POLICY JUSTIFICATION

Japan—RAM Block 2 Tactical Missiles

The Government of Japan has requested to buy up to forty-four (44) Rolling Airframe Missiles (RAM) Block 2 Tactical Missiles, RIM-116C. Also included are RAM Block 2 Guidance Control Groups; RAM Guided Missile Round Pack Tri-Pack shipping and storage containers; operator manuals and technical documentation; U.S. Government and contractor engineering, technical and logistics support services; and other related elements of logistics and program support. The total estimated program cost is \$61.5 million.

This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the security of a major ally that is a force for political stability and economic progress in the Asia-Pacific region. It is vital to U.S. national interest to assist Japan in developing and maintaining a strong and effective self-defense capability.

The proposed will provide significantly enhanced area defense capabilities over critical East Asian and Western Pacific air and sea-lines of communication. Japan will have no difficulty absorbing these services and support into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Raytheon Missiles and Defense, Tucson, AZ. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Japan.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 21-51

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) Sensitivity of Technology:

1. The RIM-116C Rolling Airframe Missile (RAM) is an autonomous (*i.e.*, “fire and forget”) lightweight, supersonic, surface-to-air tactical missile for ship self-defense against current and evolving anti-ship cruise missile threats. Advanced technology in the RIM-116C includes dual-mode RF/IR (radio frequency/infrared) guidance with IR all-the-way capability for non-emitting threats.

2. The highest level of classification of defense articles, components, and services included in this potential sale is CONFIDENTIAL.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Japan can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to Japan.

POLICY JUSTIFICATION

Japan—AEGIS Class Destroyer Support

The Government of Japan has requested to buy Follow-On Technical Support (FOTS) of AEGIS Class Destroyers, to include sustainment support and services; AEGIS computer software updates, system integration and testing, in-country and on-site engineering support; familiarization, sustainment, and all necessary emergent support engineering and technical support services; operational support; system overhauls; system upgrades; on-the-job practical operations and maintenance; combat systems integration; development, testing, installation of program patches and adaptation data and annual service agreements; technical inquiries by the

purchaser; operation; integration; maintenance; field service engineering; problem investigation; technical assistance; solutions to the technical problems arising from post production, testing capabilities and support, U.S. Government and contractor technical assistance, and other related elements of logistics and program support. The total estimated program cost is \$134 million.

This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the security of a major ally that is a force for political stability and economic progress in the Asia-Pacific region. It is vital to U.S. national interest to assist Japan in developing and maintaining a strong and effective self-defense capability.

The proposed sale is critical to ensure Japan Maritime Self Defense Force's (JMSDF) Aegis Destroyer fleet and the Japanese Computer Program Test Sites (JCPTS) remain ready to provide capabilities in the defense of Japan. Specifically, the requested CPM services will provide JMSDF with software patches and adaptation data support that are vital to the effective and safe operations of the Aegis Combat Systems (ACS) suite. The in-country engineering and emergent support will assist JMSDF to address any malfunctions or faults that may arise with the ACS suite. Japan will have no difficulty absorbing these services and support into its armed forces.

The proposed sale of this equipment will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin Corporation, Moorestown, NJ. There are no known

offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the temporary assignment of five (5) U.S. Government and two (2) contractor representatives to Japan.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
