

FAA Order JO 7400.11G lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to 14 CFR part 71 by modifying the Class E airspace extending upward from 700 feet above the surface to within an 6.6-mile (decreased from a 6.7-mile) radius of Culberson County Airport, Van Horn, TX; removing the city associated with the airport in the airspace legal description to comply with changes to FAA Order JO 7400.2N, Procedures for Handling Airspace Matters; and updating geographic coordinates of the airport to coincide with the FAA's aeronautical database.

This action is the result of an airspace review caused by the decommissioning of the Van Horn NDB which provided navigation information for the instrument procedures at this airport.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11G, Airspace Designations and Reporting Points, dated August 19, 2022, and effective September 15, 2022, is amended as follows:

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

* * * * *

ASW TX E5 Van Horn, TX [Amended]

Culberson County Airport, TX
(Lat. 31°03'28" N, long. 104°47'02" W)

That airspace extending upward from 700 feet above the surface within a 6.6-mile radius of the Culberson County Airport.

Issued in Fort Worth, Texas, on April 4, 2023.

Martin A. Skinner,

Manager, Operations Support Group, ATO Central Service Center.

RIN 2120–AA66

Amendment of VOR Federal Airways V–10 and V–210 in the Vicinity of Revloc, PA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to amend Very High Frequency (VHF) Omnidirectional Range (VOR) Federal airways V–10 and V–210 in the vicinity of Revloc, PA. The amendments are due to the planned decommissioning of the VOR portion of the Revloc, PA (REC), VOR/Distance Measuring Equipment (VOR/DME) navigational aid (NAVAID). The Revloc VOR is being decommissioned as part of the FAA's VOR Minimum Operational Network (MON) program.

DATES: Comments must be received on or before May 25, 2023.

ADDRESSES: Send comments identified by FAA Docket No. FAA–2023–0880 and Airspace Docket No. 22–AEA–33 using any of the following methods:

* *Federal eRulemaking Portal:* Go to www.regulations.gov and follow the online instructions for sending your comments electronically.

* *Mail:* Send comments to Docket Operations, M–30; U.S. Department of Transportation, 1200 New Jersey Avenue SE, Room W12–140, West Building Ground Floor, Washington, DC 20590–0001.

* *Hand Delivery or Courier:* Take comments to Docket Operations in Room W12–140 of the West Building Ground Floor at 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

* *Fax:* Fax comments to Docket Operations at (202) 493–2251.

Docket: Background documents or comments received may be read at www.regulations.gov at any time. Follow the online instructions for accessing the docket or go to the Docket Operations in Room W12–140 of the West Building Ground Floor at 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FAA Order JO 7400.11G, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at www.faa.gov/air_traffic/publications/. You may also contact the Rules and Regulations Group, Office of Policy, Federal Aviation Administration, 800 Independence Avenue SW, Washington DC 20591; telephone: (202) 267–8783.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the

safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would modify the National Airspace System (NAS) as necessary to preserve the safe and efficient flow of air traffic.

Comments Invited

The FAA invites interested persons to participate in this rulemaking by submitting written comments, data, or views. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. The most helpful comments reference a specific portion of the proposal, explain the reason for any recommended change, and include supporting data. To ensure the docket does not contain duplicate comments, commenters should submit only one time if comments are filed electronically, or commenters should send only one copy of written comments if comments are filed in writing.

The FAA will file in the docket all comments it receives, as well as a report summarizing each substantive public contact with FAA personnel concerning this proposed rulemaking. Before acting on this proposal, the FAA will consider all comments it receives on or before the closing date for comments. The FAA will consider comments filed after the comment period has closed if it is possible to do so without incurring expense or delay. The FAA may change this proposal in light of the comments it receives.

Privacy: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at www.dot.gov/privacy.

Availability of Rulemaking Documents

An electronic copy of this document may be downloaded through the internet at www.regulations.gov. Recently published rulemaking documents can also be accessed through the FAA's web page at www.faa.gov/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received and any final disposition in person in the Dockets Operations office (see **ADDRESSES** section for address, phone number, and hours of operations). An informal docket may also be examined during normal

business hours at the office of the Operations Support Group, Central Service Center, Federal Aviation Administration, 10101 Hillwood Parkway, Fort Worth, TX, 76177.

Incorporation by Reference

VOR Federal airways are published in paragraph 6010(a) of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document proposes to amend the current version of that order, FAA Order JO 7400.11G, dated August 19, 2022, and effective September 15, 2022. These updates would be published in the next update to FAA Order JO 7400.11. That order is publicly available as listed in the **ADDRESSES** section of this document.

FAA Order JO 7400.11G lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

Background

The FAA is planning to decommission the VOR portion of the Revloc, PA, VOR/DME in November 2023. The Revloc VOR is one of the candidate VORs identified for discontinuance by the FAA's VOR MON program and listed in the Final policy statement notice, "Provision of Navigation Services for the Next Generation Air Transportation System (NextGen) Transition to Performance-Based Navigation (PBN) (Plan for Establishing a VOR Minimum Operational Network)," published in the **Federal Register** on July 26, 2016 (81 FR 48694), Docket No. FAA-2011-1082.

Although the VOR portion of the Revloc VOR/DME NAVAID is planned for decommissioning, the co-located DME portion of the NAVAID is being retained to support NextGen PBN flight procedure requirements.

The VOR Federal airways affected by the Revloc VOR decommissioning are V-10 and V-210. With the planned decommissioning of the Revloc VOR, the remaining ground-based NAVAID coverage in the area is insufficient to enable the continuity of the affected airways. As such, the proposed modification to V-10 would result in one of the three existing airway segments being removed and the proposed modification to V-210 would result in an existing gap in the airway being expanded.

