Needs and Uses: A comprehensive, independent analysis on the military-specific risk factors for domestic abuse (DA) and the best approaches across the coordinated community response system to mitigate those factors has never been conducted and is necessary to inform sustainable solutions to decrease incidents and prevent violence before it occurs. This project is required by the FY21 NDAA, Section 549C, and will support (a) the programmatic needs of the sponsoring office—the Family Advocacy Program within the Military Community Advocacy Directorate in Military Community and Family Policy, (b) Congressional requirements per Section 549C of the FY21 National Defense Authorization Act, (c) the current administration's priority to address gender-based violence, and (d) implementation of some recommendations contained in the U.S. Government Accountability Office Report 21–289 (May 2021). The overall project is wide ranging, from an epidemiological analysis to predict stages of military service where risk is highest for domestic violence, to an analysis of age-appropriate and positively focused prevention training for school-aged children, to assessing whether prevention would be enhanced by raising the disposition authority for domestic violence offenses.
