

render it unfit for beverage purposes) may be withdrawn from distilled spirits plants free of tax for nonbeverage industrial purposes in the manufacture of certain personal and household products. Since it is possible to recover potable alcohol from denatured spirits and articles made with denatured spirits, the IRC at 26 U.S.C. 5271–5275 sets forth provisions relating to denatured spirits and articles made with denatured spirits. Under those IRC authorities, the TTB regulations in 27 CFR part 20 require specially denatured spirits (SDS) dealers and manufacturers of nonbeverage products made with denatured alcohol to apply for and obtain a permit. In addition, the part 20 regulations that concern this information collection require such permit holders to submit letterhead applications and notices to TTB regarding certain changes to permit information, use of alternate methods and emergency variations from requirements, adoption or use of certain formulas, discontinuance of business, losses in transit, and requests to waive certain sample shipment and invoice requirements. The information collected implements the IRC's statutory provisions regarding denatured spirits.

Title: Recordkeeping for Tobacco Products Removed in Bond from a Manufacturer's Premises for Experimental Purposes—27 CFR 40.232(e).

Abstract: The IRC at 26 U.S.C. 5704(a) provides that manufacturers of tobacco products may remove tobacco products for experimental purposes without payment of Federal excise tax, as prescribed by regulation. Under that authority, the TTB regulations at 27 CFR 40.232(e) require the keeping of certain usual and customary business records regarding the description, shipment, use, and disposition of tobacco products removed for experimental purposes outside of the factory. These records are subject to TTB inspection and are

necessary to protect the revenue, as they allow TTB to account for the lawful experimental use and disposition of nontaxpaid tobacco products, and to detect diversion of such products into the domestic market.

Current Actions: There are no program changes or adjustments associated with this information collection, and TTB is submitting it for extension purposes only.

Type of Review: Extension of a currently approved collection.

Title: Customer Satisfaction Surveys for Permit Applications, Permits Online (PONL), Formulas Online (FONL), and COLAs Online.

Abstract: As part of TTB's efforts to improve customer service, we survey customers who submit applications for original or amended alcohol or tobacco permits, or for approval of alcohol beverage formulas or certificates of label approval (COLAs). These surveys assist TTB in identifying potential customer needs and problems, along with opportunities for improvement in our applications processes, with particular focus on customer experiences with TTB's various electronic application systems, Permits Online (PONL), Formulas Online (FONL), and COLAs Online.

Current Actions: There are no program changes associated with this information collection, and TTB is submitting it for extension purposes only. As for adjustments, due to changes in agency estimates, TTB is decreasing the estimated number of annual respondents, responses, and total burden hours associated with this collection.

Type of Review: Extension of a currently approved collection.

SUPPLEMENTARY INFORMATION:

Title: Emergency Capital Investment Program Initial Supplemental Report and Quarterly Supplemental Report.

OMB Control Number: 1505-0275.

Type of Review: Revision of a currently approved collection.

Description: Authorized by the Consolidated Appropriations Act, 2021, the Emergency Capital Investment Program (ECIP) was created to encourage low- and moderate-income community financial institutions to augment their efforts to support small businesses and consumers in their communities.

Under the program, Treasury will provide approximately \$8.70 billion in capital directly to depository institutions that are certified Community Development Financial Institutions (CDFIs) or minority depository institutions (MDIs) to, among other things, provide loans, grants, and forbearance for small businesses, minority-owned businesses, and consumers, especially in low-income and underserved communities, that may be disproportionately impacted by the economic effects of the COVID-19 pandemic.

ECIP capital is eligible for a reduction in the dividend or interest rate payable on the instruments depending on the increase in lending by the recipients of the capital (Recipients) within minority, rural, and urban low-income and underserved communities and to low- and moderate-income borrowers over a baseline amount of lending. Recipients are required to submit an Initial Supplemental Report and quarterly reports to determine their increase in lending to the specified targeted communities over the baseline and

therefore their qualification for rate reductions on the dividend or interest rates payable on the ECIP instruments. In addition, these reports will collect data necessary for Treasury and other oversight bodies to evaluate program outcomes over time. Treasury uses the Initial Supplemental Report to establish a baseline amount of qualified lending. Treasury proposes to continue use of this form to collect additional or restated data on a Recipient's amount of baseline lending, such as in connection with mergers, acquisitions, or other business combinations. Instructions may be modified from time to time to accommodate these uses.

Treasury proposes to use the Quarterly Supplemental Report to collect the information required to establish a Recipient's increase in lending. The Quarterly Supplemental Report has two components: (1) schedules which must be completed each quarter that collect data on activity for the preceding quarter and (2) schedules that collect data on the preceding calendar year of activity that are submitted annually. There are separate schedules and instructions for insured depository institutions, bank holding companies, and savings and loan holding companies; and credit unions.

Quarterly Report Schedules: Recipients of ECIP investments will be required to submit two schedules on a quarterly basis. Schedule A-Summary Qualified Lending is used to collect the Qualified Lending and Deep Impact Lending, as defined in the Glossary in the Instructions to the Quarterly Supplemental Report, of a Recipient for a given quarter. Schedule A is therefore used to establish the growth in a Recipient's Qualified Lending over its baseline Qualified Lending for the purposes of calculating the payment rate on the ECIP preferred shares or subordinated debt issued by the Recipient. Schedule B-Disaggregated Qualified Lending is used to present further detail on the composition of the Participant's Qualified and Deep Impact Lending.

Annual Report Schedules: Annually, Recipients will report on up to ten (10) additional schedules, depending on the origination activity that took place during the prior year. Schedule C-Additional Demographic Data on Qualified Lending collects additional demographic data on certain categories of Qualified Lending and Deep Impact Lending. Schedule D-Additional Place-based Data on Qualified Lending collects additional geographic data on certain categories of Qualified Lending and Deep Impact Lending.
