SUPPLEMENTARY INFORMATION:

Title of Collection: Loan Judgment Bias Experiment.

OMB Control Number: 3170–0048.

Type of Review: Request for approval of a generic information collection under an existing Generic Information Collection Plan.

Affected Public: Individuals.

Estimated Number of Respondents: 3,600.

Estimated Total Annual Burden Hours: 1,800.

Abstract: The proposed research examines whether information about borrower race biases judgments of creditworthiness in the context of a specific financial product: mortgage loan applications. We will ask non-practitioner research participants to evaluate stylized loan applications for Black, Hispanic, Asian, and White non-Hispanic consumers, where information about applicant race is the only characteristic that varies. We will also ask whether any impact of race information depends on the mode of information provision (e.g., explicit race/ethnicity information vs. implicit from borrower name or other indirect signal). A maximum of 3,600 participants will be recruited from the panel maintained by CloudResearch to complete the Loan Judgment Bias Experiment. The Bureau will collect information on judgments about the riskiness of hypothetical applications with varying characteristics and information related to the task including an assessment of the respondent’s experience completing the task. The Bureau will not receive any personal identifiable information (PII).

Request for Comments: The Bureau is publishing this notice and soliciting comments on: (a) Whether the collection of information is necessary for the proper performance of the functions of the Bureau, including whether the information will have practical utility; (b) The accuracy of the Bureau’s estimate of the burden of the collection of information, including the validity of the methods and the assumptions used; (c) Ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Comments submitted in response to this notice will be submitted to OMB as part of its review of this request. All comments will become a matter of public record.
