

that Ericsson satisfied the economic prong of the domestic industry requirement for the '805, '355, and '872 patents based on showings under 337(a)(3)(A) and (B). For the '817 patent, the ID found that Ericsson satisfied the economic prong of the domestic industry requirement based on its showing under section 337(a)(3)(A) only. The ID found that a genuine issue of material fact precluded granting summary determination as to the '817 patent based on Ericsson's showing under section 337(a)(3)(B). No petitions for review of Order No. 22 were filed. Thereafter, the Commission extended the time to determine whether to review Order No. 22 to March 16, 2023.

On February 24, 2023, the ALJ issued Order No. 26, which granted the parties' joint motion to terminate this investigation in its entirety on the basis of settlement between the parties. The ID found that the motion complied with the applicable Commission rules. *See* 19 CFR 210.21(b)(1). The ID also found that termination of the investigation based on settlement is not contrary to the public interest. No petitions for review of Order No. 26 were filed.

The Commission has determined not to review Order No. 26 and to review and take no position on Order No. 22. This investigation is terminated in its entirety.

The Commission vote for this determination took place on March 15, 2023.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in Part 210 of the Commission's Rules of Practice and Procedure (19 CFR part 210).

By order of the Commission.

Issued: March 15, 2023.

Lisa Barton,

Secretary to the Commission.

The SSCHIS also contains information regarding the timeliness and completeness of data in state record systems and procedures employed to improve data quality.
