

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission**

[Docket No. EF23-4-000]

Western Area Power Administration; Notice of Filing

Take notice that on March 17, 2023, Western Area Power Administration submits tariff filing: CRSP_OLM_WAPA205-20230316 to be effective 5/1/2023.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically may mail similar pleadings to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426. Hand delivered submissions in docketed proceedings should be delivered to Health and Human Services, 12225 Wilkins Avenue, Rockville, Maryland 20852.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (<http://www.ferc.gov>) using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. At this time, the Commission has suspended access to the Commission's Public Reference Room, due to the proclamation declaring a National Emergency concerning the Novel Coronavirus Disease (COVID-19), issued by the President on March 13, 2020. For assistance, contact the Federal Energy Regulatory Commission at FERCOnlineSupport@ferc.gov or call toll-free, (886) 208-3676 or TTY, (202) 502-8659.

Comment Date: 5:00 p.m. Eastern Time on April 17, 2023.

Dated: March 22, 2023.

Debbie-Anne A. Reese,

Deputy Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission****Notice of Staff Attendance at North American Electric Reliability Corporation Standard Drafting Team Meeting**

The Federal Energy Regulatory Commission hereby gives notice that members of the Commission and/or Commission staff may attend the following meeting:

North American Electric Reliability Corporation Project 2021-07 Extreme Cold Weather Grid Operations, Preparedness, and Coordination Standard Drafting Team Meeting; March 28, 2023 (1:00 p.m.-3:00 p.m. Eastern Time).

Further information regarding these meetings may be found at: <http://www.nerc.com/Pages/Calendar.aspx>.

The discussions at the meetings, which are open to the public, may address matters at issue in the following Commission proceeding:

Docket No. RD23-1-000 Extreme Cold Weather Reliability Standards EOP-011-3 and EOP-012-1

For further information, please contact Chanel Chasanov, 202-502-8569, or chanel.chasanov@ferc.gov.

Dated: March 22, 2023.

Debbie-Anne A. Reese,

Deputy Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OLEM-2018-0392, FRL-10847-01-OMS]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Requirements and Exemptions for Specific RCRA Wastes (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), Requirements and Exemptions for Specific RCRA Wastes (EPA ICR Number 1597.14, OMB Control Number 2050-0145) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through March 31, 2023. Public comments were previously requested via the **Federal Register** on July 15, 2022 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

DATES: Comments may be submitted on or before April 27, 2023.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OLEM-2018-0392 to EPA online using www.regulations.gov (our preferred method or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: Peggy Vyas, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: 202-566-0453; vyas.peggy@epa.gov.

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through March 31, 2023. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on July 15, 2022 during a 60-day comment period (87 FR 42462). This notice allows for an additional 30 days for public comments. Supporting documents,

which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: In 1995, EPA promulgated regulations at 40 CFR part 273 that govern the collection and management of widely generated hazardous wastes known as "Universal Wastes". Universal Wastes are generated in a variety of non-industrial settings and are present in non-hazardous waste management systems. Examples of Universal Wastes include certain batteries, pesticides, mercury-containing lamps, and thermostats. The part 273 regulations are designed to ensure facilities collect these wastes and properly manage them in an appropriate hazardous waste management system. EPA needs to collect notifications of Universal Waste management to obtain general information on these handlers and to facilitate enforcement of the part 273 regulations. EPA promulgated labeling and marking requirements and accumulation time limits to ensure that Universal Waste is being accumulated responsibly. EPA needs to collect information on illegal Universal Waste shipments to enforce compliance with applicable regulations. Finally, EPA requires tracking of Universal Waste shipments to help ensure that Universal Waste is being properly treated, recycled, or disposed.

