parallels the Phase I process for calculating the incremental reduction of an eligible space station operator’s ARP should it fail to meet the Phase II Accelerated Relocation Deadline.

Federal Communications Commission.

Amy Brett,

Acting Chief of Staff, Wireless Telecommunications Bureau.
