POLICY JUSTIFICATION

Saudi Arabia—AIM-120C Advanced Medium Range Air-to-Air Missiles (AMRAAM)

The Kingdom of Saudi Arabia has requested to buy two hundred eighty (280) AIM-120C-7/C-8 Advanced Medium Range Air-to-Air Missiles (AMRAAM) and five hundred ninety-six (596) LAU-128 Missile Rail Launchers (MRL). Also included are containers; weapon support and support equipment; spare and repair parts; U.S. Government and contractor engineering, technical and logistical support services; and other related elements of logistical and program support. The total estimated cost is \$650 million.

This proposed sale will support U.S. foreign policy and national security of the United States by helping to improve the security of a friendly country that continues to be an important force for political and economic progress in the Middle East.

The proposed sale will improve Saudi Arabia's capability to meet current and future threats by increasing its stocks of medium-range missiles for its fighter aircraft fleet for its national defense. This potential sale will support Saudi Arabia's Eurofighter Typhoon, F-15C/D, F-15S, and F-15SA programs and will further strengthen the interoperability

between the United States and Saudi Arabia. Saudi Arabia will have no difficulty absorbing these missiles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Raytheon, Waltham, MA. There are no known offset agreements in connection with this potential sale; however the purchaser typically requests offsets. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Saudi Arabia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 20-11

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The AIM-120C-7/C-8 AMRAAM is a supersonic, air launched, aerial intercept, guided missile featuring digital technology and micro-miniature solid-state electronics. AMRAAM capabilities include look-down/shoot-down, multiple launches against multiple targets, resistance to electronic countermeasures, and interception of high and low-flying and maneuvering targets. The AIM-120C-8 is a form, fit, function refresh of the AIM-120C-7 and is the next generation to be produced.

2. The highest level of classification of information included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the hardware and software elements, the information could be used to develop countermeasures or equivalent systems

which might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that the Kingdom of Saudi Arabia can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal are authorized for release and export to the Kingdom of Saudi Arabia.