To address these proposed modifications, instrument flight rules (IFR) traffic could use adjacent VOR Federal airways V-12 or V-106 or receive air traffic control (ATC) radar vectors to fly around or through the affected area. Additionally, pilots

equipped with RNAV capabilities could also navigate point to point using the existing fixes that would remain in place to support continued operations though the affected area. Visual flight rules (VFR) pilots who elect to navigate via the affected VOR Federal airways could also take advantage of the adjacent ATS routes or ATC services listed previously.

Prior to this NPRM, the FAA published a rule for Docket No. FAA-2022-1113 in the **Federal Register** (88 FR 2504; January 17, 2023) amending V-10 by removing the airway segment between the Gipper, MI, VOR/Tactical Air Navigation (VORTAC) and the Litchfield, MI, VOR/DME NAVAIDs. The V-10 airway amendment will be effective April 20, 2023, and is reflected in this action.

The Proposal

The FAA is proposing an amendment to 14 CFR part 71 by amending VOR Federal airways V-10 and V-210 due to the planned decommissioning of the VOR portion of the Revloc, PA, VOR/DME. The proposed airway action is described below.

V-10: V-10 currently extends between the Pueblo, CO, VORTAC and the intersection of the Bradford, IL, VORTAC 058° and Joliet, IL, VOR/DME 287° radials (PLANO Fix); between the intersection of the Chicago Heights, IL, VORTAC 358° and Gipper, MI, VORTAC 271° radials (NILES Fix) and the Gipper, MI, VORTAC; and between the Youngstown, OH, VORTAC and the Lancaster, PA, VOR/DME. The FAA proposes to remove the airway segment between the Youngstown, OH, VORTAC and the Lancaster, PA, VOR/DME. As amended, the airway would be changed to extend between the Pueblo VORTAC and the intersection of the Bradford VORTAC 058° and Joliet VOR/DME 287° radials (PLANO Fix), and between the intersection of the Chicago Heights VORTAC 358° and Gipper VORTAC 271° radials (NILES Fix) and the Gipper VORTAC.

V-210: V-210 currently extends between the Los Angeles, CA, VORTAC and the Lamar, CO, VOR/DME; between the Will Rogers, OK, VORTAC and the Okmulgee, OK, VOR/DME; between the Brickyard, IN, VORTAC and the Rosewood, OH, VORTAC; and between the Revloc, PA, VOR/DME and the Yardley, PA, VOR/DME. The FAA proposes to remove the airway segment between the Revloc, PA, VOR/DME and the Harrisburg, PA, VORTAC. As amended, the airway would be changed to extend between the Los Angeles VORTAC and the Lamar VOR/DME, between the Will Rogers VORTAC and

the Okmulgee VOR/DME, between the Brickyard VORTAC and the Rosewood VORTAC, and between the Harrisburg VOR/DME and the Yardley, PA, VOR/DME.

The NAVAID radials contained in the VOR Federal airway descriptions below are unchanged and stated in degrees True north.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11G, Airspace Designations and Reporting Points, dated August 19, 2022, and effective September 15, 2022, is amended as follows:

Paragraph 6010(a) Domestic VOR Federal Airways.

* * * * *

V–10 [Amended]

From Pueblo, CO; 18 miles, 48 miles, 60 MSL, Lamar, CO; Garden City, KS; Dodge City, KS; Hutchinson, KS; Emporia, KS; INT Emporia 063° and Napoleon, MO, 243° radials; Napoleon; Kirksville, MO; Burlington, IA; Bradford, IL; to INT Bradford 058° and Joliet, IL, 287° radials. From INT Chicago Heights, IL, 358° and Gipper, MI, 271° radials; to Gipper.

* * * * *

V–210 [Amended]

From Los Angeles, CA; INT Los Angeles 083° and Pomona, CA, 240° radials; Pomona; INT Daggett, CA, 229° and Hector, CA, 263° radials; Hector; Goffs, CA; 13 miles, 23 miles 71 MSL, 85 MSL Peach Springs, AZ; Grand Canyon, AZ; Tuba City, AZ; 10 miles 90 MSL, 91 miles 105 MSL Rattlesnake, NM; Alamosa, CO; INT Alamosa 074° and Lamar, CO, 250° radials; 40 miles, 51 miles 65 MSL to Lamar. From Will Rogers, OK; INT Will Rogers 113° and Okmulgee, OK, 238° radials; to Okmulgee. From Brickyard, IN; Muncie, IN; to Rosewood, OH. From Harrisburg, PA; Lancaster, PA; INT Lancaster 095° and Yardley, PA, 255° radials; to Yardley.

RIN 2120–AA66

Amendment of Class D and Class E Airspace; Lakeland, FL

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to amend Class D airspace, Class E airspace designated as an extension to a Class D surface area, and Class E airspace extending upward from 700 feet above the surface for Lakeland Linder International Airport, Lakeland, FL, as an airspace evaluation determined an update for this airport necessary. This action would also update this airport’s name and geographic coordinates, as well as the

names of Bartow Executive Airport, Plant City Airport, and Winter Haven Regional Airport. In addition, this action would remove the Lakeland VORTAC from the Class E airspace designated as an extension to a Class D surface area description.

DATES: Comments must be received on or before May 25, 2023.

ADDRESSES: Send comments identified by FAA Docket No. FAA–2023–0588 and Airspace Docket No. 23–ASO–10 using any of the following methods:
