(iii) Be deemed as essential for TRICARE operations.

(4) *For cancer and children's hospitals.* There are no temporary transitional payment adjustments in place. Reimbursement will be on the basis of OPPTS, however, payments shall be adjusted so that these providers receive 100 percent of their costs. Adjustments shall be made on an annual basis, and within 180 days of the end of the OPPTS year (OPPTS Year is defined as April 1 through March 30) DHA will calculate the hospital's costs, utilizing the hospital-specific outpatient cost-to-charge ratio (CCR). The costs shall be calculated by multiplying the hospital's billed charges for OPPTS services by the CCR. If the hospital's costs, as calculated by DHA, exceeded the payment that had been made under OPPTS, the hospital shall receive an annual payment adjustment so that the hospital receives 100% of their costs.

(d) *Payment of institutional facility costs for ambulatory surgery.* In general, TRICARE pays for institutional facility costs for ambulatory surgery on the basis of prospectively determined amounts, as provided in this paragraph, with the exception of ambulatory surgery procedures performed in hospital outpatient departments or CAHs, which are to be reimbursed in accordance with the provisions of paragraph (a)(6)(ii) or (iii) of this section. Surgical services provided in Ambulatory Surgery Centers (ASCs) as defined in § 199.2(b) will be paid in accordance with the provisions outlined in section 1833(t) of the Social Security Act and its implementing Medicare regulation (42 CFR part 416). TRICARE will recognize, to the extent practicable, in accordance with 10 U.S.C. 1079(i)(2), Medicare's ASC reimbursement methodology to include specific coding requirements, prospectively determined rates, discounts for multiple surgical procedures, the scope of ASC services, covered surgical procedures, and the basis of payment as described in 42 CFR part 416 with the exception that TRICARE will implement no transitional payments. Payments to ASCs for covered procedures and services will be based on the lesser of the billed charge or the ASC payment rate. Payment for ambulatory surgery procedures is limited to those procedures that are reimbursed by Medicare in ASCs, with the exception of dental procedures that are covered by the TRICARE program, as described in

§ 199.4. In the absence of a Medicare ASC fee schedule rate, the payment for a covered dental procedure in ASCs will be based on the same rate under TRICARE's OPPTS.
