

and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NSPS.

Form Numbers: None.

Respondents/affected entities:

Owners and operators of phosphate rock plants.

Respondent's obligation to respond: Mandatory (40 CFR, part 60, Subpart NN).

Estimated number of respondents: 1 (total).

Frequency of response: Initially and semiannually.

Total estimated burden: 120 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$22,400 (per year), which includes \$8,400 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is a decrease in the total estimated respondent burden compared with the ICR currently approved by OMB, which is due to a decrease in the number of sources. This is due to an adjustment to reflect that phosphate rock facilities subject to the NESHAP for Phosphoric Acid Manufacturing (40 CFR part 63, subpart AA), as amended on August 19, 2015, are exempt from any otherwise applicable new source performance standards contained in 40 CFR part 60, subpart T, subpart U, or subpart NN, provided sources have a current operating permit pursuant to title V of the Clean Air Act. Most phosphate rock plants previously included as respondents to 40 CFR part 60, subpart NN are subject to 40 CFR part 63, subpart AA. Only one respondent is now subject to subpart NN. The previous ICR indicated 15 sources were subject to this subpart, which indicates a 94 percent decrease in the number of respondents. The reduced number of respondents also results in a subsequent decrease in the operation and maintenance costs. There are no new sources anticipated, therefore there is no anticipated change in capital costs.

FEDERAL COMMUNICATIONS COMMISSION

[FR ID: 133165]

Privacy Act of 1974; System of Records

AGENCY: Federal Communications Commission.

ACTION: Notice of a new system of records.

SUMMARY: The Federal Communications Commission (FCC or Commission or Agency) proposes to add a new system of records, FCC/WCB-5, USAC Customer Relationship Management (CRM), subject to the *Privacy Act of 1974*, as amended. This action is necessary to meet the requirements of the *Privacy Act* to publish in the **Federal Register** notice of the existence and character of records maintained by the Agency. The Universal Service Administrative Company (USAC), under the direction of the Commission and, by delegation, of the Commission's Wireline Competition Bureau (WCB), administers the Universal Service Fund (USF) programs and certain programs funded by Congressional appropriations ("appropriated programs"). This system of records contains information about individuals who are customers, participants, and stakeholders of the programs who submit complaints and requests for assistance to USAC to address issues with their program participation.

DATES: Written comments are due on or before May 1, 2023. This action will become effective on March 30, 2023, except for any new or significantly modified routine uses, which will become effective May 1, 2023.

ADDRESSES: Universal Service Administrative Company (USAC), 700 12th Street NW, Suite 900, Washington, DC 20005. Send comments to Brendan McTaggart, Federal Communications Commission (FCC), 45 L Street NE, Washington, DC 20554, or to *privacy@fcc.gov*.

FOR FURTHER INFORMATION CONTACT: Brendan McTaggart, (202) 418-1738, or *privacy@fcc.gov*.

SUPPLEMENTARY INFORMATION: USAC administers the programs of the USF (including the Lifeline, High Cost, Rural Health Care, and E-Rate programs) and certain appropriated programs including the Affordable Connectivity Program (ACP), Emergency Connectivity Fund Program (ECF), and the COVID-19 Telehealth Program on behalf of the FCC, as set forth in 47 CFR part 54, under the direction of the Commission and, by delegation, of WCB. Under the

Memorandum of Understanding Between the FCC and USAC (Dec. 19, 2018), as amended (Nov. 22, 2021) (FCC/USAC MOU) ¹ USAC is responsible for the effective administration of the programs, including responding to inquiries from program participants and providing timely and relevant data and analysis to inform the Commission in its policy making and oversight of the USF and appropriated programs. USAC has not previously had a unified Customer Relationship Management (CRM) system serving as central ticketing system for service inquiries for all of the programs it administers. The Lifeline customer service center is part of an existing *Privacy Act System of Records: FCC/WCB-1, Lifeline Program*, 86 FR 11526 (2021). The USAC CRM will handle and process inquiries from individuals, groups, and other entities, for all of the programs administered by USAC. The system allows USAC customer service representatives to access prior related inquiries in order to provide excellent customer service. It includes a portal to allow customers to easily interact with USAC through one channel of communication, maintaining the ability to view case status, create new cases, and review closed cases within the same interface. This system of records includes existing data from the established USF and appropriated programs administered by USAC. The system can also accommodate data from any future programs assigned by the FCC to be administered by USAC. The system allows USAC to retrieve records based on an individual's information within the system. The CRM system will be launched in phases on a program by program basis. Phase I currently includes High Cost, Rural Health Care, and Finance (Contributions) customer support. Phase II is anticipated to incorporate Lifeline and the Affordable Connectivity Program for customer support. Phase III will commence the consumer portal.

NARA has not adopted a schedule for appropriated programs records, and will be retained indefinitely until a NARA schedule is adopted for those programs' records. USAC adheres to National Institute of Standards and Technology (NIST) guidelines for the destruction of records.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

The electronic records, data, and files are maintained in the FCC and the USAC computer network databases, which are protected by the FCC's and USAC's privacy safeguards, a comprehensive and dynamic set of IT safety and security protocols and features that are designed to meet all Federal IT privacy standards, including those required by the National Institute of Standard and Technology (NIST) and the Federal Information Security Management System (FISMA).