In 2001, EPA promulgated regulations in 40 CFR part 266 that provide increased flexibility to facilities managing wastes commonly known as "Mixed Waste." Mixed Wastes are low-level mixed waste (LLMW) and naturally occurring and/or accelerator-produced radioactive material (NARM) containing hazardous waste. These wastes are also regulated by the Atomic Energy Act. As long as specified eligibility criteria and conditions are met, LLMW and NARM are exempt from the definition of hazardous waste as defined in part 261. Although these wastes are exempt from RCRA manifest, transportation, and disposal requirements, facilities must still comply with the manifest, transportation, and disposal requirements under the NRC (or NRC-Agreement State) regulations. Section 266.345(a) requires that generators or treaters notify EPA or the Authorized State that they are claiming the

Transportation and Disposal Conditional Exemption prior to the initial shipment of a waste to a LLRW disposal facility.

In 1992, EPA finalized management standards for used oils destined for recycling. The Agency codified the used oil management standards at 40 CFR part 279. The regulations at 40 CFR part 279 establish, among other things, streamlined procedures for notification, testing, labeling, and recordkeeping. They also establish a flexible self-implementing approach for tracking off-site shipments that allow used oil handlers to use standard business practices (e.g., invoices, bill of lading). In addition, part 279 sets standards for the prevention and cleanup of releases to the environment during storage and transit. EPA believes these requirements will minimize potential mismanagement of used oils, while not discouraging recycling. Used oil transporters must comply with all applicable packaging, labeling, and placarding requirements of 49 CFR parts 173, 178, and 179. In addition, used oil transporters must report discharges of used oil according to existing 49 CFR part 171 and 33 CFR part 153 requirements.

Form Numbers: None.

Respondents/affected entities: Private sector and State, local, or Tribal governments.

Respondent's obligation to respond: Mandatory (40 CFR part 273), required to obtain or retain a benefit (40 CFR parts 266 and 279).

Estimated number of respondents: 27,127 (total).

Frequency of response: On occasion.

Total estimated burden: 530,478 hours (per year). Burden is defined at 5 CFR 1320.03(b)

Total estimated cost: \$56,792,139 (per year), which includes \$950 in annualized capital and \$10,013,038 in annualized operation & maintenance costs.

Changes in the Estimates: There is a decrease in the burden of 264,872 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is a result of a significant downturn in the number of Universal Waste handlers (down to 25,343 from 131,898), likely due in part to the effects of the COVID pandemic.

Courtney Kerwin,

Director, Regulatory Support Division.

[EPA-R09-OAR-2023-0182; FRL-10800-01-R9]

Adequacy Status of Motor Vehicle Emissions Budgets in 2008 8-Hour Ozone Extreme Area and Reasonable Further Progress Plan for Coachella Valley; California

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of adequacy.

SUMMARY: The Environmental Protection Agency (EPA) is notifying the public that we have found motor vehicle emissions budgets ("budgets") for the Coachella Valley adequate for transportation conformity purposes. Specifically, our finding relates to budgets in the "Request to Reclassify Coachella Valley for the 2008 8-hour Ozone Standard and the Updated Motor Vehicle Emission Budgets" ("Coachella Valley Extreme RFP Plan"), submitted to the EPA for inclusion in the California state implementation plan (SIP) by the California Air Resources Board (CARB) on December 7, 2022. Upon the effective date of this notice of adequacy, the Southern California Association of Governments (SCAG) and the U.S. Department of Transportation must use these budgets in future transportation conformity analyses.

DATES: This finding is effective April 12, 2023.

FOR FURTHER INFORMATION CONTACT: Karina O'Connor, Planning Section (ARD-2-1), Air and Radiation Division, EPA Region IX, 75 Hawthorne Street, San Francisco, CA 94105; (775) 434-8176 or occonnor.karina@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document, "we," "us," or "our" refer to the EPA.

This notice is simply an announcement of a finding that we have already made. By letter dated March 17, 2023, EPA Region IX notified CARB that the budgets in the Coachella Valley Plan for the reasonable further progress (RFP) years of 2023, 2026, 2029, and 2031 are adequate for transportation conformity purposes.¹ The finding is available at the EPA's conformity website.²

We announced the availability of the Coachella Valley Extreme RFP Plan and related RFP motor vehicle emissions budgets on the EPA's transportation

¹ Letter dated March 17, 2023, from Elizabeth Adams, Director, Air and Radiation Division, EPA Region IX, to Steven S. Cliff, Executive Officer, CARB.
