No Action Alternative—Under the No Action Alternative, restoration of the estuary would not be implemented. No removal of soil or vegetation would occur to restore or establish habitat within the project site. New or widened channel connections would not be implemented. Periodic removal of sand from the estuary's river mouth could continue to occur under separate approvals, but activities would be restricted to the river mouth and would not extend into the estuary.

EPA's Role in the EIS Process

Pursuant to the Council on Environmental Quality (CEQ) NEPA Regulations (40 CFR 1506.11), the U.S. Environmental Protection Agency (EPA) shall publish a notice of all EISs in the **Federal Register**. The EPA published notification of the DEIS/EIR in the **Federal Register** on August 19, 2022 (87 FR 51090).

Pursuant to section 309 of the Clean Air Act (CAA; 42 U.S.C. 7401 *et seq.*), NEPA, and the CEQ NEPA Regulations (40 CFR 1503.2), the EPA also reviewed and publicly commented on anticipated environmental impacts described in the DEIS/EIR. The EPA's comments, which are provided in Appendix D of the FEIS/EIR, focused primarily on three topics: (1) the need to develop, in coordination with the Southern California Dredged Material Management Team, additional information about the suitability of excavated sediments for placement at nearby beaches; (2) a request for additional information regarding the ongoing tribal consultation process for the project; and (3) a request for additional information to support the conclusions related to environmental justice. Responses to EPA's specific comments are also provided in Appendix D of the FEIS/EIR, and additional supporting documentation requested by the EPA has been incorporated into the appropriate sections of the FEIS/EIR.

In addition to this notice of availability, the EPA will also publish a notice in the **Federal Register** announcing the completion of the FEIS. A Record of Decision identifying the alternative selected for implementation will be published no sooner than 30 days after the EPA announces the availability of the FEIS in the **Federal Register**.

The EPA compiles a repository (EIS database) for EISs prepared by Federal agencies. The EIS database provides information about EISs prepared by Federal agencies, as well as EPA's

comments concerning the EISs. You may search for EPA comments on EISs, along with EISs themselves, at <https://cdxapps.epa.gov/cdx-enepa-II/public/action/eis/search>.

NEPA Compliance

On May 27, 2021, the Service published a notice of intent in the **Federal Register** (86 FR 28638) to prepare an EIS/EIR for the TETRP II Phase I project. The notice of availability of the draft EIS/EIR for public review and comment was published in the **Federal Register** on August 19, 2022 (87 FR 51124). A total of six comment letters were received during the public comment period for draft EIS/EIR. Commenters included the EPA, California Department of Fish and Wildlife, County of San Diego, San Diego Audubon Society, and two members of the public. In accordance with 40 CFR 1502.17(b), chapter 8 of the FEIS/EIR includes a summary presenting all alternatives, information, and analyses submitted by State, Tribal, and local governments and other public commenters for consideration by the lead and cooperating agencies in developing the FEIS. The comment letters and responses are provided in Appendix D of the FEIS/EIR. The responses indicate where additional information has been included in the FEIS/EIR in response to the comments received. The FEIS/EIR is available for public viewing (see **ADDRESSES**).
